VOL. XL.-NO. 17.

ALFRED CENTRE, N. Y., FIFTH-DAY, APRIL 24, 1884.

BY D. E. MAXSON.

The above is the title of the document concerning which I shall try to find some ' bottom facts" in this article, and for the sake of brevity will call it "document" all the way through unless occasion should arise for using the whole title The history of the document as far as found out, is as follows: For authority, see "Schaff's History of the Christian Church." vol. II., p. 640, just issued: also "Introduction to Pamphlet Edition," by Profs. Hitchcock and Brown, just have crowded us out of our ecclesiastical craissued by Scribner's.

It appears that Clement, second or third Bishop of Rome, wrote an epistle to the Church at Corinth. This epistle was often cited by the church Fathers, in the early direction. Then how precious the assurance centuries, and then disappeared from Church History for more than a thousand years. Then in 1633 it was published at Oxford by Patrick Young, having been found with fragments of what purported to be a second epistle in the Alexandrian Codex now in the British museum.

Nine years ago, in 1875, Philotheus Bryennios, metropolitan bishop of Serræ in Mesopotamia, published a Greek manuscript bearing date of A. D. 1056, in which was preserved this old Clementine epistle to the Corinthian church. This manuscript he had found in an old convent library in a district of Constantinople. This writing supplied the parts that were wanting in that of the "Alexandrian Codex" published by Young in 1633, and contained also what purported to be a second epistle of Clement to the Corinthians. And besides these it contained the Greek epistle of Barnabas, the twelve epistles of Ignatius, with some other writings, among which was to have an æsthetic exhibition, an intellec- the "Teaching of the Twelve Apostles," and possession and exercise of spiritual power 3. The cause of spiritual decline is often tual feast, it is quite another to receive the a work of Chrysostom, viz., "a synopsis of

from those who are striving to walk in the path of obedience, my heart is filled with joy. It is, of course, natural to feel the strongest sympathy with those similarly situated with ourselves. Four years ago our little band was the youngest of the denomination, and we received the cordial welcome and precious words of cheer so encouraging to beginners in an unpopular cause. We would now return the same, to the several new churches, who, we are happy to learn, dle. Do not fail to "take to yourselves the whole armor of God," for, while striving to obey strictly in any one particular, the enemy will, if possible, defeat us in some other "God is able to make all grace abound toward you." 2 Cor. 9: 8. I rejoice to be able still to "call the Sabbath a delight," whether in meeting or alone with the precious Word and the conscious presence of the promised Comforter. It seems such a blessed fact, as we were talking it over a few Sabbaths since, that we had all our doubts and anxieties beforehand, as to the certainty of the doctrine so new and strange to us then. The matter was conclusively settled, thanks to the thorough teaching with which we were favored, and we are confident now that we know whereof we affirm, and on no less than divine authority, although the modest opinion was expressed by a noted clergyman in conversation recently, that the most intelligent Seventh-day people do not claim to be very sure of having the veritable day. The principles taught in First-day sermons, Sunday-school notes, etc., only confirm me more and more strongly, if possible, and, if rightly applied, must lead all to the keeping of the Bible Sabbath. I was deeply interested in the "Luther celebration," reported in the various papers, and was especially impressed with the comment of one of the leading religious journals, that "Luther reformed the Papacy, and Baptists reformed the Reformers." Might it not be pertinently added, Both sadly need reforming in regard to the Sabbath? Is it not humiliating that while glorying in the sublimity of the reformation, the clank of Papal fetters is still heard in the ranks of the majority of professed Protestants? I can not forbear referring to a few of the many rich articles in the RECORDER, which are so encouraging, especially those from D. E. M., in regard to the admission of facts by the high authorities he quotes, which it has been a great pleasure to circulate. Did ever anything more exactly fill the description, "Apples of gold in pictures of silver," than those few lines of Eld. Maine's in regard to Baptism and the Sabbath being on the same foundation? Would they might echo in the ear and reach the heart of every Baptist in Christendom. To the uniformly edifying communications of Bro. S. R. Wheeler, an expression in one of his articles seemed a serious exception, that is, classing regard to God's physical laws, in the list of what he calls "errors and strange notions," of another sect of Sabbath-keepers. It seems as if it must have been an unguarded expression, for the good brother could not wish to intimate that the laws of our being are not as indelibly written by the finger of God as was the Sabbath command on the tables of stone. And while their violation results in a lamentable destruction of the health and life, especially of women, is there not need of reform in this, as in every transgression of divine law? And here I want to express my gratitude for another article from While it must be conceded that the ing, and also giving just the instruction of bath truth. The word of caution, so expressive of the tenderness and wisdom needed in striking "at the root of long-cherished opinions taught by dear departed Christian parents, relatives, friends and revered ministers of the gospel," should be read over and again till its spirit permeates the mind and heart of last quarter's lessons, which even Firstday friends, to whom I read it, admitted. was very skillfully arranged, thoroughly substantiating its leading thought by abundant Scripture proofs.

weightier matters of the law, judgment, of these things, can only bridge over the

Spirit by human devices, which in fact and effect put the human in the place of the divine agency, is not only the source, but the evidence of spiritual decline.

4. The want of harmony between the means employed, and the spirit, principles and methods of the gospel, is often the occasion of methods for the manifestation of his love | the loss of the Spirit's presence and power. Men go outside of gospel economy, and put presence and blessing, when they employ means to ends which are not in practical and real harmony with the spirit and principles of the Christian religion. The gospel wins its way by its own principles and methods, and they who carry its truth to men, or in any sense "bear the vessels of the Lord," must be clean in spirit and principles of action, or suffer the loss of spiritual power and Christian efficiency. There is no place for doubtful measures in the kingdom and work of Christ. That which is not right in its nature and results as between man and man, or between Christian brethren. must bring moral confusion and spiritual weak-"The fruit of the spirit is in all goodness. ness, righteousness and truth." They who represent Christ and live in fellowship of the spirit must not onlý be good, but eminently righteous in thought and action.

To be concluded.

The manuscript as Bryennios found it, is described by himself as "an octavo volume, written on parchment, in cursive (running) Greek characters, and consisting of 120 leaves. The order of the contents is, first, Chrysos, tom's Synopsis of the Old and New Testament; then the Epistle of Barnabas; the two Epistles of Clerment; then the "Teaching of the Twelve Apostles," and this followed by the "Epistle of Mary to Ignatius, and in God, will lead to a faithful use of means, dearth and decay. It should be a question the twelve Epistles of Ignatius." This is the whole contents of the Bryennian "find." Of the 120 leaves of the parchment volume, only five are occupied by the document we are in pursuit of. Leaves 76-80 contain the matter the literary world is getting into such a hubbub over. Whatever may turn out to be the character of the little waif, it can hardly fail to suffer after the "Poor Tray" fashion from the suspicious company it has been kenneled with these last eight hundred

> years and more. Uhlhorn, in Schaff's new "Encyclopedia of Religious Knowledge," says, "Of the numerous writings which bear the name of Clement most are evidently spurious, e. g. The Apostolic Constitutions, and the whole group comprised under the name Clementines." The so-called second epistle of Clement, found in the Bryennian papers, is conceded by all to be of doubtful authentici-Schaff's "Encyclopedia" says, of it: tv. "It is only a homily, where, when, and by whom it was written are questions of great difficulty; and of the many hypotheses which have been offered none have proven fully satisfactory."

