THE CHINA INLAND MISSION.—This work, which originated with the devoted Mr. Barnes, is still carried on in the way he provided. The missionaries assimilate themselves to the people in dress and manner of living, with such a reduction of expense that thirteen men, most of them married, were supported at an expense of only \$17,000.

THE LATE FIRE IN CONSTANTINOPLE.—The most graphic accounts of the great fire at Constantinople fail to convey an idea of its horrors and destructiveness. More than 7,000 houses were destroyed, and property to the value of \$4,000,000 was sacrificed.

MONUMENT TO LUTHER.—A monument to Martin Luther was projected by the people of Mansfield about 70 years ago. An association of Protestants, on the 22d of August last, undertook this enterprise.

RELIGIOUS INTELLIGENCE.—The Gilbert group of Islands, Hawaii, has lately been the scene of an outrage on missionaries. The Rev. J. H. Malone was badly shot.

THE MOST INTERESTING STORY.—George H. Smart, in his speech before the Christian Association at Indianapolis, said the most interesting sight he saw in London was not Buckingham Palace, or the Great Exhibition, but two feeble Christian young men, with stammering tongues, and a crowd of thieves and pickpockets and drunkards and fallen women, at midnight, in a part of London where they could not go in safety without two policemen.

INDIAN BARBARITY is well illustrated in a letter from South Pass, which says that on June 25th the Indians stole from that vicinity ninety-eight horses and mules. The citizens pursued, but all their horses being gone they could not retake their stock.

A very determined suicide was that of the late Joshua Keene, of Savannah, Ga. He had been drinking for several weeks, and one day last week went to his board, and upon his return he went in through the door, and without holding conversation with any person, was observed to fire a pistol, simultaneously starting from the door...

BILLS LIKELY TO BE KILLED.—A dispatch from Washington, July 2d, says that among the bills that may possibly fail to become laws are the Indian Appropriation bill and the Carey bill.

AN EXAMPLE WORTHY OF Imitation.—At Vassar College they have one feature which might be copied with good effect in colleges where the fair sex have no part, viz: "A resident physician is in constant attendance, in case of any sudden attack of disease. The office is visited by a lady, and her duties include vigilant watch over the pupils. If she sees signs of over-work, she orders that one study, or two days' study, be taken, and orders this dish of that one, on one to be served daily and another not at all, and conforms the diet to some standard of health."

COST OF MANUFACTURED ICE.—President Barnard, of Columbia College, in a communication to the New York Evening Post, makes the statement that the common belief in regard to the excessive cost of artificial ice is quite erroneous; that its manufacture has long been profitably carried on in France, that it can be manufactured in this country for less than a quarter of the price, and that it may be sold at a cent per ton to customers at twenty dollars per ton and then pay a fair profit.

According to a French statistician, taking the average, a man 50 years of age has slept 6,000 days, worked 6,000 days, and defrayed the expenses of his life for 4,000 days, eating 1,500 days, was sick 500 days, etc.

The Darion expedition has again failed, and the survivors have fled to the coast. The only thing established is, that the Isthmus cannot be passed except by tunneling, and the question resolves itself into a consideration of the feasibility of a tunnel canal.

Hot weather in Jersey.—A letter from Ethan Lampher, dated at Plainfield, N. J., July 1st, says: "It is becoming quite dry with us, and has been remarkably warm, the thermometer indicating, in the shade, 24th, 66 degrees; 25th, 97; 26th, 94; 27th, 94; 28th, 93; 29th, 91; 30th, 95."

MURDER WILL OUT.—The recent lynching of a number of desperadoes, murderers and robbers—nine in all—in the southwestern part of Wisconsin, has led to the disclosure of a number of other deeds which have hitherto defied detection, and the most serious of these men, headed by a man named West, have been operating ever since the close of the war, and perhaps before the war, in the disappearance of persons who have been reported as having been murdered.

WHO SHALL DECIDE?—While a barber is arrested in Maine for keeping an open shop on Sunday, a Massachusetts judge decides that shaving is a work of necessity, and that barbers cannot be punished for professional labor at any time.

A precocious boy in a public school at West, who started high in geography, was recently asked by his teacher where Africa was located. He promptly answered, "All over the United States."
