THE EPHRATA MONUMENT.

Many of our readers are aware, that our German Seventh day Brethren of Pennsylvania, though opposed to conflict with arms, were warm Whigs during the Revolutionary War; and that after the battle of Brandywine, they opened their extensive establishment for the reception of the wounded American soldiers, nursed them, and were sincere in their creed, and if averse to strife closed the eyes of some hundred and fifty. Within a twelve month some of the neighbors have formed an association to erect a memorial over their earthly remains. The corner stone of the monument was laid last autumn, in all due form; and we give below some extracts from the Oration of JOSEPH R. CHANDLER, Esq., delivered on that occasion; which bears honorable testimony to the they seem on the eminence here, overlooking the patriotism, benevolence and piety of those unobtrusive followers of the Lord Jesus.

The good old Colonel presided. Gov. Shunk officiated in laying the stone; delivered an address, and repeated it in German. of the primitive followers of our faith, these residents of Mount Zion must be content also, like the primitive preachers at Antioch, with the simple designation of CHRISTIANS. What were the peculiarities of the creed, and the customs of this people, it is not a part of my design to explain. They held, in common with some other Christians, however, the inconsistency of warfare with the doctrines of Christ. Whether they were right or wrong, it is for the theologian to decide-it is enough for us to know, that they

MORAL CHARACTER OF THE OLD TESTAMENT IDEN-

TICAL WITH THE NEW. Those who would lead us to believe a system of morals to be taught in the NewTestament, indescribably higher and purer than can be found in the Old, are fond of appealing in proof, to the tempers and benevolent feelings with which we are required to regard our personal enemies.

Now we regard these holy precepts with a feeling approaching awe, and point to them as unanswerable proofs of the heavenly origin of the gospel, and the Divine character of its author; but we cannot admit the contrast which is alledged, by some, and granted by others, to exist between these sentiments, and those on the same subject in the Old Testament. I do not mean to deny that these sentiments are more prominent in the New Testament, that they are brought out with more clearness, but to deny contrast. As for instance: where Christ says Matt. 5, "I say love your enemies" &c., that it is implied, or can be proved, that the Old Testament taught us to hate our enemies.

When he says, "Ye have heard that it hath been said by them of old time," (in the land) thou shalt love thy neighbor, and hate thine ene-The first store was opened by Mr. Goodrich ume might be found in monasteries and palaces but have taught falsely, for the phrase, "and hate thine enemy," is nowhere written in the law, therefore in vindication of the law-" I say unto you love your enemies " &c. Here, it is clear, Christ intended to vindicate the law, and make it honorable, and only complains of its perversion and falsification. I think all who consider the subject swith care, must perceive that he is not making, but interpreting law, and that what he says about loving enemies &c., he declares to be the real sentiments and teachings of the law. The points are these. The Pharisees tell you the law says love your neighbor, and hate your enemy, but I say unto you, the law teaches you to love your enemies. That this is true of the law, I will now attempt to prove, by referring to specific passages in reference to the treatment of enemies. Exodus 23: 4.5. "If thou meet thine enemy's ox, or his ass going astray, thou shalt surely bring it back to him again." " If thou see the ass of him that hateth thee lying under his burden and wouldst forbore to help him; thou shalt surely help with him." Here is practical love to an enemy. Here by Moses, God requires us, and required the Jews, to do good unto those that hated them, the identical teaching of Christ in Matthew 5th. I cannot understand the Saviour to utter it as original with himself, but affirm, in opposition to the Pharisees, such to be the teachings of the law, and of course sanctioned by him, " for he came, not to destroy, but to ratify" the law. Another passage to which frequent reference is made, is found in Romans 12: 20. 21. "Therefore if thine enemy hunger, feed him; and if he thirst, give him drink : for in so doing, thou shalt This beautiful passage, so full of the meekness and gentleness of Christ, Paul quotes from Proverbs 25:21.22. "If thine enemy be hungry, give him bread to eat; and if he be thirsty, give him water to drink." "For thou shalt heap coas of fire on his head, and the Lord shall reward thee." Such is the beautiful harmony existing between these two volumes of inspiration, both equally from God, and in the purity of their moral precepts, vindicating themseives from the aspersions of ignorance and depravity. Precious oracles of truth ! A tythe of the moral purity and benevolence required in the Old Testament, would add a lustre to the character of those who declare against it, as teaching a defective morality. True Wes.

built of gravel and lime—a preparation for the Milton.

