LIGHT AND SHADE.

There come a time to every life, When, heart-sick, weary of the strife And toil of living, We fain would lay us down to rest, And feel that we indeed are blest. lands folded o'er the troubled breast And God forgiving, Our sins and errors of this life Which we are living.

But life is not all dull and gray, For after midnight comes the ray Of early morning; And after darkest nights of pain Our eyes behold the day again, As rainbows follow after rain. The sky adorning With hues which chase away the gray Of early morning.

And know our Father sends the light, And, too, he also sends the night. His wisdom proving; For darkness makes the day more fair, The fiercest lightning clears the air; And we, when thinking of this, dare Not doubt his loving; Nor that he sends both day and night, His wisdom proving.

WATER BAPTISM:

BY ALEXANDER CAMPBELL.

And its connection with Regeneration

[Eld. Campbell informs me that the sub stance of the following discourse was delivered in the Seventh-day Baptist church at Adams Centre, N. Y., July 15, 1882, by request of the pastor. By reason of failing strength he was not able to say all he wished to say on the subject, and the Church requested him to publish his discourse in the Sabbath Recorder, with such additional remarks as he deemed necessary to set forth his views more fully. Accordingly, he afterward wrote it out; but the labor of composition is so great for him at his age—he is in his 82d year—that he sent the MS. to me for copying and preparation for publication. As it is likely to find a place in his Autobiography, which is already written and in process of revision for the press, I would suggest that if any reader finds in the discourse points which he would like for Eld. Campbell to review before its final publication, he write to him at Adams Centre, N. Y., calling his attention to such points.—C.

Agreeably to the announcement made here last Sabbath, I am expected to speak to-day on the subject of Gospel Water Baptism. as connected with the remission of sins, or the new birth. And here I wish to say that I shall in this discourse use the terms remission of sins, washing away of sins, and the new or spiritual birth, interchangeably, as I consider them inseparable. Before announcing my text let me say by

way of introduction, that there has been great change in my views on this subject within three years past. Many times during the fifty-seven years of my ministry, I have been deeply impressed that the Christianity of our time, (to say nothing of that of the sixteen hundred years past,) does not well compare with the Christianity presented to us in the New Testament Scriptures, and I have at times been much concerned, and al most distressed about it. I have had serious fears that there has been a lamentable defection from the faith once delivered to the saints, that we have drifted quite too far away from the pure doctrines of primitive Christianity. Yet, I did not see wherein the defects lay, altogether. One thing in particular, has puzzled me exceedingly all serious a struggle for the convicted and anx-New Testament. Nor could I find when an anxious, penitent believer, who asked what he should do to be saved, was delayed a single day. Certainly this does not accord with the experiences, teachings, and practices of

claim to take the Bible and the Bible only for their rule of faith and practice, can not see their error in this matter, since the teachings throughout the Bible are so clear concerning the Sabbath. And we are greatly pained to know that, in many cases, hearts rise up against the claims of God's holy day of God. as soon as they begin to be convicted of their error, as many of the Jews allowed their hearts to rise up against the claims of Jesus. I have no doubt that our people honestly believe that our faith and practice are in conformity to the will of God as revealed in the | Bible; but should it be fully shown that even we in common with the great mass of Christians are in error in regard to some important doctrines of Scripture, I cherish the hope that we shall be open to conviction and not suffer our hearts to rise up against gospel truth, though it may conflict with our long established opinions and practice. Now, I wish to say in all Christian modesty, that it is my honest and solemn conviction, that we are in a great error in regard to the ordinance of baptism; not in regard to its mode, but in regard to its proper position, use and relation to other things of vital importance. The fear that there has been a departure from primitive teaching and practice, to which I have alluded, has impelled me to a careful study of the New Testament, to find our errors. My manner of investigation was to lay aside all commentaries and all opinions, my own as well as those of others, so far as I could, and prayerfully search the New Testament through and through with the hope of coming to the knowledge of the truth as it really is in Jesus. And now,

I am about to give to you the result of my investigations of the subject of baptism. I will first call your attention to what Jesus said to Nicodemus, as recorded in John 3: 5. "Verily, verily I say unto thee, except a man be born of water and of the Spirit, he can not enter into the kingdom of God." It is very important that we understand the true meaning of the terms used in the text, in the beginning. The text contains very important matter, for Christ said, "verily, verily." The word "verily" is spoken of something that is certainly true. To give greater emphasis to his words, Christ repeats the word "verily," as if to say, "That which I say unto thee is certainly true, viz., except a man be born of water and of the Spirit, he can not enter the kingdom of God."

Now will some of these Sabbath-school and remaining upon him, the same is he that baptizeth with the Holy Ghost." Now if we have rightly apprehended the meaning of the expression, then it follows that a man can not enter the kingdom of God unless he

Did not the tian baptism. By this complete baptism, the penitent believer enters into the kingdom of God as it is established here in the day of Pentecost should abide with his peoworld, and receives the witness of the Spirit

I will first refer you to the instructions of Christ to his apostles as contained in Matt 20:18-20. In giving them their commission he said, "Go ye therefore and teach all nations, baptizing them in the name of the Father and of the Son and of the Holy while on his bloody crusade against the Ghost, teaching them to observe all things | Christians, going toward Damascus, he was whatsoever I have commanded you." Here | met by the Lord Jesus Christ and suddenly we see that Jesus Christ gives great promi nence to baptism, coupling it closely with their teaching and preaching, as though he had said, "Baptize those straightway who shall repent and believe through your word;" as in the case of the convicted thousands on the day of Pentecost and in other cases as we shall see. In the Gospel of Mark the commission is recorded thus: "Go ye into creature. He that believeth and is baptized shall be saved." Here again we see what importance Christ attaches to baptism, conthe promise of salvation. He that believeth the gospel and is baptized shall be saved; that is to say, he that believeth and obeyeth the gospel, for baptism is the first outward

and visible act of obedience to the gospel.