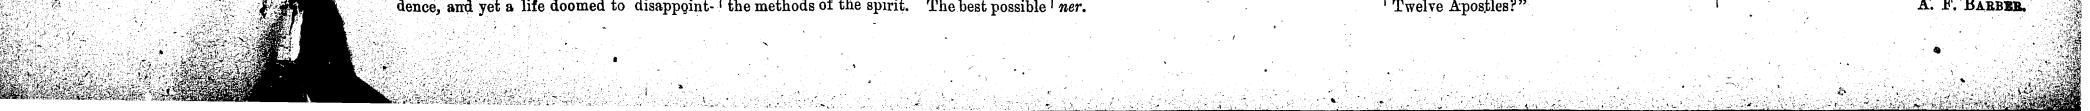

Hitchcock and Brown seem to share in this doubt by alluding to it in their preface as "the so-called second epistle."

The epistle of Barnabas, contained in the parchment, has long ago been proven spuri- | the same writer, February 14th, so encouragbinding of the document in question in the | which I have so much felt the need. in resame book with others, acknowledged to be | gard to the best manner of presenting Sabspurious, does not prove that to be so, it does suggest the importance of caution and care in the study of the document so environed. Missions.

"Go ye into all the world, and preach the gospe to every creature.'

A LETTER from New Auburn, Minn., says: spent a week, which we all enjoyed very much, and I think if such a man could be sent here great good might be done."

BETTER METHODS.

All would agree, we think, that much of our home mission work has been too piece. meal, although in most cases, perhaps, unavoidably so; and that if this work could be more continuous in method, the results would be likely to be larger and more permanent. Some years ago our Missionary Board voted to undertake a districting of the home mission field; but few, if any, practical results followed therefrom. Now. however, there seems to be an opportunity to make more of a beginning in this direction, which is believed to be very desirable. The Board has voted to invite Rev. J. W. Morton to become general missionary for Illinois and Wisconsin, with Chicago as headquarters; and to open correspondence with Rev. L. C. Rogers with reference to his becoming general missionary for the Central Association. Urgent calls for this steady and permanent work come from other parts of the great field, Minnesota being one of the most needy. Who will say, Here am I, send me? And who will say, Here are the means? In addition to the duties of missionaries, as set forth in the Rules and Bylaws of the Missionary Society, we would expect these district missionaries, (1) to labor to bring the small Churches up to selfsupport as fast as practicable; and, (2) to occasionally visit the large Churches in order to present to them the various interests of the Missionary Society, and to secure more liberal and systematic contributions to their work.

country's future wealth. It is true that we have not a very good market at present; but we have a prospect of a railroad within a few miles of us within the next year. Soil is good; timber is good and plentiful; climate mild and healthy; and mercury has only "Eld. J. T. I am very much gratified with what our publications are doing. I thank the blessed Yours in Christian bonds. May the blessed | evening meetings very often, and of course Spirit guide you.

FROM NORTH LOUP, NEB.

The circular relating to Woman's Foreign Mission Work, sent here, has been twice read before our Woman's Missionary Society. After considerable discussion it was decided that we ought to continue our efforts to free the church house from indebtedness, rather than take a share in the China Mission. A collection is taken every month at the reguular Church services, to be divided equally between the Tract and Missionary Societies. Our people here have given liberally to the work, and especially since the church build- I have by accident been compelled to run a ing has been in progress, some having given much beyond what they felt able to do. pray that the dear Lord may bless them in both spiritual and temporal things with as great liberality. It requires continued effort and self-denial, on the part of the people, to meet the expenses of the Church, and we are anxious to increase our efforts, so that, as soon as possible, the funds which now come to us from the Missionary Board, may be used on other fields. There are so many here long, for I am getting old; if I live to places where work ought to be done that I can scarcely wait to be able to do more than hai steamer "The Magoya Maru," we real- traction was a tall granite shaft with an arwe are doing. With a description of these itself-a pleasant hour was enjoyed, when turning to the east again, we made an exit through another narrow strait, all dotted with tiny islands, and put out to sea once more.

The following morning (Sabbath) we were anchored, and hastening on deck we enjoyed a fine view of the city of Kobe and the valley was wide, and sloped gradually to the mountains, the farthest buildings were elevated and the whole city lay open were pointed out by name.

The American Consul to Japan, General Van Buren, being a passenger, directed the scarcely to be seen, on the very highest mount nese love to make frequent pilgrimages there for worship, each ascent giving them much favor with the goddess. The journey up ward, it is said is but just begun, when the mountain side until they make this last long leap. About ten years ago a drouth visited this portion of Japan of such severity, that this body of water was diminished to a triffered, indicating that a similar calamity had occurred ninety years before.

At noon some of our Tokio party re turned from their visit on shore, with en thusiastic descriptions of the "Temple of the White Horse," which they had seen. As my great desire was to see a temple, I availed largest gathering of the kind ever known in | myself of the opportunity of accompanying Oswayo Valley; though to get there they must | a few that were going; there being four of walk about one and a half miles, part of the us besides an officer who kindly increased way through woods, brush and briars, or our number. Passing down the long steps drive about sixty rods through water from on the outside of the steamer, we endeavsix inches to three feet deep. Below town ored to enter the sampan which the flats were impassable. This kept many so frail and tossed about, that the rower was obliged to bring it up to the steps sepa-I have many a time taken my cross-cut | rately for each of us, when the one waiting would strive to step in at the right moment; thus each succeeded in entering, while none were so unfortunate as to jump into the waves. Having lived these weeks so high above the water, the little sampan and ourselves appeared to be sunk below the surface of the bay. Taking rikishas we rode through wide streets for perhaps twenty squares, when we came to a temple. Ascending the steps of the entrance, we passed under the archway into a wide, open space, with green grass on either side and dwellings beyond, pleased once more to continue our voyage then through another entrance into a second together. In coming on board the Shang- inclosure. Here the central object of atunder the American flag. We had advanced iron railing. It appeared to be foreign to

of fruits and cakes; also many had little furnaces with tea-pots of boiling tea, ready

Within the large inclosure of walks and grass plots overshadowed with immense places and the people-a little world by trees, we discovered at our right the veritable white horse, in a small building with a low gate in front of it. It was a pony of fine form, creamy white, with light eyes, and quietly eating, as any horse of less note might be doing. Beyond this was a cage with a life size wooden horse, painted white.

