"TO IF yo how broof the noin, ye shall do." We lack much of realizing the el fect of physical habits and conditions npon our spiritual life. Men often drive themselves into darkness and coliners and sin through the influence of feebly habits which they deem of little or no account. It is teo late to argue this. The fact is patent, and the theory too well established, to need argument. I he most clearly recognized in the text quoted and through all the epistles and rospels,

STATE OF RHODE ISLAND AND PROVIDENCE PLANTATIONS. EXECUTIVE DEPARTMENT, Providence, August 29th, 1864. PROCLAMATION.

Much anxiety having been experienced by the citizens of Rhode Island in relation to the draft ordered by the President of the United States to take place on the 5th day of September, in such districts as had not at that time furnished their quotas under the call for 500,000 men, issued July 18th, 1864:
Now, therefore, I, JAMES Y. SMITH, Gov. ernor and Commander-in-Chief of the State of Rhode Island and Providence Plantations do hereby announce to the people of the State that the entire quota of the State under all calls has been furnished by voluntary enlist-

It is at this time earnestly recommended to all good and loyal citizens to encourage enlistments in every way in their power, and while filling up our depleted regiments in the field, which have so nobly sustained the credit of Rhode Island, avoid the necessity of draft under any future call that may be made upon the State. JAMES Y. SMITH. By His Excellency the Governor.