And now we shall see that the teaching

and practice of the apostles were in accordance with the instructions of the Master. He had told them to tarry in Jerusalem until they should receive the promise of the Father and be endued with power from on on high. And when on the memorable morning of the day of Pentecost they were assembled together with one accord, where they had given themselves steadfastly to prayer and supplication, the promise of the Father was gloriously fulfilled in the decent of the Holy Ghost, which came down upon them like a rushing mighty wind, filling and crying out, "Sirs, what must I do to be them with the Holy Ghost and giving them tongues of fire. This being noised abroad in the city, a multitude rushed together and were amazed at what they saw and heard. And now Peter, filled with the Holy Ghost, began to preach. Many of his hearers were the haters, persecutors, and murderers of Jesus. And when Peter charged home upon them their great guilt in crucifying the have said, "Why, you can do nothing, and Prince of life, and declared that him God scholars or teachers tell me what the being had raised up and exalted to be both Lord "born of water" in this text means? And Peter text means to be baptized with water, then answered, "Repent, and be baptized every it would appear that to be born "of the one of you in the name of Jesus Christ for Spirit," means to be baptized with the Spirit. | the remission of sins, and ye shall receive | He said that when a boy he had a setting John said, "He that sent me to baptize the gift of the Holy Ghost. For the promise with water, the same said unto me, Upon is, unto you, and unto your children, and to whom thou shalt see the Spirit descending, all that are afar off [including us here in this presence even as many as the Lord our God shall call." Acts 2: 37-39. We notice that they were here told to be baptized in the name of Jesus Christ. His name is mentioned here singly for the reason that be baptized with water as well as with the they had denied and rejected him, and they must now acknowledge him and receive him Now comes the important question, what | for what he claimed to be. And they said, "Believe on the ious sinner to obtain a good hope that his teachings of Christ and by the teachings and receive the gift of the Holy Ghost. Again I visible act of obedience to the gospel; that his word were baptized, and the same day of our time compare with this example from when the convicted sinner comes to the there were added unto them about three the New Testament? Father promise that the same Holy Ghost which came down upon the disciples on the the most solemn, impressive, and instructive of the water and of the blood that he is born | it. But you will say again, that Peter was divinely inspired. Then why not believe what he preached and practiced, and preach and practice accordingly?

Now I call your attention to the conversion of Saul of Tarsus. Saul was a violent persecutor of Christ and his followers, and struck down to the ground under powerful conviction. He cried out in his distress and said. "Lord, what wilt thou have me to do?" Jesus Christ said unto him, "Go into the city and it shall be told thee what thor must do." And the Lord instructed Ana nias, a devout man, to go and tell Saul what he must do. When he came to him, among other things, Ananias said to Saul, "And all the world and preach the gospel to every | now why tarriest thou? Arise and be bap tized, and wash away thy sins, calling on th name of the Lord." Acts 22:16. Here we see that Saul's sins were yet on his soul, and necting it immediately with believing and Ananias told him to arise at once and be baptized. Why baptized in such haste? Because according to God's order or method he must be baptized before his sins were washed away or remitted; in other words, before receiving the internal washing of regeneration. Here then we have the Lord's testimony by his special messenger, Ananias, that baptism must go before remission of sins, or be simultaneous with it.

You all remember the narrative of the conversion of the Philipian jailor, who was a midnight a heathen sinner; whose views of the way of salvation must have been very imperfect at best, but who a little while after was an awakened and anxious sinner at the feet of Paul and Silas whom he had violent ly thrust into prison a few hours before, now trembling with a sense of guilt and danger, saved?" Here again the same important question: "Men and brethren, what shall we do?" "Lord, what wilt thou have me to do?" "Sirs, what must I do to be saved?" All these convicted sinners seem to have been deeply impressed that they ought to do something. If Paul and Silas had been like the Calvanists of my early years, they would must not try to do anything, lest you should attempt to take the work out of God's hands Remain passive, and let God do his own work First Baptist Church in the city of New London, Conn., said in our revival meeting in Waterford many years ago, he thought we were making converts in too short a time, and doing too much of the work ourselves. hen, and that when he saw the eggs were pecked, he helped the chickens out, and they all died. That he then concluded it was best to let the hen hatch her own chickens in her own way and time. I suppose he overlooked the fact that the poor, little, weak chicken must do something for itself, that it must peck and peck and break the shell, or it could never be hatched. So we say that the convicted sinner must do something, or he will never be converted and saved.

"Sirs, what must I do to be saved?" said the trembling Philipian jailer in his distress. the Spirit. I could find no such cases in the baptized with water, before he can have a doubt, in the presence of this apostolic the word of the Lord, and to all that were in danger, the solace in every sorrow, the asygood Scriptural hope that his sins are teaching, that baptism must go before the his house." I must hasten to a close.

And now I call your special attention to

baptism recorded in the New Testament ple forever? But we seem to have forgotten the baptism of Jesus Christ by John in the Jordan. While John was preaching in the wilderness of Judea and baptizing in Jordan, Jesus came to him and demanded baptism. John hesitated, and said, "I have need to be baptized of thee, and comest thou to me?" Jesus said, "Suffer it to be so now, for thus it becometh us to fulfill all righteousness. Then he suffered him." The baptism of Jesus must have been a matter of great importance, since the claims of righteousness could not be met if he had not been baptized. But in view of what considerations was it so important that the Son of God should be baptized? Was it to prepare him for his great mission of love and mercy? Was it to give his sanction to the ordinance? Was it to clothe the holy ordinance with divine glory and honor? Was it to set us an example that we should follow? I answer that it was more than all these together. It was to exhibit to the world by the wonderful, visible manifestations attendant upon his baptism, what should be realized by every penitent believer when he is baptized according to the divine order. Let it be remembered that I have already shown that baptism is the divinely appointed visible entry-way into God's kingdom. Now what was the first visible manifestation that attended the baptism of Jesus? "The heavens were opened unto him." This was to show that when the penitent believer is baptized, "born of water," according to the text, the kingdom is opened to him that he may enter. At the same time there was another visible manifestation: Jesus "saw the Spirit of God descending like a dove and lighting upon him." This shows forth the being born of the Spirit when the believer is baptized. Peter's testimony is, that they who repent and are baptized in the name of the Lord Jesus shall receive the gift of the Holy Ghost. Then the baptism of Jesus was attended by another wonderful occurrence. A voice from heaven was heard saying, "This is my beloved Son in whom I am well pleased." This was to show that the baptized believer will, with his baptism, receive the witness of the Spirit, and of the water, and of the blood, with one united voice, that he has now entered into God's kingdom, and is now acknowledged a son or a daughter in whom the Father is well pleased. We are baptized in the name of the three that bear record in heaven, the Father, the Son, and the Holy Ghost, and shall receive the united testimony of the three that bear witness in earth, the Spirit, the water, and the blood, that we are then the children of God. And now the whole work of the conversion of a soul to God is consummated, and he has a good Scriptural hope resting upon God's word of eternal truth.

(To be continued.)

WALKING WITH GOD.—Go to God as Enoch went, believing that he is, and that he is accessible, and seek to get the same just and realizing knowledge of him that Enoch got. He is revealed to you more amply, perhaps, than he was to Enoch. Believe; believe that he is not far off, but nigh. Believe that he is not hostile, but propitious. Believe that he is all he was to Enoch, and, believing this, walk with him. Admit him into your house, that he may hallow it. Admit him into your hourly occupations. that he may elevate and expedite them. Admit him into your happy moments, that he may enhance them; and into your hours of anguish, that his presence may tranquillize and transform them. Let his recollected presence be the brightness of every landscape, the zest of every pleasure, the energy of every undertaking, the refuge from every for his greatness, but with equal reliance on his goodness-learn to make the eye that never slumbers the companion of your nights and mornings, and the ear that never wearies the confidant of your weakness, your solicitude, your ecstasy and your woe. BOARD OF MANAGERS.