> Entering the second gate we observed the temple situated in the center of beautiful grounds, as this people are noted for their taste and art in landscaping. Here also a devotee of the richer class approached before the temple to worship, and rang the bell. He bowed repeatedly and -kneeled a long time, clasping his hands in great agony; then continued his bowing and praying. Slowly rising to his feet he made an offering to the god by casting a few handfuls of rice in a receptacle provided, doing the same before all the smaller shrines surrounding the temple. We were told that this man by his manner showed that he had some member of his family very ill, and in his grief had no doubt come up to appease the anger of the gods. Not knowing precisely which god was afflicting him, he was constrained in his grief to entreat the principal one first and then all those of lesser note adjoining the temple itself. We thought if he only knew of the one great God, he would have no doubt in his mind to whom he should pray, and not beseech a multitude fearing he might omit the right one. If the people at home could have seen this

man in his earnestness and agony as he cried vainly to the idols for help, how would they arise as one person, to consecrate anew, themselves, their efforts and their means, for the increased spread of the gospel, that the Sun of Righteousness may arise with healing in his wings, for the speedy enlightenment of the dark minds in these heathen lands. So we left this beautiful temple and its surroundings with sadness in our hearts, praying the Lord of the harvest that more laborers might be sent forth, until all hearts everywhere should be taught to worship Him alone. In the evening a most beautiful sunset was granted us, followed by a purple haze, which finally enshrouded mountain, valley, city and harbor. We saw Kobe no more, as we weighed anchor the next morning at daylight and entered the Inland Sea, to pass through among these islands to the western shore of Japan. This group looks insignificant on the map, but the extent of the Empire will the more readily seen, when it is . stated that we were two days and two nights making the transit to Magasaki the western point on the ccast, including only three hours stopping on the route. Sometimes it appeared truly to be a sea, with land only in the distance. Again we seemed to be passing through narrow straits and winding our zig-zig way continually around and about the islands. All were volcanic in appearance as if thrown up in some great convulsion of the earth. Some were rough and unsightly, while most of them were covered with green trees or terraced to their sloping summits. Here in this quiet sea sheltered from the northern winds by mountainous ranges, these two days were one continual feast of surprises, as the varied scenes followed one another in quick succession. The capes, the bays, and the inlets, the vast number of towns and villages lining the shores with the little boats and odd looking vessels clustering about them, the sky and the mountain peaks tinged with purple so peculiar in this oriental country, are sufficient to cause one to remember these days and experiences with intense delight. Often when passing through such narrow places that the adjacent villages seemed within call, we could plainly see the wide built-up road that everywhere followed the shore and reached from town to town. This was generally lined on either side by a row of trees, and is called "The Bund," upon which were seen rikishas and crowds of natives walking to and fro. Many fine homes were high upon the hills, and we wondered at a few ambitious ones who now and then built upon the loftiest heights; but we were told that these buildings on the highest points, when entirely white and surrounded by a grove, were temples.

FROM MRS. ELECTA WOOD, BINGHAMTON, N. Y.

I have sent a quilt to the Seventh-day Baptist Missionary Society, to be disposed of for Mrs. Electa Wood, for a donation from her. It is not a great sum, but it will help a little, and when I can give more I will. My love for God and his Word is all I desire to live for here. I can not expect to stay see the last day of this month I will be 81 years old. I would like to hear one Seventhday Baptist sermon, for I never have yet; but I am a strong Bible Christian for the Lord's Word. It is so true and comforting to my soul.

JULIETTA, NEZ PERCES CO., IDAHO.

Education.

"Wisdom is the principal thing, therefore get wisdom; and with all thy getting get understand-

REPORTS from our schools for the Spring term are quite encouraging. Authorities in Alfrea University state that the present is the fullest Spring term known for many years; while it is said that the attendance at about the public schools of that State: Milton College is quite up to the usual standard with more than an average as to scholarship.

CURRENT HISTORY.

We have sometimes heard students say have no time for current reading, so that other equally important topics, they are transpiring in their own, and other counties. Many students who do not confess to these facts would be found to be in the same class, if compelled to "pass regents" on current history. The following paragraph, clipped from the Iris, published by the High School at Bristol, Rhode Island, contains a suggestion on the subject which is worthy of some attention:

"One novel feature of our school is a News Recitation, which is heard every Friday. The pupils are expected to glean three items, at least, of national importance from the daily papers. In turn these are called for, forming a very interesting as well as instructive exercise. The advantages of this will be seen immediately. The scholars become conversant in the doings of the outside world, and, as their opinions on important topics are demanded, it not only develops their reasoning powers in a high degree, but also gives them a fluency both of ideas and of language. Besides this we are favored with frequent dissertations on interesting questions of the day by our teacher, and this tends to increase the interest we already feel in the matter."

GOOD LANGUAGE.

HANSAS SCHOOLS.

A Kansas paper has the following to say

"There is no country in the world possessing so many schools in proportion to population as Kansas. Her public school system is probably as near perfection as is possible, and the results are apparent in the good character of our youths. Within a radius of six miles around Hartford there are no less than fifteen school houses besides that their duties are so exacting that they those in this city, while in Coffey county there were in 1880 seventy-four districts, and while they are studying ancient history, and in Lyon county ninety-two. The number is considerably larger now. In these, schools are taught from five to nine months during almost entirely ignorant of what is daily the year, thus presenting educational advantages to rich and poor alike, as the schools are all maintained at the public expense.

CHILDREN IN CONNECTICUT.

In Connecticut the percentage of illiteracy is comparatively small. It is stated that, if the Government should decide to distribute \$50,000,000 among the various States on a book. basis of illiteracy, Connecticut would be given only about \$80,000. The law which prohibits the employment in manufactories and trades of young children is apparently observed much more carefully than it was a few years ago. . The number of children of schoolage during the past year is 149,466, and ninety per cent. of that number were duly registered in various institutions.

Sabbath Reform.

Remember the Sabbath-day, to keep it holy. Six days shalt thou labor, and do all thy work: but the seventh day is the Sabbath of the Lord thy God.

OUTLOOK CORBESPONDENCE.

We give below, at the suggestion of the Editor of the Outlook, some letters which

Guiteau. If you want to confer a favor on us afflicted Methodist preachers in Kansas, stop sending your paper; anyhow stop sending H. V. Givler's paper here. Very truly, I. M. SICK.

CHRISTINE, Mendocino Co., Cal., FEBRUARY 1, 1884.

Editor Outlook,—Seeing the letters to you in the RECORDER of the work that your paper is performing, I thought that I would like to have it. I am a Baptist keeping the seventh-day Sabbath, and I would to God every Baptist in the land could see that the seventh day is the Sabbath and that Sunday is nothing but a heathen festival, worked over by the Romish church. Within find twenty-five cents for the Outlook.

