For the Sabbath Recorder. MODES OF BRINGING THE BIBLE INTO DISREPUTE. Having endeavored to show the true relation of Reason and Revelation...

But much as we wonder at the attempt to commit the Scriptures to such false and foolish systems of geography and astronomy...

Such mistaken divines as Adams, and Ross, and a host of lesser divines whom slavery has drawn or driven into its support...

But let us inquire what our ministers generally are doing to stay this march of infidelity, set on foot by those who are succeeding, alas, too well, in convincing the American mind...

In conclusion, let me offer a word of encouragement to the faithful soldier of Christ. With the pure word of God, attested by the everlasting axioms of reason, truth will triumph.

ever been made. I of course refer to the new feature of the slavery controversy. That abominable institution, reeking with the blood of so many victims...

There are some truths which we know by intuition, which rise above all proof, and stand revealed by the spontaneous affirmation of the human reason.

Beautiful instance of Faith. We have seldom met with anything so touching as the incident recorded below. It was so strikingly illustrative of the nature of faith...

Beautiful instance of Faith. Mary, the eldest, said to the others: "Let us pray to God to help us to find our way out," and all kneeling down, with hands uplifted, they prayed for deliverance.

THE LORD'S SUPPER.

With your permission, I should like to give expression to a few thoughts on the subject of the Lord's Supper, through the medium of your paper. I shall feel some delicacy in saying what I wish to say on this subject, considering that much has already been written on it for the Recorder, by those who are older and far abler than myself, and remembering, also, that the views I shall express are in some particulars opposed to the views held by very many, if not most, of the readers of your columns.

GENERAL INTELLIGENCE.

WE ARE again called upon to chronicle one of those sudden and awful steamboat calamities which show men how multiplied are the dangers which surround them, and how frail is their tenure of life. It occurred on Sabbath (Saturday) morning, Sept. 8th, and caused the loss of probably three hundred lives. The following is the account of the matter given by the clerk of the wrecked steamer:

THE CROPS IN CALIFORNIA.—A merchant in San Francisco supplies a paper there with the following figures on the productiveness of the California soil. He says: "We have wheat, under cultivation in 1860, 250,000 acres of land, average yield thirty bushels to the acre, say 7,500,000. Consumption—60,000 barrels flour per month, say five bushels the barrel, is equivalent to 300,000 bushels per month for bread; for twelve months say 3,600,000. For seed next year, one and one-half bushels to the acre, 250,000—say 375,000. Total 3,875,000—showing a surplus of 3,525,000 bushels from the present year's crop. The barley crop of this State is greater than the aggregate of the entire crop throughout the United States, estimated at 2,500,000 acres, which, at thirty bushels to the acre, is 7,500,000; consumed as provender, 2,400,000; consumed for malting lager beer, 192,000; consumed for seed for the year 1860, one and one-half bushels to the acre, say 250,000 (375,000). Total 2,967,000. Leaving us a surplus of 4,533,000 bushels from our present crop."

THE WHOLE number admitted to the Juvenile House of Industry, since it was established, is 500, of which 162 were admitted during the past year; and 259 discharged. Total remaining, 101. The children committed during the past year were, idle and truant, 72; homeless, 15; vagrants, 14; insubordination, 43; petty crimes, 3; poverty of parents, 13. 39 were fatherless, 93 motherless, and 16 orphans. The ages of the children range from 5 to 14 years. The educational exercises of this institution are the same as in the public schools.

THE DELAWARE Indians of Kansas are to be subjected to a loss of half their lands, through treaty stipulations, by which they are to go to aid in the construction of a railroad to run west from Kansas city. The remaining half of the reservation is to be so surveyed as that every Indian will have his portion properly secured to him.

A man named Dana Scripture, residing in North Canton, Ct., while under the influence of liquor, on Saturday, attempted to kill his wife by splitting her head open with an axe. He had inflicted a most frightful wound when the poor woman was rescued by a neighbor, who hearing her screams came to her assistance.