Special Meeting.

A special meeting of the Board of Mana gers was held in Westerly, Sept. 10, 1882, at which the Annual Report was read and approved. Arrangements were also made by which O. U. Whitford shall be located, some time in October or November, in Chicago to perform missionary labor in that city, and also at other points in the Northwest accessible from Chicago, as shall seem best.

Reports were read from missionaries in the field, and the Treasurer was instructed to settle accounts according to reports.

The Treasurer's Report for two months since last regular meeting, was summarized as follows:

During the labor in Marion, the Word was preached and the seed of the Sabbath sown broadcast. Some became serious and thoughtful, and are now carefully considering the matter. At Florence the interest was great, and on the part of some it was intense. FROM H. E. BABCOCK.

My labors have been pretty much the same

as heretofore. Have preached regularly to the Orleans and Walnut Creek Churches, and also at the Stone School House on Walnut Creek, near the Scott post-office. Have appointments at Bro. Beeman's, where one of the neighbors has made a profession; and also opened an appointment in the schoolafternoon, once in two weeks. I have also made one trip to Bro. Hull's neighborhood, but the opportunity for services there was quite limited. I expect to go there at an early day and stay some time. There is also for a week or two, and perhaps longer. Hope to be able to do so. I am fearful the Walnut Creek Church will fail to maintain its individuality from the fact that most of the members expect to remove to some other locality. But the fact that they have been brought into church relationship here will go with them and will lead them to seek a home where they can have church privileges, and they will carry with them influences brought into life on this field. Whether that church shall be maintained as now or not, it will still be a promising field of labor. In perplexities, difficulties, and discouragements it is necessary to hold on to the work with patience, perseverance, and faith; with wisguidance of the Holy Spirit. The longer I continue in the work here the more do I see the need of boldness and confidence and that self-reliance that rests in the Holy Spirit of promise which the Lord our Savior has kind

Taken all and in all, I think the indications of the mission much more favorable than at the time of any previous annual report, although the outcome at present is not so good as at sometimes during the year it has promised to be. I think that during the coming year, it may perhaps be advisable to extend my appointments up and down the Valley both. At this time, when the very foundations of our Christian religion are being searched out and men are turning this way and that for something secure, a firm reliance on the revelation of God, and above all on his holy will as given in that revelation, is our hope, our only hope. May Gad help us his will to know, and the right pursue. ORLEANS, Neb., Aug. 30, 1882.

This distribution gives to the New England States, 328; Middle States, 56; South ern and Southwestern States, 17; Western States and Territories, including 53 on the Pacific coast, 669.

Of the whole number in commission, 337 have been pastors or stated supplies of single congregations; 440 have ministered to two or three congregations each; and 293 have extended their labors over still wider

The aggregate of ministerial labor performed is 799 years.

The number of congregations and missionary districts which have been fully supplied, or where the gospel has been preached at stated intervals, is 2,568.

Two missionaries have been in commission as pastors or stated supplies of congregations of colored people, and 23 have preached in foreign languages: 12 to Welsh congregations, 8 to German congregations, and 3 to French congregations.

The number of Sunday-school and Bible class scholars is not far from 104,308. The organization of 215 new schools is reported and the number under the special care of missionaries is 1,979.

The contributions to benevolent objects, reported by 618 missionaries, amount to **\$24,602 61.**

Fifty-three missionaries make mention of revivals of religion during the year, some of in the following order: them reporting 70, 68, 60, 58, 51 and 50 hopeful conversions. In 77 instances, the absolute owner of all things. number of reported converts exceeds ten; and the number reported by 305 missionaries

The additions to the churches, as nearly as can be ascertained, have been 6,032, namely: 3,291 on profession of faith, and 2,741 by letters from other churches.

One hundred and six churches have been organized, in connection which the labors of the missionaries, during the year, and thirtysix have assumed the entire support of their own gospel ordinances.

Ninety-eight houses of worship have been completed; one hundred and thirty-eight materially repaired or improved; and the building of twenty others commenced. Seven have been provided. Forty-three young men, in connection with the missionary churches, are reported as in different stages of preparation for the gospel ministry.—The Home Missionary.

THE EFFECT OF COLLEGE CULTURE UPON ITS

An address delivered by Rev. W. C. Whitford, before the Alumni of Milton College, on Commencement Day, June 28, 1882.

Nearly two months since, while visiting the ancient Pueblo of Zuni among the mountain Mesas of Western New Mexico, I had a strange rhyme and pleasing measure. I presume that it was one of the many songs, which taken together, celebrate, as a national Iliad, the gracious and the avenging deeds of the deities whom the people devoutly worverse through many generations, to guide | ble product of thinking. their conduct in the crowded village, on the sheep on their boundless pastures. ture of all past ages are here preserved and employed in arousing and training the mind. These appear not so much in the books as in the laws of composition, the principles of literary taste, the philosophical lessons of history, the methods of attaining eloquent speech, and the incentives to virtuous and noble action, which are here clearly interpreted and persistently taught. The manuals used in the study of the various branches of science, while not filled with the accumulated statistics and other minuteæ under each topic discussed, furnish the complete theories and the material facts. Subjects which have been elaborated in the researches of thousands of original thinkers through hundreds of years are treated on a few pages and carefully understood after very brief study. This is happily effected not through the tedious processes of original discovery, but by the means of rapid presentation as in a panoramic view. Errors and untruths in man's conceptions and beliefs, which have been detected after myriads of days and weeks in experiment and close analysis, are eliminated from the stock of required knowledge. The memory needs not to be laden with this refuse. The development of electric railways in Europe is considerable. Putting aside nu merous lines that are merely projected, those which are working show a length of about 100 miles. Those now in operation include one at Licterfelde, and that from the Span daner Bock to Charlottenberg, near Berlin another from Port Rush to Bush Mills, in the north of Ireland, and in Holland from Zandvoort to Kostverloren. Among lines in construction following are noted: In Austria, the Moedling line, near Vienna; in Germany, from Wiesbaden to Nurnberg, and from the royal mines of Saxony to Zankerode; in England, under the Thames, connecting Charing Cross and Waterloo stations; also in South Wales, for which the force will be derived from fall of water. In Italy, Turin, and Milan will soon begin the construction of

The Lick Observatory, in California, is well under way. It is on Mount Hamilton, thirteen miles from San Jose, and nearly 4, 500 feet above sea level, with an unobstructed view of the heavens, except a small part of the northeastern horizon, shut out from view by a neighboring mountain peak. There are to be two domes, in one of which a twelveinch equatorial telescope is now erected. The other is to contain the great thirty-six inch telescope, the glasses for which are now being ground at Cambridgeport, Mass. The observatory is of the most substantial character, and will be completely equipped, and although removed from centers of population and scientific work, it will be easily accessible from San Jose by a mountain road constructed for this purpose. THE BIBLE ITS OWN TEACHER,

BY PROF. J. FULLONTON, D. D. There is a good deal of significance to be attached to a statement which appeared in a recent number of the Star, to the effect that the rapid decline of infant baptism is study of the Bible, and find that such baptism is conspicuous only by its absence from the sacred page. This is true, in a degree, to translate the original word, instead of transferring it bodily into the English text; the world would have been many fold greater than it is now, or ever has been.