Yours, W. A. COALSON.

TRACT BOARD MEETING.

At the regular meeting, held April 13th, thirteen members of the Board and three visiting brethren were present.

It was thought wise to hasten the publication of "The Sabbath and Sunday in the New Testament," as much as possible, as there is a rapidly growing demand for the

Letters were read from the editor of the Quarterly and the Publishing Agent, relative to the next issue of that periodical, which, it is hoped, will appear soon. The establishment of rates of advertising in the Quarterly was referred to the Corresponding Secretary with power.

The Corresponding Secretary stated that arrangements had been completed whereby A. E. Main is to become Associate Editor of the RECORDER.

The Publisoing Agent was authorized to reprint one thousand copies each of the two exhausted nembers of Vol. I., of the Outlook; and to have bound five hundred copies, each containing Vols. I. and II.

The Publishing Agent's monthly statement for March, showed a balance carried

A statement of the Outlook account showed a balance due on publication, of \$174 19, which amount was ordered paid. The Treasurer stated that he had borrowed

sad to say, is so rife among our young people of the present day. The servants, with whom children spend much of their time, should be chosen with reference to this matpoint out any grammatical mistakes made by them, and insist on their language being correct, respectful and devoid of slang at all language, and at the same time learn of the occupations and companions of her children, is for the mother to encourage the daily narration of what they have seen, heard and enjoyed, and the telling of their little enperiences. The study of pictures, moreover, in which every child delights, may be used as a great provocation of language. Children always love to look at pictures, and can almost always be induced to talk about them. This study teaches them observation, and how to accurately describe whatever they see. When stories are read to children they should be obliged to reproduce them, using as far as possible the language of the book. The memory is strengthened in this way, a habit of attention formed, and the power of expression increased. If such plans as these are systematically carried out, they will prove a wonderful help in the thorough ed-

teaching and kind suggestions of parents will accomplish a work which can never be performed by study.

AMERICAN AND FOREIGN SCHOOLS.

Prof. Tousey, a gentleman of high estimation, in Minnesota, as a teacher and trainer of teachers, lately delivered an address, in which he enlarged upon the distinction between the school courses of Germany and Austria and those in this country, the speaker having a practical acquaintance with the educational systems of the countries named. | be left to speak for themselves: He stated that in his opinion the Kindergarten abroad was a fair equivalent to our public school; the gymnasium as complete and thorough as our high and grammar school departments. Professor Tousey also said that our "cramming" system was in direct opposition to the European theory of instruction and development. But it is, nevertheless, true that German boys are reported to be overworked in preparing for and continning their college courses.

By the will of the late Dr. Calvin Ellis, of Boston, the estate is left in trust for the henefit of his sister, and upon her decease \$50,000 goes to Harvard College, the net income of which, after deducting five per cent. for the purpose of increasing the fund,

WHAT DOES IT MEAN?

A correspondent says, "I came across a copy of the Day Star of New York, a few days ago, in which a circulation of 500,000 of that number was claimed. The paper urged a return to the Scriptures in all particulars. I wrote asking the editor why that did not apply to the Sabbath. For reply, I received later, the March number with an article on 'Constantine and the Sunday,' by Elder N. Wardner, quoted from the Signs of the Times. There was no comment in any way, and it was thought perhaps the article had been reprinted with a view to replying to it in the next number. But there appears, as yet, no evidence of such a purpose and it would ill accord with the general plan of the paper. It

TERMS: \$2 per year in advance; 50c. additiona may be charged where payment is delayed beyond the middle of the year. All communications, whether on business on

for publication, except those intended for the Missionary Department, should be addressed to the SABBATH RECORDER, Alfred Centre, Allegany Co. N. Y.

THE citizens of Alfred and vicinity are to be favored with a second visit of the Camilla Urso concert troup. All lovers of good music will do well to remember the date, May 3, 1884.

PROGRAMMES are being prepared for the the forth coming sessions of the Associations. We have no doubt arrangements are being made by churches and families where the meetings are to be held for the comfort of delegates. Let there be as thorough preparation of mind and heart for these gatherings, and great good will come from them.

As the Corresponding Secretary of the Tract Society is soon going to Europe and will see Bro. Velthuysen, it would be good plan if the Sabbath-schools could all report what they hope to do for the "Boods chapper Fund," before the thirtieth of this month. We hope our schools will act promptly and generously, in order that Bro. Babcock may carry to our Holland mission ary the assurance that we intend to stand by him in his great and good work.

SPEAKING of Lot and his choice, in a prayer-meeting recently, it was said that he found the region about Sodom a good place to raise cattle, but a very poor place in which to bring up children. How many Christian people are making some such choice as Lot made, and finding what he found, after it is to, late, that it would have been better to have gained less of earthly goods, and had more of those influences and helps which enrich the mind and chasten the spirit.

It will be seen by the report of the Treaswork suffer, there can be no reasonable is invited to enter.

doubt, but that any such alternative should be forced upon the Board, must be a matter truth for which we are contending. How

now in use by the Board ought to be withmore inquiry on the part of the general public on the Sabbath question, more real desire to know the truth, than has ever been known before in our history; is it a good time to withdraw, or contract our publications, by means of which this desire for information can best be satisfied? Never, in

the history of the American people, were there at work so many elements of agitaissues to be settled without the fullest and largest possible presentation of the truth of the word of God as we understand it? Without doubt all these questions will be answered, by every one who reads them, in the nega-It were worse than folly to say to our Tract Board, Go on with your work, and then negit. The next monthly report of the Treasurer ought to show not only the \$1,200 paid up, but also a good generous sum on hand with which to push the work.

THE PASTOR A WORKMAN.

for ourselves, lay hold upon the work these men and women have done and use it to aid us helps should be subordinated to the Bible, and not the Bible to the helps. And when we have used the helps, as best we can, as helps to Bible study, all lesson papers, quarterlies, and the like should be left at home, while we carry to the class, either as teachers or scholars only our Bibles.

us repent and do our first work anew.

Communications.

"But let your communication be, Yea, yea; Nay, nay: for whatsoever is more than these cometh of evil.'

TO SUNSET LANDS-NO. 21.

OAKLAND AND PIEDMONT.

San Francisco, like New York, is ap proached mostly by ferries, but familiarity with the short ferries over the North and East Rivers, gives no adequate idea of the ferries around San Francisco. The one to Oakland is the shortest, and that is five miles long. Others run to Saucilito seven miles, San Raffael fourteen miles, and one to Donahue thirty-four miles ! These ferries afford fine opportunities for a sail in pleasant weather, over one of the most charming bays in the world.

