

The Sabbath Recorder.

ALBANY, N. Y., FIFTH DAY, MAY 29, 1878.

THE SAVING POWER OF THE GOSPEL. That the gospel is the Divinely appointed agency for the salvation of men we have never for one moment doubted, since, as we trust, we personally knew its delivering grace.

LOCAL OPTION. Gov. DIX has vetoed the Temperance Bill recently passed by our Legislature, designated by the phrase "Local Option."

THE SABBATH IN THE PENNSYLVANIA LEGISLATURE. We yield our space largely to the noble speeches of Messrs. Reynolds and Brown of the Legislature of Pennsylvania, at its last session, on the bill to relieve the Sabbath-keepers of that State from the burdens imposed on them by the act of 1794.

universal, and this Assembly, their only refuge, would be compelled to yield to the voice which so loudly pleading for their delivery from the arms of persecution.

I am fully aware that this act of April 23d, 1878, has been decided to be constitutional under this act which has gone up to the tribunal, has been affirmed on the ground of the constitutionality of the act.

breathed the mild and liberal policy of the Constitution, shall continue on her bosom a statute like this? I do earnestly hope, Mr. Speaker, that the Legislature will be wiser than to pass such a law.

They say that "the preaching of the gospel has lost its power." Do they know that the gospel is being preached to rich sinners, chained by sectarian bands, linked to secret and outboard cliques and clans, smeared with the mire of political and partisan strife, talking of a salvation of which they have no present experience, and speaking of a purification in which they have no vivid faith?

OUR IDEALS OF HAPPINESS. How often we hear the expression, "I shall be happy then!" I do not think there is any one, who has not spent some time in looking forward to events and scenes they picture in imagination as being far beyond those of the present, in beauty of enjoyment, and promising themselves to be happy, then!

LETTER FROM WM. M. JONES. The May meetings of the Baptist denomination have been quite a success. The missionary broadcast of the 30th ult., (on behalf of the largely-attended, every ticket being sold and more called for, and contributions received amounting to \$300.

It is also our belief that only they who experimentally know its power, can, with success, preach it to others. Who but he who has felt the condemning power of the law can warn others of its wrath against the offender, and who but he who has felt the forgiving grace of the gospel can convincingly point the sinner to Him, who is atoned for his iniquities?

There are wide differences of opinion concerning these questions, all know; nor is it a wonder that such differences do exist. Our powers of perception differ, nor are our habits and opportunities the same, nor is there an equal keenness and force in our moral convictions.

Mr. BROWN. Suppose the law was such as to require that on every Sabbath day of the week, I want to know how the cost would run under such circumstances.

Mr. BROWN. It is not reasonable to think that the Legislature should pass a law which would require that on every Sabbath day of the week, I want to know how the cost would run under such circumstances.

As to the apostasy of the ministry of the present day, we are at a loss what to say. That there are worldly and self-seeking men among us there is perhaps ground of fear. We dread the thought, but confess that we cannot rid ourselves of the conviction that it is so, and yet we had rather think men mistaken than hypocrites and pretenders.

What is wanted, then, is a Prohibition party; but whether even temperance men are prepared for this may be doubted, or at least may be questioned. Do they see this question so in its fullness as to commit themselves heartily to it? Unless they become enthusiastic, and that enthusiasm is the fruit of a profound conviction, the cause will miserably perish in their hands.