The tavern is truly an object of curiosity. It s hexagonal in shape, and each wall measures wenty feet, giving an area of one hundred and twenty feet on each floor. The building contains a basement and two stories. The basement is quently very slender. The mind of the common constructed of hammered limestone, the first story and the basement are divided into three spacious rooms each, of diamond form. The roof is supported in the center by a stone pillar, which rises from the basement, and around which winds a circular stair case, leading to a rotunda in the

second story, from which there is a communication with six convenient bed chambers. The roof of this novel edifice is concave on the surface having a declivity towards the center, where a pipe has been introduced for the purpose of conveying the rain water into a cistern in the rear of the basement story. The center of the pillar which supports the roof contains a vacuum of sufficient dimensions to admit all the stove pipes used in the different rooms. Each wall of the building is carried seven feet above the roof and terminates in the shape of a gable with an imitation chimney on the peak. The whole of this gravel structure. which cost about \$1000, bears analogy to an ancient castle, the six gables serving as a balustrade. The walls are eighteen inches thick on the base. ment, fifteen on the first story, and twelve inches on the second story.

Mr. Goodrich informs me that a house can b built of gravel cheaper than of any other material, and so well satisfied is he with the permanency of gravel walls, that he intends to enclose all the fields on his extensive and highly cultivated farm with gravel fences. He uses only one bushel of lime to every seven or eight bushels of gravel. The Milton Academy is located on the west side of the public square, and measures thirty two

feet in length, thirty feet in width, and twelve feet is height. It is surmounted by a handsome belfry, ornamented with gothic spires, and having a well toned bell of 65 lbs. weight. This useful

and pretty edifice is also constructed of gravel. urday.

SUBLIMITY OF THE BIBLE .--- An obscure Scotcl peasant, calling on business at a gentleman's house in Edinburg, saw a bust of Shakespeare, and these ines from the Tempest inscribed beneath it :----

"The cloud-capt towers, the gorgeous palaces, The solomn temples, the great globe itself, Yea, all which it inherit, should dissolve, And like the baseless fabric of a vision, Leave not a wreck behind."

The gentleman seeing the peasant's eyes attracted by these lines, asked him if he had ever seen any thing equal to them in sublimity. His reply was just and striking. "Yes, I have. The fol lowing passage from the Book of Revelations is nuch more sublime :

' And I saw a great white throne and him that sat upor , from whose face the earth and the heaven fled away, and there was no place for them.'

THE STRONG POINTS.—In the controversy with Romanism, it is well to keep in view the following strong points. 1. The sufficiency of the holy Scriptures. This Romanism denies, by setting heap coals of fire on his head " up tradition as a joint and co-ordinate rule of faith. 2. The right and duty of every man to judge of and interpret the Scriptures for himself. This Romanism denies by setting up an ecclesia docens, or teaching church, to do the individual's thinking for him. 3. Justification by faith only in the atoning blood of Christ, This Romanism makes of non-effect by teaching that fasting, a partaking of the sacraments, confessing to the priest and the like, will avail to salvation. CHINESE MISSIONS.

In our last number we gave a succinct account of one branch of Protestant efforts for the en lightenment of China, and of the striking inter position of the Great Ruler of Nations for the for warding of the work. From that account, it ap pears that the English Baptist Missionaries furned their attention to the Chinese version of the Scriptures in the year 1804, and steadily pursued their work to its completion. In 1814 two thousand copies of the New Testament in Chinese, together with Chinese tracts, were printed and circulated among Chinese teachers in the Islands of Java, Penang, Ambayna, and other parts of India; and several Chinamen were baptized within a few years subsequent. At present the American Bap. tists have six missionaries and their wives, and thirteen native preachers, laboring for the good Morrison in 1834. PUT THAT AND THAT TOGETHER. "Similia similibus curantur."

It is a quaint saying, the origin thereof we do not pretend to trace, but the wisdom of which would oft-times prove profitable to us short-sighted creatures, when we take, as we are apt to do, a onesided view of matters, and strain an explanation of some inscrutable calamities, which befal us poor mortals here below-were we just to "put that and that together, and see now how it comes out,"cause. "expediency" prompts them to invoke the Legislature to legalize and enforce its observance by all persons! Expediency and human legislation, then, and not the decree of the Almighty, have ordained the sanctity of the first day of the week; and in addition to all this, they presumptuously rob the Lord of glory of his own hallowed day of rest by calling the first day of the week "the Sabbath," while the great Jehovah declares, "The seventh day is the Sibbath of the Lord thy God," and thrust the Sabbath of their own making down our throats by penal enactments, than which a greater presumption, nor a grosser injustice, has ever been perpetrated since the days of the crucifixion. It is the foulest blasphemy and the most despicable tyranny ever legalized in any country.