One bright morning we took the ferry for Oakland. The air was warm and balmy, fragrant of the sea. As we left the slip we noticed numerous whaling steamers at anchor. The whaling business has undergone a great change in a few years. Formerly ships sailed from New Bedford, New London, Stonington, &c., for three-years voy ages, and generally spent their Winters in out-of-the-way places, or at some savage port. Later, Honolulu, in the Sandwich the whaling ships of those days are seen no more. Small steamers now run up from San Francisco, make the best catch they can during the Summer, and then run back to Winter in San Francisco harbor from whence their oil is shipped to all parts of the world.

The captain was taken aback for a moment only, and then replied,

"Oh by the way, Mr. Officer, I have a fine case of French Brandy on board, which I have intended to present you before I sailed. If you will give me your address. I shall take pleasure in sending it to your

This being satisfactory, the umbrella subject was dropped.

These ferry boats are double decked, and the main saloon is above. The station at Oakland is also two storied, and the entrance for passengers to and from the boats is from the second story, leaving a free passage for teams below.

Oakland is to San Francisco what Brooklyn and Jersey City are to New York. It is a beautiful suburb of some 35,000 inhabitants. and has what no other city in the world can If any of us are guilty in this matter, let | boast, a free transit throughout its limits. When it gave the Pacific Railroad permission to use its streets, it exacted as a condition that its citizens should always ride free over the road within the city. This has had an effect probably not originally anticipated. Many large manufacturing concerns are locating here, because their help can get to and from the works without cost.

Among these is the Judson Manufacturing Company, which has large rolling mills, machine shops, steel works, and several agricultural implement manufactories on their large grounds. Near them is being built the first cotton factory in California, which promises to be a large and profitable business.

A span of mettlesome steeds and a light spring wagon took us around among the fine residences, through the spacious streets lined with trees, past lawns velvety green, notwithstanding it was the last of November, and out over iron-stone roads towards Piedmont Springs. The way was lined with eucalyptus trees with their strange double foliage giving the appearance of two trees in one. The old leaves are long, alternate and lancolate with long petioles, and of a rich dark green color. The new shoots, however, had leaves of a light Nile green, heart shape, sessile and, frequently, opposite. On the way we passed a new establishment for extracting oil from these leaves, and making a fluid extract for preventing scale in boilers. The peculiar odor of these trees fills the air, and is supposed to keep away malaria. Piedmont Springs is a lovely place, fitted up for a resort, with lawns, flowers, arbors, walks, etc., and has a nice hotel where one may stop and enjoy the climate and the water of the spings. There are two, side by side in the same rocky grotto, one of iron and the other of sulpur.

We returned by another road, and after a delightful drive of many miles amid novel scenes, took another ferry, somewhat longer, arriving at our hotel in time for dinner. G. H. B.

TEMPERANCE WORK IN CARBONDALE, PA.

The Lord has been blessing his servants in a most wonderful manner, in this city. A call from the clergy came to me last August, to "come over and help them." We opened the campaign on Sunday evening, March 23d, in the Presbyterian church. Since that time the meetings have increased in attendance and also in interest. Yesterday (Sunday) we held a meeting in the City Hall for men only; it was packed, many standing during the whole service, while many had to go away. In the evening services were held in the M. E. church, and notice was given, if the M. E. church would not hold them, an overflow meeting would be held in the Baptist church. At 7, P. M., both churches were packed, the isles be-At another time the steamship A ---- had | ing filled with two rows of camp chairs. Every every available space of standing room was occupied, from the steps of the altar to the corners of the galleries, and yet many were turned away. I addressed both meetings. The power of the Lord was apparent in both meetings and the pledge roll was swelled to the number of 1,226. The ministers are a unit in the good work, and the Christian people show a solid front to the enemy. The Father Matthew Society have assisted us greatly. They have a strong organization numbering 330 adults.

> The meetings are characterized with a deep religious feeling, and men are feeling that their neglect in the past has been a power for evil.

Committees are earnestly at work and each evening shows how their labors are blessed of the Master.

Many of the saloons are deserted. Three have already closed up. One of the leading "Why I see you had lost thirteen um- saloons is said to have fallen off in its. re-

ORDINATION AT MILTON.

On Thursday, April 10th, at 10 A. M., council of the churches of Southern Wis consin, met with the Milton Church to examine and ordain Bro. E. H. Socwell to the gospel ministry. Bro. Socwell has been called to the pastorate of the Cartwright Church, and that Church requested the Mil ton Church to ordain him. The council organized with Rev. N. Wardner, D. D., as chairman, and W. F. Place as clerk. After a long and searching examination, the council unanimously recommended the ordination of the candidate, and those exercise immediately followed. Rev. V. Hull preached the ordination sermon from Rom. 1: 16, "I am not ashamed of the gospel of Christ for it is the power of God unto salvation," etc.;

Rev. S. H. Babcock gave the consecrating prayer; Rev. A. McLearn, D. D., the charge to the candidate; Rev. E. M. Dunn was ordered to write a charge to the church and send it to them; Rev. J. C. Rogers gave the right hand of fellowship and Rev. E. H.

Socwell pronounced the benediction. General satisfaction was expressed as to

the manner in which the candidate acquitted himself under fire. Bro. Socwell is well known to the Cartwright Church, having labored there last Summer, and we trust that his work there in the year to come may honor God and abundantly bless the church and the community.

W. F. PLACE, Clerk.

SAD NEWS FROM HOLLAND.

A letter from Bro. Velthuysen to Bro. J. F. Hubbard, of Plainfield, dated March 20, 1884, announces the death of Bro. DeNoble, who was much beloved by the Sabbath-keepers in Holland. Bro. Velthuysen says: "He was as my right hand in the work, especially in the administration of my paper." A full notice will undoubtedly appear from Bro. Velthuysen himself, in time. Λ. Η. L.

New York. ALFRED CENTRE. Eld. C. W. Threlkeld, late of Carrsville,

Ky., preached a very acceptable sermon last Sabbath, in the First Alfred Church, on the Divinity of Christ. Large congregations fill the church every Sabbath, and the Sabbathschool for some time past has averaged about 225.

In a communication several weeks ago I spoke of the maple sugar season as "short and sweet." Since then the season has been very unexpectedly lengthened, and the sweetness also has been long drawn out. Several new houses are to be built in our village during the coming summer.

RICHBURG.

E. R.

Sabbath, April 5th, was a day of unusual interest with the First Seventh day Baptist Church of Richburg. Though the atmosphere was a little chilly, there were many hearts warm with a new found Saviour's love. At the close of our regular Sabbathschool session, the congregation repaired to the water's side, where three happy candidates followed their Saviour in the beautiful and impressive ordinance of Christian baptism. One of the candidates, Mrs. James A. Lyon, is a very promising convert, not only to the religion of Jesus Christ, but, also, to Jehovah's sanctified Sabbath. She has united with our Church and will be a valuable worker among us.

