We are confident, from official as surance, that there will be a depot on the railroad within one third of a mile of our church and school. Just to the north and west, sheltering our public buildings, is a "grove of several miles in length. It is on a moderate elevation, which affords choice building sites. Lots can readily be got by those who wish to build or establish business. Merchandise, shoemaking, harnessmaking, blacksmithing, and wagonmak. ing, can be successfally established immediately. Other trades must soon be demanded. It is thought that coal for manufacturing purpose will be from three to five dollars i ton. There are already numbers of flouring and lumber mills within seven and ten miles.