To show what may be the result when men and preaching in the State-of New York, I had in school and in my congregation two young men from Pennsylvania, who had been brought up in the Quaker faith, and of course had been taught to reject all external ordinances, and probably were not familiar with the discussion on modes of baptism. They were converted about the same time, and as there was to be a baptism of the converts, their attention was naturally called to their duty with respect to this ordinance. But soon they found themselves involved in serious difficulty in their minds with respect to the proper mode. They applied for help to a leading citizen of the place, a Presbyterian deacon. He loaded them off with books and tracts written in advocacy of pedobaptism and sprinkling. Not satisfied, at length one of them came to me on Saturday, my leisure day, and informed me of the embarrassment under which they were laboring. He finally asked me to take the Greek Testament, and simply translate all the passages in which the words baptism, baptize, baptized, baptizing, &c., occur. By the aid of a concord ance, I found and translated them all as lit erally and faithfully as I knew how, without a word of comment, so far as I can recollect. When I was through, he hastily left the room, and, as I afterwards learned, went to his associate, and said, "Now, chum, you take the New Testament, and come and sit minutes." The upshot of the matter was that they both immediately arose, and were baptized in the name of the Lord Jesus.

This simple reference to Bible authority reminds me of one of Joseph Cook's impressive dramatics. When in the midst of his lecture, he had for some time severely questioned reason and philosophy for an answer to a point he had raised, despairing of success he hurried across the platform, and, seizing a Bible lying on the table, held it up before the audience with both hands, and exclaimed, "Light! light!"

Does not the Bible as unmistakably teach that the "seventh-day is the Sabbath of the Lord thy God," as that immersion in water war with their own principles of Bible interpretation, as are the Baptists, who shuffle off | rious work of salvation. Let us examine the Bible Sabbath in favor of the venerables ourselves, and see if we are such, and engage dies solis, "the wild solar holiday of all pa- in the work at once. gan antiquity."

At the last session of the Conference, which was held with the vigorous and growing Church in Farina, Ill., there were present from Churches in all the Associations, 137 delegates. Of these, there were from the South-Eastern Association, 1; Eastern, 33; Central, 17; Western, 25; and North-Western Association, 61. The reports from the Churches showed an aggregate membership of 8,720, and a net increase during the year of 50. The number of Churches which A plain spoken Western preacher delivered | reported to the Conference last year was 75. Two Churches were admitted to the Conference, viz., the Church at Bell's Run, Pa., and the Church of Shepherdsville, Ky. The order of holding the Conference among the Associations as now fixed, is, Eastern, Westwas taken a very large black silk umbrella, ern, South-Eastern, Central, and North-Western. So the Conference for next year will be held somewhere in the Western Association, and with what Church will be determined at the coming session in Ashaway.

> Conference.—A large number in this vicinity, are availing themselves of the liberal rates given by the New York, Lake Erie & Western Railroad, for going to the Conference, to open its sixty-eighth annual session at Ashaway, R. I., on the 29th inst., at 10 A. M. May the Lord lead us to devise liberal things, and give us unity of heart, and strength of purpose to move our whole work as a people, bravely and permanently forward. Interesting programmes are already published by the different organizations. Additional interest will be given to the occasion by the presence of Brother Velthuysen, of Holland. Go to Conference!

PRAYER AND PRAYER-MEETINGS.

Without prayer we can accomplish nothing as Christians. As proof, observe the Christian progress of those who seldom attend prayer-meetings. Only the praying members constitute the life of the Church. These are the workers, while those of the other class are the drones. The praying members grow in grace, gain in strength, and exert an influence which will tell in eternity; while those who shun the prayer-meeting invariato be attributed to the fact that through the | bly lose ground and are found farther from never knew of a backslider who always attended the prayer-meetings and took an active part in them; their love for God is inof sprinkling, and would be equally true, if creased each time they testify for him and King James's versionists had had the candor thereby commit themselves before the world. It is this class of Christians who enjoy the service of our Savior. They can bear up uning in him the truest patriotism. The old as is allowed by all Greek scholars of ac- der trials, and the scoffing of the world, and knowledged authority. If this simple thing rejoice that they are counted worthy to suffer had been done, the number of Baptists in shame for Christ's name. The more hardships the true Christian has to contend with. the better soldier he becomes, and the more are sent to the "law and testimony," I give love he has for his Master. How refreshing the following illustration. When teaching | it is when we are forsaken by the world, and adversity overtakes us, to go in secret and tell our troubles to God, and ask him to help us. How much stronger we feel after asking his help, and though we feel sad, we are made to rejoice in his love. No one can appreciate the consolation of prayer to its fullest extent until made to see and feel his extreme sinfulness, and lost condition, without Christ, and calls upon God in his distress and is delivered. It is in times of trouble, the Christian finds the most solace in prayer. and I have often thought that God places us in such trying circumstances to bring us into complete subjection to his will; for whom the Lord leveth he chasteneth. It is not only our privilege to pray, but our imperative duty, for we are commanded to pray without ceasing and in all things give thanks, and are taught that if we ask aright we shall receive, but have no promise of receiving without asking. We must ask in faith, for prayer without faith will avail nothing, neither will both avail unless we put forth our exertions to gain that for which we ask. The great trouble with many is, that after they have united with the Church and the down with me, and I will convince you in five excitement has abated, they cease to speak and pray, or cease to attend prayer-meetings, and in consequence grow cold, wander from the fold, and are brought back only by revival meetings, if at all, and the impressions received at such times soon die out for want of cultivation. It is the duty of every Church member who can, to attend the prayermeetings as well as the Sabbath services, and if they only would, and take an active part, what glorious meetings we should have, and how our pastors would feel cheered in their labors. If we can not attend the prayermeeting, we should pray wherever we may be, for when we cease to pray we cease to be is baptism. No other people are so badly at | Christians. It is earnest, praying, giving Christians that we need to carry on the glc-

An unusually large number of our larger Churches are now, or are soon to become, pastorless. This is not an encouraging state of things. But if in it the people shall learn some lessons of personal consecration to God's service, and shall come to lean less heavily upon the minister, it will not be without a bright side.