Meetings were held for nearly every day and evening for ten weeks. At present, we are only holding about four meetings in a week. The work seems to be gaining strength and moving steadily forward. New seekers are found upon the anxious seats and some are giving serious attention to the examination of Bible truth upon the Sabbath question.

While we give God the glory for what he has done, and is doing for us, we earnestly solicit a continuance of the prayers of our people in behalf of the cause, on this truly most remarkable field for missionary labor. JAS. E. N. BACKUS.

APRIL 13, 1884.

New Jersey. NEW MARKET.

as usual. The Spring term here is always much lighter than the other terms.

Chas. B. Hull has sold his interest in the Telephone to his brother O. P. Hull, a newspaper man of considerable experience, and will himself go on with his studies.

cept the Young People's meeting on Friday and Sabbath afternoons. Last Sabbath three more candidates for baptism presented themselves, making nine so far.

Our temperance contest resulted in a complete victory of the temperance people in town ticket, no license, etc. No license was carried 327 to 101; an order raising a tax to maintain good order was carried, and other regulations for town improvement were voted. Whiskey did its utmost and its defeat is

most signal.

The Second Annual Camp Fire of the A. D. Hamilton Post G. A. R., was held April 16th with a crowded house. Phil Cheek Jr., Department Commander for Wisconsin, gave the address on "Aim and Objects of the G. A. R;" Willie B. Millar recited "The Old Surgeon's Story; " Miss Dorie Richardson, "The Picket Guard;" and Mrs Alice D. Place, "Roll Call." Miss Anua Goodrich Mrs, W. P. Clarke, Miss M. J. Haven, and Miss Magnolia Barrow, and Messrs. C. M. Post, W. B. Anderson, R. H. Saunders, and Irving Clarke, furnished excellent music, vocal and instrumental. After the literary exercises, those of the audience who chose, ate their share of the rations liberally issued to all comers.

Illinois. FARINA.

The series of union meetings of the Methdist and Prebyterian Churches which closed more than a week since resulted in over one hundred conversions, of which forty-one were added to the Methodist Church and thirty-three to the Presbyterian. Others have signified their intention of joining one or the other of the two Churches mentioned.

The anniversary of the organization of the Seventh-day Baptist Church of this place, which occurred on the 14th of April, 1866, is year by year an occasion of interest to the membership, especially such as are constituent members. The events of that day will 1884. S. D. Davis, preacher of Introductory Ser-

Selected Miscellany.

DON'T BE IN A HURRY.

Don't be in a hurry to answer yes or no; Nothing's lost by being reasonably slow. In a hasty moment you may give consent, And thro' years of torment leisurely repent.

If a lover seeks you to become his wife, Happiness or misery may be yours for life. Don't be in a hurry your feelings to confess. But think the matter over before you answer yes.

Should one ask forgiveness for a grave offense, Honest tears betraying earnest penitence, Pity and console him, and his fears allay, And don't be in a hurry to drive the child away.

Hurry brings us worry, worry wears us out, **Easy** going people, know what they're about, Heedless haste will bring us surely to the ditch, And trouble overwhelms us if we hurry to be rich.

Don't be in a hurry to throw yourself away, By the side of wisdom for awhile delay. Make your life worth living, nobly act your part, And don't be in a hurry to spoil it at the start.

Don't be in a hurry to speak an angry word; Don't be in a hurry to spread the tale you've heard.

Don't be in a hurry with evil ones to go; And don't be in a hurry to answer yes or no. -Hebrew Record.

MRS. ORMSBY'S CASE.

Grandma Ormsby had made up her mind, and when that clever woman did this you may rest assured something was to come of it.

Though a grandmother in fact, as well as in name, her appearance was not in the least venerable. To be sure, time's frosty breath had left.silvery gleams on her ebon hair, and tinged her cheek with a ruddier glow, still she was in the prime of life, and possessed everything to make length of days desirable.

True, she had had her trials in the past, • nor was the present free from care and anxiety. However, she was the sort of a woman to "rise to the level of the hour," be that hour's need great or small.

Yes, Martha Washington Ormsby had made up her mind. Not without careful consideration and not without gravely consulting those in whose good sense, and on whose sound judgment, she placed implicit reliance.

To these friends she had said: "My plans are all laid now, and we are pledged to secrecy, are we not? What you see and hear goes no farther."

"No farther," they each and all responded.

After the settlement of so weighty a matter she felt free to anticipate Alrina's arrival.

Alrina, the youngest of three daughters,

recently built adjoining the Ormsby grounds, | cheeks. came in the day after her arrival.

Mrs. Duvault was a very old lady, and "Softly! Don't cry any more, you'll and miry clay, but has its source in every-patted Alrina's cheek caressingly as she waken baby. Besides, I've a confession to lasting rock. clasped her hand in greeting.

"You resemble your father, my dear child," she said, surveying her with keen but kind eyes, "and I am sure you are as good."

" Good!" laughed Mrs. Ormsby derisively; "just wait till yeu see her in one of her tantrums."

Mrs. Lorton was painfully conscious of being given to tantrums, but how could her mother be so cruel as to expose her before this charming old lady whose good opinion she coveted.

"So this is your baby, is it?" said General Duvault, entering at this moment and being duly introduced.

Poor Rina's heart was sore, her eyes full of tears; no wonder she hung her head un der the old soldier's gaze.

"Did you ever in all your life see stronger proofs of temper?" exclaimed Mrs. Ormsby, "Alrina, if you don't learn to behave better, I'll find out a way to make you."

"I-I must see after the baby," gasped door.

"You must do no such thing," replied Mrs. Ormsby sternly. "Bridget has him. She knows how to take care of children. You're not to disgrace me further by rushing from the room in that unseemly manner."

Mrs. Lorton remained, but the pleasure she expected to derive from the society of this delightful couple gave way to torturing pain.

Recollections of past tenderness only rendered her agony more acute. It was forpose her children's faults, even in the retirment of the family circle. She rarely inflicted punishment, invariably admonished in private, and, so far as she was able, treated her husband and her girls as courteously as she treated her guests.

Alrina Lorton wondered over this change in a mother still too young to have become childish. She wondered more and more as the days ran by.

Mrs. Ormsby and her widow daughter, Mrs. Sixty, kept open house, and in the crowds coming and going Alrina escaped censure; but in the presence of those whom the mother held in the highest esteem, and whose good opinion she herself coveted, she

One of the former, occupying a house neck, and other tears beside her own on her is natural to link an author's words with the humbly of himself and be tempted to high-

make. Be quiet and listen."

Martha Washington Ormsby had acted her part and acted well, what a relief to know the time had arrived in which to lay it aside and forever.