Now, if any legitimate deduction may be drawn from the foregoing circumstances, we would infer, that the "Lord of the Sabbath" has become weary

Here is the extract from the Ledger:

"The Bill to suppress Vice and Immorality was passed in the House of the New-Jersey Le. gislature on Wednesday, without amendment. Many ineffectual attempts have been made during its several readings to modify the section relating to the observance of the Sabbath, by allowing the Seventh-day Baptists to work whenever they choose on the first day, and another attempt was made to introduce a clause permitting them to vend their wares in settlements in which the 'mass of the people' were Seventh-day Baptists, and afterwards modified still further by substituting the word 'all' for 'mass,' but with no better success. purposes of a missionary. Every sentence I in the middle of the stream, consisting of six arches, gain 10,000, I shall not consider myself poor." Morrison was so eminently devoted to his work, Chinese language for his own secret devotions before God, while he besought Him to succeed the Chinese missions. These have gone to their rest, but the missions live, and enlarge; and the Bible in Chinese circulates to the interior and the extremes of the Empire.

All is not done, however, that needs to be done, to give the Scriptures to the hundreds of millions of Chinamen. The translations have to be revised, and the people have to be educated. Yes, the Chinese have to be taught to read. It is a popular opinion, that the Chinese are an educated people-that they are a reading people; but it appears that there is some popular delusion about this. Mechanical ingenuity, and a shrewdness in trafficking, may exist and be a national trait, where there is no literary cultivation. This was the case with a great part of the English mechanics, and manufacturing artisans, and farm laborers, sixty years ago, and is the case with many portions of European population at the present time. Nothing but the progress of the benignant and civilizing doctrines of a scriptural Christianity is likely effectually to give education to the masses.

Of the Chinese, Dr. Macgowan, of Ningpo, writes October, 29th, 1844 :---

"So far as my observations have extended, (from Chukiang to the Yangtzs'-Kang,) I have found that the ability to read well is by no means common. Perhaps not more than five per cent Out of eight hundred patients, I found but twenty who professed to read native authors indiscriminately. Among the laboring people who form the mass of the population, the ability to read is extremely rare. The priesthood are nearly as (ignorant as the agriculturalists and monastery at Puto, ('The worshiping island, which is exclusively occupied by priests and themselves-while some can read but 'one tenth,' others, far better educated, can read 'nine tenths.' As it regards the women of China, I have not yet been able to hear of one who could read even literary men, and mandarines, have almost derided me for advocating the instruction of females.' These facts may enable us to form some opinion of the eligibility of China for a missionary field. The magnitude of its population is unequaled by any other single country; the Scriptures are translated; facilities exist for the acquisition of the language; and the missionary can labor there with safety to his person and estate. With all the facilities, however, the language is confessedly one of the most difficult on earth to acquire. The literary men have all the pride of opinion and nationality that can be crowded into a human heart; and the common

In Mexico, Oswego Co., N. Y., Jan. 27, after a painful illness of several months, Mr. OBADIAH JOHNSON, in the 80th year of his age. Father Johnson was born in Middletown, Conn.,-renewed in the spirit of his mind when about sixteen years of age,—removed to Whitestown, Oneida Co., where he was baptized into the fellowship of the Baptist church in that place,-removed thence, nearly forty years since, to the place where he departed this life, we doubt not to be with Christ, and the just made perfect n heaven. In regard to his religious experience, it may be remarked, that the beginning of the work of grace was reignty of God, was slain, He said, whether saved or not, he knew he loved the justice of God. His heart ap proved it. During his last illness, as previously, he felt much for those out of Christ. The more thou rack'd'st my heart with pain, And broke with horrid dreams my rest, The closer did I hug the chain, And clasp the scorpion to my breast.

Thou laid'st my mental beauties waste, Usurped the throne where reason reigned, My every moral trait erased, And life of every comfort drained.

O had I not been timely wrenched In mercy from thy tyrant hold, The lamp of life had now been quenched, And long ago my death-knell toll'd.

But heaven be praised ! thy reign has fled, The dawn of brighter days appears, And new-born truth again has shed Its sunbeams o'er my future years.

Now, freed from thy deluding mask, I see thee once with undimmed eyes; Thy home, thy name, I need not ask, Black fiend of ruin in disguise.