It may be confidently expected that plans for the prosecution of missionary and Sabbath reform work will be devised at the Anniversaries, now in progress, which will call for increased contributions from the people. Will not those Churches which have not already done so, adopt some systematic method of raising funds for our work?

WHILE this number of the SABBATH -RE CORDER is being read in hundreds of homes, from Rhode Island to Nebraska, the General Conference and our various benevolent societies will be holding their sessions with the First Hopkinton Church in Rhode Island. Let those who can not attend, together with those who do attend, pray earnestly for God's blessing upon the meetings. Let special prayer be made in all the Churches on the Sabbath-day of Conference week, to the same

THE Summer season, with New England people, and, to some extent, with the people of other Eastern and Middle States, is becoming emphatically the season of vacations. Schools, of course, are closed, business is dull, those who can afford it, and many who can not, betake themselves to the sea-shore or the mountain regions for a few days, weeks, or months sojourn as inclination, business, or the pocket-book shall dictate. Almost everybody is off duty. Everything feels the effect of this broken up state of things. The Churches are not exempt from its influence. If the pastor heroically resolves to take no vacation, his congregations grow small, the prayer-meeting is thinly attended, and the Sabbath-school becomes a lonesome place, so determined does everybody seem to have a rest. Perhaps all this is necessary. If it is, then let us return to our work, now that the Summer is past, both in Church and business matters with a zeal and a purpose which shall prove how good a thing vacation is.

PREACHING.

Preaching is an art, and it is a great deal more: it is an inspiration, and a movement of one life upon another. It is also a part of the solemn service of God; it is worship. It has been called a sacrament more awful than that of the altar. St. Cyprian says "Preaching is a mystery not less awful than that of the eucharist, for by it souls are begotten and quickened unto God. At the altar we are one, but in the pulpit we preach to a public assembly, where we ought to fear offending God more than elsewhere" The awfulness of the preacher's work was deeply felt by Paul when he described it as "the savor of life to some and of death to others." It is no wonder he exclaimed "Who is sufficient for these things?" The word of God does not return unto him void. Every one who hears will be better or worse for the hearing. God is so much in every word spoken that its effects are entirely beyond our fore-calculation, and often exactly the reverse of what we have anticipated. In God's care, what seems important and utterly incompetent becomes the very power of God unto salvation.

Beyond these strange mysteries of appearance there is doubtless a law of divine procedure, unto the comprehension of which it may not be ours to attain. "Great" indeed, "is the mystery of godliness," but it is none the less "great gain." The practical effect of this standing between the living and the dead, and wielding the power that both kills and makes alive, should be to empty ger is not in sight. They seem to have companions in the world. The best condition of sermonizing exists in the interior as he listens with breathless anxiety to the life of the sermonizer, and the best preparation of a sermon begins away back of where homeletical training comes in. Paul insists that the gift of preaching shall be exercised according to the proportion of faith." This is vital. Isaiah felt the force of this when he saw the glory of God filling the temple, and cried out, "Woe is me; I am undone, matter as beneath the consideration of a dwell in the midst of a people of unclean loved ones die, he can not consent to have herald, the fire-touched son of Amoz said. COTTAGE PRAYER-MEETINGS.

This term is used to designate those neighhouse to house as distinguished from those held in churches or lecture rooms. It is often convenient for families situated close together to have a weekly prayer-meeting of their own in private houses rather than go a long distance to a public building. Where the members of a church are widely scattered, and at the same time live in settlements as in West Virginia, it is favorable for these cottage meetings. In the Lost Creek Church we have been carrying on these neighborhood meetings for nearly five years, in Winter as well as in Summer, and we find them a great help in our church work. Some of the advantages arising from them are as follows:

1st. They recognize and develop home religion. God established the family, and around the fireside should grow and flourish all the gifts and graces of the Christian life. This is the place for the family altar, and the very place for neighbors to meet and pray, along with the little children and with the aged and infirm who can not get away to meeting. The little children listen to the prayers and exhortations, while the mothers, who are kept so much at home, may join their voices in song and prayer, and have their hearts encouraged in the mutual joys and sorrows of others. Here, too, the aged may enjoy the meeting and tell of their long pilgrimage and of their heavenly prospects. Old and young, friend and neighbor, all meet on a common level and blend in one common sympathy.

2d. Many go to a neighbor's house who would not to a church or public building. Each one is anxious to have a good turn-out when the meeting comes to their house, and will go to great inconvenience to attend at his neighbor's, so they may come in return. Even those who make no profession of religion want the meeting at their house, as we have had repeated instances at Lost Creek.

3d. Many will feel free to take a part in the meeting in a private house who would not do so in church. This is often the case with the young or the timid. Dr. Cuyler, in Brooklyn, has for years been in the habit of using these cottage meetings for the converts and the youth of his Church.

4th. We get very close together when friends and neighbors are crowded into a small room in a good warm meeting. The singing is more earnest, the prayers and exhortations more tender and personal, and we get very near together in our joys and sor-

We believe, then, that these neighborhood prayer-meetings are a great blessing, because they bring religion right home to the firesides, bring together the neighbors every week in the worship of God, gather in all the children with the aged and infirm, and bind the families together in love as they meet from house to house for prayer and praise.

THE NEED CONFESSED.

Some people appear very brave when dangreat confidence in their positions, and, with foibles and lack of taste in others and do not while the Yankee rake can be tossed about on Preaching is primarily an action of the declares that he does not believe in doctors gust by so little as the millionth part of an

So many a man seems to have no regard for religion, speaks lightly of the Church, and ridicules the ministry. He says he has his own views, that he thinks this and he thinks that, and so he waves away the whole because I am a man of unclean lips, and I man of his intelligence. But when his lips." FASTIDIOUSNESS.

Fastidiousness—the quality of being fastidious. Fastidious — disdainful; scornful; haughty; proud; delicate to a fault; hard to please; squeamish; over-nice; easily disgusted. - Worcester. It can not be disputed that there is such a thing as good taste, good judgment, and it is better that everything be executed with good taste and good judgment. It is proper and natural to admire this, and equally proper and natural to disapprove of the opposite; but then it has occurred to me whether there is not a heap too much of fastidiousness in this world, and whether this quality is not quite as annoying and opposed to good sense, as the thoughtlessness and boorishness of some is chafing to the refined sensibilities of others. Is there any need of one's losing his temper or appetite because his neighbor at the table eats with his knife? If a guest, and your generous host thoughtlessly fills your plate to begin with, so that there is no chance for you to be helped a second time, need you turn away in disgust because he has violated your sense of the exquisite fitness of things? And yet there are those who in their hearts do this; not in their hearts either, for they havn't much heart, but in their refined æsthetic nature. And so in listening to the preaching of the Word of God, if the minister in speaking of the quite common disposition of mankind to ventilate the foibles and sins of others, should call it a "general itching "-admirably expressed, one would think—must that sermon lose all its interest for you, because the preacher, with his pictorial imagination, has used an adjective which suggests to your sensitive ear an offensive bodily disease? One of these exquisitely fibred individuals once came to me | Chair of Greek and complained of some indelicate allusion in my sermon. In self-justification, I re- audited the Treasurer's Report, and found ferred her to language used by Paul in Philipians 3: 8, and to that used by Christ in Luke 13: 8. Why, she threw up her hands in holy horror, and exclaimed, "I never would have thought these men would have used such language."

