Christian Reflections.

BY CHARLES DENNISON.

The Saviour of mankind;

I know my Lord yet lives,

And intercedes for men;

To save us all from sin.

And to Him do I pray;

My Saviour 's full of love,

He fills my soul with joy,

I long to be at rest with Him,

My eye is fixed on Him,

I shall be glorified;

Forever to abide.

A WARNING TO YOUNG MEN.-In nearly all the large towns and cities, young men form themselves into clubs, of various kinds, to enable them to pass away the hours of the long winter evenings socially and pleasantly. They are, many of them, among strangers, far away from the home circle, and the pleasant associations which gather around the hearthstone of their childhood, and they find it difficult to get into society. Their time, after the business hours of the day are past, drags heavily, and they are ready to take up with almost anything that offers itself in the shape of amusement or recreation. A club of jolly good fellows has many attractions under these circumstances. Whilst we would not do anything to curtail the real enjoyments of the young, especially under such circumstances as we have detailed above. we would warn them against those which are injurious to either soul or body.

An old merchant related in our hearing, a few evenings since, his own experience and observation in regard to this matter. When he left home to go into business in the city. he felt lonely in the evenings, and longed for companionship. He was diffident, and had no influential friends to take him by the hand and introduce him into society. A friend invited him to join a social club. They spent their time in song and jest, eating and drinking and general jollity. He kept a list of all who belonged to the club during his connection with it, and has traced their histories since. Of forty-nine, but three now remain, enjoying a green old age. Most of the others went to early graves the victims of intemperance. Very few of them were ever successful in business, though some of them were young men of fine business capacity. Our venerable friend thinks the seeds of their ruin were sown in the club room. He said, with great emphasis, had I an iron voice. which I could ring through our whole country. I would say to every young man, beware of the club room. and esnecially the room of a drinking club. Modern Sadduceeism and Annihilationism.

It may be supposed that the peculiarities of the ancient Sadducees had forever passed away with that once numerous sect of the Jews Solomon once wrote thus: "The thing that hath been. it is that which shall be, and that which is done, is that which shall be done and there is no new thing under the sun. there any thing whereof it may be said, See, this is new? It hath been already of old time, which was before us."-Eccl. i. 9, 10. This may not be as literally true of mechanics and scientific discoveries, as it is of moral and reli gious theories: for the human mind was as likely to adopt a certain train of reasoning. and to arrive at a final conclusion in ancient times as in our own. Human intellect has undergone no radical metamorphosis any far ther than has been effected by education. We have at the present day, samples of all the philosophic and religious dogmas that have checkered the moral world in all past ages.

The Sudducees were a sect among the Jews in our Saviour's time. They differed from all other sects and orders of religionists. in their opinions. They are said to be the disciples of one Saddoc, the founder of their sect. And he is supposed to have succeeded one Antigonus Souhœus, as a disciple succeeds his master, and probably lived about 260 years before the birth of Jesus Christ.

They differed from the other Jews in regard to angels and spirits, and the immortality of the soul. They admitted that men have ra tional souls: but that the soul is mortal, and as a necessary consequence, they denied future rewards and punishments. This is what the writer of the Acts said of them in chap. xxiii 8: For the Sadducees say that there is no resurrection, neither angel nor spirit; but the Pharisees confess both." They held to the doctrine which is now known by the name of Annikilationism, which consists mainly in denying the immortality of the human soul. and maintaining that the soul dies with the body. This is the main feature of Sadduceeism. The Sadducees denied the resurrection of the dead. as a necessary consequence of their doctrine. dies; and by the same mode of reasoning, they denied a hereafter, and future rewards and ed to this ancient heresy-such as creating the soul anew at the time of the resurrection, and he shall have it some two or three thousand sentiments are nothing but appendages to the ancient Sadducean faith, and they must stand or fall together.

BURIED CITY AND ITS TREASURES. - The New Grenada grave excitement having pretty well died out, the restless treasure-seekers have taken it into their heads that the old city of Port Royal, which was swallowed up by an earthquake in 1592, and over the ruins of which now dash the waters of the Bay of Kingston, Jamaica, if its deluged secrets were explored, would pay for the risk and trouble and expense with untold gold. Such an experiment is already projected, and, with marine armor, it is in the range of modern possibilities that it will result in something practical. When the city was sunken, it was large, populous, well-built and wealthy; and when the earth opened and the waves of the sea engulfed it, it became the coffin of thousands, and in its ruins, yet to be seen in a clear, sunny day, as

the vessel glides over the smooth waters of the bay, and over the house-tops and streets of the once gay metropolis of the Island, many of its ruins having yet resisted the action of the waves and wear of time, there can be no doubt that great wealth lies buried, and is probably accessible to the approach of modern arts and adventures. More improbable expeditions have been started, resulting in some instances in suc-