Referring to the subject they had discussed during her visit west and so disagreed upon it that it was deemed expedient to drop it, Mrs. Ormsby said:

"My dear girl, I have treated you precisely as you treat your children. Such measure as you mete them has been meted you. You accused me of turning your holiest feelings into ridicule and burlesqueing the natural impulses of your being. You have also denied a mother's right to drag her children's faults to the light and bring them to shame and confusion of face before her guests. Yet you, Alrina, pursue the same course with the little one's God has given you. Nor is Pemberton less guilty. Even at the moment of separation, you planted thorns in one tiny breast that may rankle there for years. My child, the ordeal Rina, between a sob and a groan, making at has been a trying one, but in no other way the same time a tear blinded rush for the could you be enabled to see your error, and endeavor, God helping you, to correct it.

Mrs. Ormsby spoke gently, sadly, going on to tell how often she had found Mattie, Alrina's sweet young daughter, weeping as bitterly as she had wept that day, and how Pemberton, noble, sensitive boy, was afraid to enter the room, or to eat at the table. where there were guests, because of her unjust, fault-finding disposition.

A west-wind blowing, a dip of fruity boughs on the window-ledge, bird songs thrilling in the distance, near garden scents wandering into the room, mother and merly a point with Mrs. Ormsby never to ex- daughter in each others arms. Martha Washington Ormsby had gained her case.-Arthur's Home Magazine.

OR, FOOLISH HEART

Oh. foolish heart, why feel In pain a pleasure, And banish smiles to find In tears a treasure? Why seek the cruel thorns Beneath the roses; Why harbor thoughts of night Before day closes?

The joys of life, at best, Are far too fleeting, That thou should haste the hour Of grief and greeting. Sufficient to the day Is its sorrow; For the pleasures of to day May pall to morrow.

A FAITHFUL SHEPHERD DOG.

Gerhardt was a German shepherd boy, and a noble fellow he was, too, although he was very, very poor.

One day while he was watching his flock, which was feeding in a valley on the borders of a forest, a hunter came out of the woods and asked:

"How for is it to the nearest village?" "Six miles, sir;" replied the boy, but the

BITTER BREAD.

Complaint is frequently made by those who use baking powders that they leave in bread. biscuit, or cake raised by them a disagreeable. bitter taste. This taste follows the use of all impure baking powders, and is caused either by their containing alum (introduced to make a cheap article), by the impure and adulterated character of other ingredients used, or from the ignorance of their manufacturers of the proper methods of combining them. These baking powders leave in the bread a residuum formed of lime, earth, alum, or other deleterious matters, not always, though frequently, tastable in the food, and by all physicians classed as injurious to health. The Royal Baking Powder is free from this serious defect. In its use no residiuum is left and the loaf raised by it is always sweet, light and wholesome, and noticeably free from the peculiar taste complained of. The reason of this is because it is composed of nothing but absolutely pure materials, scientifically combined in exactly the proper proportions of acid and alkali to act upon and destroy each other, while producing the largest amount road is only a sheep track, and is very easily of raising power. We are justified in this assertion from the unqualified statements The hunter glanced at the crooked track made by the Government chemists, who after thorough and exhaustive tests recommended the "Royal" for Governmental use because of its superiority over all others in purity, strength, and wholesomeness. There is no danger of bitter bread or biscuit where it alone is used.

thirty-two. At the early age of fifteen she had left all for love's sweet sake and accompanied Pemberton Lorton, aged twenty, to a home in a far western city.

After what seemed centuries of separation Mrs. Ormsby visited her daughter. This visit paid soon after the sods greened over Mr. Örmsby's grave, somewhat cheered her widowed heart; still 'there were circumstances connected with it which she could never recall without pain. The hour was approaching however, in which she hoped to triumph over a great wrong. This was no personal injury, understand. You'll find out all about it as my story runs on.

Meeting her daughter and son-in law at the depot, Mrs. Ormsby met also a disappointment. The babe whose red gold curls a red-gold sun-set bathed, as he was handed into the carriage, was one of the sweetest cherubs out of the skies; still she regretted not seeing the older children.

"I thought you meant to bring them all," she said.

"Bring them all?" exclaimed Pemberton.

"Bring seven!" gasped Alrina. "Yes," answered Mrs. Ormsby. "I expected them, and I wanted them. I conleave them with."

"Aunt Di took them in charge," replied Pemberton. "They all love her so dearly and they were pleased to death to get rid of **us**."

"Now Pem!" put in Alrina, always taking her husband's funny sayings literally, or rather sayings that were meant to be funny. "Mattie and Pembie felt badly I'm sure, shame him before them all. Yes, ma, we | right to make life a burden. shamed him before Di's beau, the Professor, and other friends gathered to see us off."

as in her heart, yet no, she would not give | fore. them utterance. This home-coming, eswhere clover breaths blew and an insect not accompanied their parents. Their absence rendered a part she intended playing less difficult, and allowed a larger scope for her plans.

Alrina Lorton found the landscape feawas putting on town-bred airs. Bran new dwellings, reared with the grotesqueness of the latest architectural craze, attitudinized on sites where in childhood she had linked dandelion chains and chased the glitteringwinged butterfly.

In addition to this there were new acquaintances her mother and sisters had formed, as well' as the old friends she remembered so well and loved so dearly, anxious to be introduced, or "dying" to see her.

had been the first to marry. She was now humiliated, never noticed directly any at tack upon her, yet they beamed delightedly on her mother, as if earth did not contain her counterpart.

Nor did Mr. Lorton escape, although Mrs. Ormsby was not, as he termed it. "as hard for-quoting him again-"not raising a mond. rumpus." Still, such a state of affairs was Then far from agreeable.

One day, three weeks after their arrival. Mrs. Ormsby surprised her daughter in a torrent of tears.

After being treated with unusual severity, that too in the presence of her mother's reverend pastor, she sought refuge in her own apartment where her tortured heart found relief in a very storm of sobs, a perfect deluge of weeping.

"What's the matter?"

In answer to this cool, calm inquiry from her mother's lips, Mrs. Lorton raised her head.

of her father's masterful spirit flashing from her tear-drenched eyes. "Can you askyou, who ever since my arrival have done all gratulated myself on your having no one to in your power to mortify me in the presence of those whose good opioion I value-you, who to-day turned my holiest feelings into | self; but den, Miss Anna, ef you was to go ridicule, and burlesqued the natural impulses of my being-you frigidly ask, What's the matter?

"Are you my daughter, or not?" inquired Mrs. Ormsby haughtily.