Akin to this fastidiousness so annoying to me, is a sort of fidgetiness which oppresses some persons. I put the word in italies because I thought it was I who had coined it, word to describe some hearers of the gospel. friends, let me beg of you to cultivate yourselves in the other direction. How is it to be done?—An exchange says that the most thoughtful clergymen are gradually coming to the conclusion that "continued growth of a church is better than an avalanche of revivals," and are looking about them for a way to promote continual growth. This is undoubtedly correct, but when Churches and Church members become so devoid of Christian life as not only to cease growing, but to show strong symptoms of death and decay, how is the growth to be secured short of a revival?

MEMORIAL BOARD MEETING.

The Trustees of the Seventh-day Baptist Memorial Fund held a regular meeting, at the residence of C. Potter, Jr., in Plainfield, N. J., Sept. 10, 1882.

President C. Potter, Jr., in the Chair. Other members of the Board, I. D. Titsworth, Geo. H. Babcock, R. M. Titsworth, E. R. Pope, J. A. Hubbard, and L. E. Livermore, were present; also Bro. G. Velthuysen, of Haarlem, Holland.

Prayer was offered by Dea. I. D. Titsworth. The minutes of the last meeting were read, and business transacted as follows:

A committee having been appointed at the last meeting, consisting of E. R. Pope and R. M. Titsworth, to ascertain the cost of a safe, suitable for the use of the Memorial Board, reported that such a safe can be obtained for \$80 to \$100.

The Secretary presented, in connection with the Annual Report of the Board, a History of the Rise and Progress of the Memorial Fund, and its management.

On motion, it was voted to accept the reports of the Treasurer and Secretary, together with their Statement and History, and that these papers be published in a convenient form for general distribution.

The President, Secretary, and Treasurer were appointed a committee to secure the publication of 1,000 copies for distribution at the coming Conference, and which may be needed subsequently.

The President and Treasurer were instructed to make and sign a release for a lot on Union street, now covered by a mortgage held by this Board, said lot belonging to the estate of Clark Rogers, deceased.

The Treasurer was instructed to pay over to the Treasurer of the Board of Trustees of Alfred University \$568 55, income on hand for the Chair of Physics, and \$82 77 for the

It is said that Mr. Bliss stated before leaving the city last Saturday night, that the The Treasurer also presented, according present Marshal and his deputies would have doubt but that there is a strong pressure being brought to bear on the President to clean out the present officers around the City Hall.

The heads of most of our Departments are now away on "tours of inspection," and the lower grade of employees are left to themselves to manage as best they can. Many have gone home to vote, but enough, however, are left to make up a good-sized city. The number is about ten thousand. This is exclusive of the Capitol, city post-office, and District government officers. This body of government employees forms not only a large but a very intelligent and agreeable element of the population of Washington. A large proportion of them are people of thought, education, and refinement, and their presence would be an acquisition to any community. The remuneration of the employees in the departments varies somewhat, but generally the salaries range from \$900 to \$2,000 for clerical work, the latter being given to those who occupy responsible or particularly important positions, and the first generally to copyists, a great many of whom are ladies. The latter are hard worked and they work well and receive the smallest remuneration, but the wolf is kept from the door of many e family by their earnest endeavors. A great many of them once belonged to families of wealth, but reverses came, and they are glad to be able to work for a living August.

The Second Seventh-day Baptist Church was most agreeably surprised a few Sabbaths since by finding a very elegant Estey organ had been placed in the orchestra, valued at \$250. It was a gift from Mr. Joseph Langworthy, of Hope Valley. The Church expressed its appreciation of the gift bestowed and thanks to the donor by a unanimous vote. The choir is now seated in front of the audience, and, with its new organ and its usually well-performed singing, will add increased interest to our Sabbath service.

The Sabbath and Sunday School Union Concert held its annual picnic in Kenyon's Grove, at which time a very impressive address was given by Mrs. H. D. Collins, pastor of the Friend's Church; also a poem was read by W. T. Collins, the youthful poet of Hopkinton.

For several weeks we have been obliged to hold our Sabbath service in the church basement on account of the upper room being in process of repair. It is now completed, however, and as good as new, and we are glad to feel that we are at home again.

The school building is also being repaired and changed to more conveniently accommodate the several departments of the school. Prof. Stillman is to continue as Principal the coming year with Miss Addie Randolph as First Assistant.

As a society we greatly regret the resignation of our pastor.

The Quarterly Meeting held with our Church the last week of August was of unusual interest. There were more in attendance from other churches than is generally expected at such meetings, and all seemed to think it an excellent session.

The Sabbath-school meeting and Ministerial Conference held in connection with the Quarterly Meeting were full of interest to all. Excellent papers were presented and discussed. The meeting closed Sunday night with a sermon by Eld. Varnum Hull.

THE STORM.

The storm of the 14th was pretty general throughout the country, as is shown by the following:

The Baptist church, at North Parma, N. Y., was struck by lightning and badly wrecked. A barn of Supervisor Elam Crosse, in the same place was struck. Loss \$5,000. Fourteen telegraph poles north o Rochester were shattered by the lightning.

There was a terrible wind storm in the Mohawk valley accompanied by rain and lightning. Slight damage was done in Albany. At Mindenville a man with a load of hay drove into a barn to escape the storm. The barn was blown down and the man and his team killed.

the Hudson. In many places the Hudson River railroad was flooded and telegraph wires broken.

A heavy wind and rain storm swept over Mexico, N. Y. There were 3,000 people on the fair grounds. A liberty pole was blown down, killing a horse, and seriously injuring several people. Another horse ran away, and women and children were panic-stricken. The cupola of the main building was blown off. Thomas De Long, of Mexico, and Fred Winkler, of Richland, were seriously hurt. Winkler's horse was killed. Much damage was done to fruit and crops.

A hurricane passed over the village of Winsted, Conn., destroying ten houses and five barns. Several persons were injured, Mrs. Daniel Maxwell, Thomas Ash, and Mary Connors, seriously.