CHAP. 349. AN ACT to perfect an amendment to the Constitution abolishing the Property Qualification for the office of color. Passed April 13, 1860—three-fifths being present. Whereas, The following amendment to the Constitution of this State was agreed to by a majority of all the members elected to each branch of the legislature for the year one thousand eight hundred and fifty-nine, and the said amendment was duly entered on the journals of each branch of the legislature, with the yeas and nays taken thereon, and referred to the legislature next ensuing, to wit: "That no person shall be eligible to the office of senator or member of assembly, who has not been a citizen of this State for three months previous to such election, in pursuance of the thirteenth article of the Constitution of this State; and Whereas, The said amendment was also agreed to by a majority of all the members elected to each of the said branches of the legislature for the year one thousand eight hundred and sixty, pursuant to said thirteenth article; which said amendment is in the words following, to wit: "Section 1, article two, of the Constitution of this State, is hereby amended, so that each of the following words: 'But no man of color, unless he shall have been for three years a citizen of this State, and for one year next preceding any election, shall have been seized and possessed of a freehold estate of the value of two hundred and fifty dollars, over and above all debts and incumbrances charged thereon, and shall have been actually rated and paid tax thereon, shall be entitled to vote at such election; and no person of color shall be subject to direct taxation unless he shall be seized and possessed of such real estate as aforesaid.' Now, therefore, for the purpose of submitting the said proposed amendment to the people of this State—The People of the State of New York, represented in Senate and Assembly, do enact as follows: SECTION 1. The inspectors at each poll in the several towns and wards of this State, at the general election for Governor, to be held on the sixth day of November, one thousand eight hundred and sixty, shall provide a box to receive the ballots of the citizens of this State, in relation to the said proposed amendment, and each voter may present a ballot on which shall be written or printed, or partly written or partly printed, one of the following forms, namely: 'For' or 'against' the proposed amendment in relation to suffrage; or 'against' the proposed amendment in relation to suffrage.' SUMMARY. The Bay State publishes a full history of the manufacture of morocco in Lynn, Mass., by which it appears that it is at the present time the largest morocco manufacturing city in the United States, with one exception—Philadelphia. The number of persons carrying on the business is 22; number of hands employed 340—male 309, female 31; number of goat and sheep skins manufactured, 1,041,000—of that number only about 125,000 are sheep skins; amount of business done in the year 1859, \$95,000; amount of capital invested, \$180,000. This does not include buildings for manufacturing purposes.

A. Dudley Mann, Esq., states in a letter to the Richmond Enquirer, that he has received assurances upon which he can implicitly rely, that in less than two months the Great Eastern will re-enter Hampton Roads, if she can get such a cargo as he proceeds to specify. She will come prepared, he says, if such be the wish of the Southern people, to convey to Milford Haven thirty thousand bales of cotton, or twelve thousand hogshheads of tobacco, or seventy-five thousand barrels of flour, or three hundred thousand bushels of wheat or corn. A mixed cargo, however, will be preferable.

By a careful examination of the geography of the world, it has been ascertained that the great artesian bore at Columbus, Ohio, will, on passing through the opposite side of the globe, come out exactly fifteen miles from the great China wall on the China side, and about 350 miles from Pekin. This is a discovery of importance, and must vastly encourage the people of that capital city. If they do not succeed in obtaining water, they intend, we are told, to pass a telegraph through, so as to bring Columbus into direct communication with the Celestial Empire.

THE MURDERED METHODIST CLERGYMAN IN TEXAS.—The Albany Journal has the following in regard to one of the men recently murdered in Texas: "Rev. Mr. Bewley, who was hung in Texas a few days since on suspicion of abolitionism, will be remembered by many who attended the General Conference at Buffalo last May. He represented the Arkansas Conference, and was recognized as a peaceful, humble and devoted evangelist. His views of slavery were of the mildest character, and he would be deemed the last man to thrust his views offensively—mild and conservative though they were—upon any community. On his removal to Texas a few months since, he carried with him testimonials of his humility and devotion to his work. But he was a Methodist! That, in Texas, is deemed the equivalent of abolitionism; and the devoted minister of Christ, guilty of no crime, and on the merest suspicion that he cherished offensive opinions, was hung up like a murderer!"

More virtuous, if they will;