Crops.—The September report of the Department of Agriculture at Washington, shows that the general condition of cotton averages ninety two against ninety-four August 1st. The boll worm has done damage amounting to \$100,000 in Texas. The corn crop in all the region south of Pennsylvania and the Ohio river, is in high condi tion in every State except West Virginia. General Wolseley, on the 13th, achieved a decisive victory over Arabian troops under Arabi Bey. The English army, 13,000 strong, made a brilliant advance movement on the fortifications of Tel ElKeber, carrying them at the point of the bayonet. The Egyptian troops fled in dismay over the desert, thoroughly demoralized. They lost 2,000 in killed and many prisoners. Vast munitions of war were captured. The English loss is placed at 100, including half-a dozen splendid officers killed. The victory is regarded as the death-blow of Arabi's hopes. His forces numbered 23,000.

The truth is that in this climate, severe cold weather if continued more than three or four days increases the number of deaths as certainly as continued hot weather, though in a different manner. Severe cold depresses the vital forces, and exposure to it produces fatal results among those persons whose vital force has become weakened from any cause."

Mellogen.—A new substance, "mellogen," as it is termed by Messrs. Bartogli and experiments of electrolyzing distilled water about six weeks-first with strong, then with weaker batteries, and carbon electrodes—is a solid, dark, very shiny matter, soluble in hot water and in alkalies, insoluble in most mineral acids, and in ordinary solvents, such as alcohols or benzine. It does not fuse, is not crystallizable, burns with difficulty, and has strong coloring power. The best oxidant is hypochlorite of soda. The formula is $C_{11} H_2 O_4$. If alkaline solutions be used in place of distilled water, mellic acid is largely formed; if, however, acids solutions, the mellogen is abundant and the former products are almost wholly wanting.

HABITS OF SOME OF THE WESTERN SNAKES. -H. A. Brons gives some most valuable notes on the habits of some of the serpents of the Western States. The garter snake captures great numbers of fishes which have been left in shallow water when the floods have receded. In Texas and Mexico it is not uncommon to catch the venomous "cotton mouth" whilst fishing with hook and line. The prairie dog, the rattlesnake, and the burrowing owl, though they dwell together, do not form a happy family. Both the snakes and the owls destroy the young dogs, and the snakes make free with the eggs of the owls. Several snakes, Boscanium constrictor and others, swallow the eggs of the domestic fowl unbroken. The blowing adder (Heterodon simus) seizes the hind foot of the boxturtle (cistudo ornata), and sucks blood from it. The author caught a snake in the act. The foot of the turtle was bleached, and blood was still flowing; two toes were missing, and had been digested from the foot. The no-

tion that snakes only attack creatures which they can swallow must be abandoned. s.

This is in many respects the most able argument yet published. The author was educated in the observance of Sunday, and was for several years a highly esteemed minister in the Baptist denomination. The book is a careful review of the arguments in favor of Sunday, and especially of the work of James | Du Gilfillan, of Scotland, which has been widely circulated among the clergymen of America. Mr. Brown Sal has thoroughly sifted the popular notions relative to | Car Sunday, with great candor, kindness and ability. 10. And Judas Iscariot, one of the twelve, went unto the chief priests, to betray 11. And when they heard it, they were glad, and promised to give him money. And he sought how he might conveniently betray him.

Now after two days was the feast of the passover and the unleavened bread: and the chief priests and the scribes sought how they might take him with subtilty, and kill him; for they said, Not during the feast, lest haply there shall be a tumult of the people And while he was in Bethany in the house of Simon the leper, as he sat at meat, there came a woman having an alabas ter cruse of ointment of spikenard, very costly and she brake the cruse and poured it over his head. But there were some that had indignation among themselves, saying To what purpose hath thi waste of the ointment been made? For this oint ment might have been sold for above three hundred pence, and given to the poor. And they mur-6 mured against her. But Jesus said, Let her alone why trouble ye her? she hath wrought a good work 7 on me. For ye have the poor always with you,

and whensoever ye will ye can do them good: but me ye have not always. me ye have not always 8 She hath done what she could: she hath anointed my body aforehand for the burying. And verily I say unto you, Wheresoever the gospel shall be preached throughout the whole world, that also which this woman hath done shall be spoken of for a memorial of her. And Judas Iscariot, he that was one of the twelve, went away unto the chief priests, that he might deliver him unto them. And they, when they heard it, were glad, and promised to give him money. I. The conspiracy. v. 1, 2. After two days. Two days before the Passover, there was a consultation by the chief priests, scribes, and rulers, in the palace of the high priest, Matt. 26: 3, 4. Soon after the raising of Lazarus, a council had been held for the same purpose. John 11: 47-53. Feast of the Passover. Instituted in Egypt (Exod. 12) as a token to secure the Israelites from any part in the judgment of the tenth plague; continued as a memorial of their deliverance from the bondage of Egypt, and a type of salvation from the bondage of sin. The feast of unleavened bread was held in the first month of the Jewish year. It was introduced by the feast of the Passover on the fifteenth of the or some relative of the family, since (John 12:2) month at the time of the full moon, and continued seven Martha served at the table, and Lazarus was was guilty; they had been defeated in their plans against him in the temple, and feared his influence over the people. If they should arrest him it must be by subtlety and fraud. Not on the feast day. Not for fear of desecrating the day, but for their own selfish fears. A tumult at this time, when such crowds were assembled for the great festival, might easily grow into an insurrection, when, perhaps, the Romans would deprive them of the power they still had.

II. The devotion of the woman. v. 3-5. Being in Bethany. Four days previous to the conspiracy. The home of Mary, Martha, and Lazarus. Simon the leper. He may have been a relative; some suppose he was the father of Lazarus, and had been healed by the Lord. Sat at meat. John says, they made a supper; doubtless as a welcome feast. Awoman. Mary. GENERAL STATEMENTS.

The Savior's public ministry ended in the temple on the afternoon of the Tuesday in the week of the passion. On that evening the rulers met in secret conclave, and formed a plan to seize and slay him. They found in the circle of the chosen twelve one traitor who was ready to betray his Master. To explain his act of treason, the sacred writer takes us back to the preceding Saturday, when Jesus was at Bethany. Here a supper was made in the Savior's honor at the house of a certain Simon, whom Jesus had perhaps healed of leprosy. Among the guests reclining around the tables was Lazarus, whom Jesus had but a few weeks before called up from his grave, while his sister Martha served the guests. Into the supper room came Mary, his other sister, bearing an alabaster vase of costly perfume. She approached the Savior's feet, and washed them, as once before on another occasion they had been washed by another woman. Luke 7: 36-50. Then she broke the vessel, and poured over his head the oil, which sent its fragrance throughout the dwelling. Amid the silence with which her loving act was witnessed, one harsh voice arose in blame. It was the voice of Judas, who could not sympathize with the love that spoke in the deed, but saw only the wasted ointment and its cost in money. The Savior spoke in behalf of the woman, and gave to her acta new and solemn meaning, declaring that in it she was anointing his body for the burial. Judas was vexed at this public censure; was stung by the guilty consciousness of his own robberies from the treasury of the twelve: on the next day was disappointed that Jesus did not seize the throne after his triumphal entry; heard durng the following days the repeated utterances of Jesus concerning his own approaching death, and at last became convinced that his efforts were to end n failure. He resolved to make sure his own safety, and to turn the ruin of Jesus' cause into a means for his own gain. On the evening of Jesus' final departure from the temple, he voluntarily sought out the rulers, and bargained with them for a sum of money to betray his Master into their hands.

EXPLANATORY AND PRACTICAL NOTES.

Verse 1. After two days. Meaning "on the third day," that is, on Friday, as the last-named events (see Lesson XII. of the last quarter) took place on Tuesday. Passover. The feast commemorative of the departure of the Israelites from Egypt, when a lamb was roasted and eaten, with peculiar services, by each family. Unleavened bread. Bread made without yeast or leaven was eaten exclusively during the week of the passover. Chief priests and scribes. Comprising together the Sanhedrin, or great council of the Jews. Take him. The words of Jesus had increased their hatred, and they concluded that either he must be he began to meditate treason, but did not make the slain, or their power over the people would be lost. By craft. They could not arrest him openly, because he had broken no law, and if they should excite a tumult, they feared the Roman authorities and the wrath of he multitudes, for "the common people" were mainly friends to Jesus. Put him to death. They had driven him from the city before, and now were fully resolved upon his death. (1) See how hate deepens into deliberate murder.

2. Not on the feast day. The feast day proper was on Friday of the passover-week; but the purpose was to delay the seizure and murder of Jesus until after the seven days. Their plans were changed by the offer of Judas to betray Jesus. Lest there be an uproar. The city was crowded with pilgrims from all parts of the land, and while the Jews of Jerusalem were bitter in their opposition to Jesus, those from the country were friendly, and might resist the attempt to seize him.

3. Bethany During his stay at Jerusalem, Jesus spent his days in the temple, and the nights, for safety, at the house of Lazarus in Bethany, a mile outside of the wall, over the mount of Olives. (2) We too may enjoy the rich privilege of having Jesus in our homes. Simon the leper. Supposed to have been healed by Jesus, though his healing is not mentioned. Perhaps he was the father of Lazarus, present. As he sat. "Reclined," according to the ancient manner, at the table. At meat. From John 11:2 we learn that it was a feast, and an occasion of enjoyment. Even with the cross before him, Jesus was cheerful and social. (3) Those who are sons of God need have no dread of dying. There came a woman. Not "the woman that was a sinner," (Luke 7: 36,50) for she had washed the Savior's feet at another time and place; and such an event was likely to take place anywhere that Jesus visited. Nor was the woman on this occasion Mary Magda lene, but Mary, the sister of Lazarus. Perhaps Mark left her unnamed for fear of persecution, as her home was near Jerusalem. Alabaster box. Rather, from the place where the flasks were originally made. Of ointment of spikenard. A distilled perfume, mingled with oil, very fragrant and could afford it. Brake the box. Perhaps Mrs. M. C. Maxson, Berea, broke the seal, or the long neck. Poured it on R. Ford, Long Run, his head. The anointing was customary, but such expensive ointment was reserved by wealthy the ointment also upon his feet. It was a token of her gratitude for her brother's restoration, and of her and counts not the cost.

4. Some . . . had indignation. One be S. E. Hills, Moscow, Idaho, gan the murmur, (John 12: 4) Judas, in whose heart treason was growing, and the complaint | C. H. Greenman, Coudersport, Pa.

was caught up by others. (5) Note how ready many are to see evil rather than good. This waste. Such a view shows that even the disciples utterly failed to recognize the exalted nature and station of Jesus. If have counted this tribute a waste; much less to him who was the Son of God. (6) No honor is too great to bestow on the brow of our Redeemer.

5. Might have been sold: Judas takes the purely commercial view of the transaction, with no sympathy for the finer sentiments. Three hundred pence. Forty five or fifty dollars, when the same amount of money had as much purchasing value as \$500 now. Given to the poor. Judas saw what an addition this would have made to the treasure in his keeping. John 12:6. Those who give the most to Christ'are not the ones who neglect the poor. "It is the successors of Mary, and not of Judas, who really care for the poor."-Bishop Ryle. Murmured at her. Not only spoke harshly about her, but to her, about her act. Yet she, and not they had the deeper view of what was due to Christ.

6, 7. Jesus said. "Happy was it for this woman that she had a more just and discerning Judge to pass sentence upon her action than men." Let her alone. The language of sharp rebuke, indignant at the hypocrisy of Judas, and the want of consideration in the others. A good work. "A beautiful deed," that is, conveying the idea of its fitness and nobility of purpose. (7) Christ sees the heart while others see only the act. The poor . . . always. A melancholy truth, yet one which in its result enlarges the hearts of God's people, and benefits those who give more than those who receive. Me . . . not always. Another week and their privilege to serve the Savior on earth would pass away forever. (8) See here a lesson in the use of op-

8. Done what she could. An indirect reouke for those who, while finding fault at her act, had not testified such love as hers. (9) Happy soul to whom Christ gives this praise! Aforehand to anoint my body. Some think that Mary, with deeper penetration than the disciples, had real ized what they failed to understand, the nearness of his death, and that her act was in purpose her anointing for his burial. But it seems more likely that it was a simple act of love, in which Jesus alone saw a prediction. (10) Our Lord can divine deeper than ve the intent and meaning of our service.

9. This Gospel shall be preached. The ruths of salvation through the death of Jesus. (11) Christ foretold the universal diffusion of the word. A memorial of her. Her act will be remembered when the criticisms upon it have been forgotten. (12) Our best memorial is in the deeds wrought from love to Jesus.

10. Judas Iscariot. Probably Iscariot means "of Kerioth," a town in Judah. He was probably a good man when chosen as an apostle, and perhaps s practical abilities led to his appointment as treasurer of the twelve. Like the others, his views of the Savior's kingdom were earthly; but while the rest gradually arose to nlore spiritual conceptions, he grew more worldly, until selfishness deepened into covetousness and to actual crime. One of the twelve. An expression which brings his treason out into blacker relief. Went unto the chief priests. Perhaps immediately after the supper, and incensed at the rebuke which he had received, offer until the evening after the Savior's last teachings in the temple.

11. They were glad. Glad to find the spirit of disaffection in the innermost circle of Jesus' followers, and glad to find circumstances so favorable to their plot. Promised . . . money. Thirty pieces of silver (Matt. 26: 15), about fifteen dollars, to be paid when he led them where they could arrest Jesus. Conveniently betray him. A time when he could give them access to Jesus apart from the multitude; not easy to find, since he was gener ally surrounded by a concourse of friends.