Having borne in silence until she could bear no more, Mrs. Lorton, acknowledging and as for Burnie, he cried so we had to the relationship, denied this stern parent's

"Do you mean to tell your mother she has no right to exercise authority in the "The more shame for you!" These correction of her children's faults?" returned words burned on Mrs. Ormsby's lips as well Mrs. Ormsby even more severely than be-

"You must remember I am no longer a pecially this drive through willowy ways child," replied her daughter. "I am'a married woman. "Granted," returned Mrs. choir piped, should have nothing to mar its Ormsby; "but since I sustain the same veinnocent joy. "Time enough - time lationship I did in your infancy, and since, enough," reflected Mrs. Ormsby, and on the although you have matured, I have matured whole was glad that the elder children had doubly, it is my right, my burden duty to endeavor to correct your faults. Do you deny that right? Do you defy me?"

During this conversation poor Mrs. Lorton's cheeks had burned and iced by turns, her lovely eyes flashed and besought altertures altered as well as the faces of those | nately; now, while she answered, they were whom she knew in early life. The place blue as a storm-cloud in which lightnings sleep

"It is not my desire to rebel against your authority, mother, but I do most emphatically deny your right to drag my faults to Editor's Drawer, in Harper's Magazine for the light, to bring me to shame and confus. May. ion of face before your guests."

Here the dear woman broke down completely. She was after all only a chidden child, hiding her wet face upon the couch on which her baby slept. "Alrina!"

There was a pressure of arms around he:

Hoyular Science.

AN Electric Sounding Lead has been devised by M. E. de la Croix. Two electric conductors form the sounding line, and the "lead" is so arranged that when it strikes the bottom it completes the circuit between these conductors and rings a bell on board, and announces that the bottom has been reached. в.

COMPARATIVE VALUE OF ARTIFICIAL AND NATURAL BUTTER AS ARTICLES OF FOOD.-In estimating the value of any article of food, the points to be dwelt on are chiefly its nutritive qualities, taste, and action on the system, whether injurious or otherwise. In the case of butters of various origin, the last two points are easily settled, as a posi tively injurious influence has never been seriously ascribed to artificial butter. A. Moyer (Loudw. Versuchs. Stat. 29-215) has recently shown by a series of experiments upon this subject, that the nutritive qualities of artificial butter and natural butter vary to such a small extent that no comparison can be made of practical importance.

THE MICROMETER. - A "standard micrometer has been made for the American Society of Microscopists by the United States Bureau of Weights and Measures. The scale is engraved on platiniridium, 20 per cent. iridium. The examination as to the correctness of this standard was carried on through seven months of last year by Prof. Wm. A. Rogers, of Harvard College Observ- COACHES which are the finest that human art Wm. A. Rogers, of Harvard College Observ-atory, and it has now been accepted by the society. It is to be kept in approved safe deposit valuts, and not to pass out of the MOM CARS, which are unsurpassed by any; hands of custodian except with the permis- and its widely celebrated sion of the Committee, President, and Secretary of the Society, but other micrometers the like of which are not run by any other road anywill be compared with the standard, and where. In short, it is asserted that IT IS THE the result certified to, for a reasonable fee. -Scientific American.

amount of lead present. The test will distinctly indicate a tenth of a grain of lead per gallon in ordinary drinking water, and, by a comparison with solution free from lead, much smaller quantities are indicated. In searching for traces of lead in water, it is convenient to take two porcelain dishes; into the one place 100 c. c. of the water to be examined, and into the other a solution of the carbonate of lime in carbonic acid water, known to be lead free, and approximatively of the same hardness as the water to be examined; then add to each an equal bulk of scriptions received in stamps or money order. Postthe coloring matter in quantity sufficient to distinctly tinge the water; the colors may now be compared; the slightest blue tint will London, E. be either due to lead or copper; for copper in very dilute, solutions gives a similar tint, but in solutions of 1 to 1,000 or stronger the hue is so different as to differentiate the two metals. The method is within certain limits applicable for quantitative purposes on the usual colorimetric principles. As a qualitative test, it is superior to hydric sulphide and more convenient.-Analyst.

THE cause of the ascent of the sap seems still enveloped in mystery. The. theory of "root pressure" is little more than a restatement of the fact. There is undoubtedly a heavy pressure upward in the root; in Betula lutea, according to Professor Clark, of 84.7 feet of water. Professor Bentley now says that, in the roots of the birch-he is referring to Betula alba of Europe-""the tension of the contents of the roots is much augmented as the result of intimate chemical changes;" these changes being the conversion of starch into sugar by the agency of a ferment held in solution in the liquid. At a meeting of the London Pharmaceutical Society recently, Professor Attfield gave some figures in connection with the enormous amount of liquid pumped up in a white birch while under root-pressure. The tree was 39 feet high, and 21 inches in circumference, and yielded seven eighths of a gallon every 24 hours. It yielded one per cent. of sugar. On exposure, to the air it became charged with bacteria, and the sugar was replaced by alcohol. In America almost | Spring Term, March 26, 1884. all trees seem to be surcharged with water during the Winter and Spring; for, on breaking a branch or scratching young bark, water oozes out. One would suppose that, with the tremendous pressure upward there would often be a rupture of the epiderms; but as there must be an enormous waste by evaporation during cold, dry weather, it is barely possible that the object of this Winter and Spring pressure is to supply the moisture for this evaporation, in the absence of which supply the tree would dry up and die. It is

LESSON V.-CHRISTIAN LOVE.

BY REV. THOS. R. WILLIAMS, D. D.

For Sabbath-day, May 3.

SCRIPTURE LESSON.-1 Cor. 13: 1-13.

1. Though I speak with the tongues of men and of angels, and have not charity, I am become as sounding brass, or

and have not orbital, I the vertice of prophecy, and understand 2. And though I have the gift of prophecy, and understand all mysteries, and all knowledge; and though I have all faith, so that I could remove mountains, and have not charity I am pothing.

faith, so that I could information including, and the poor,
and though I bestow all my goods to feed the poor,
and though I give my body to be burned, and have not charity, it profiteth me nothing.
4. Charity suffereth long, and is kind; charity envieth

a. Charity sunferen long, and is kind, charity envieth not; charity vaunteth not itself, is not puffed up, 5. Doth not behave itself unseemly, seeketh not her own,

even as also I am known. 13. And now abideth faith, hope, charity, these three; but the greatest of these is charity.

TIME.-A. D. 57. PLACE OF WRITING .- Ephesus.

CHIEF THOUGHT.—Christian love.

GOLDEN TEXT .-. "Love is the fulfilling of the law."-Rom. 13:10.

OUTLINE.

I. Love'the essential element of the Christian life.

II. A description or picture of love. III. The supremacy of love.

QUESTIONS.

Give the connections with preceding lesson. Who is the writer of this letter? To whom was it written? From what place was it written? What was the occasion for writing the epistle? What is charity? As a gift, how does it compare with the gift of tongues? How does it compare with prophecy? Is it superior to all knowledge? Is it superrior

controlling principle of charity to all men. It seems object, however simple, except by what it does which is peculiar to itself. We may distinguish one thing from another by what it does not do.

is here made to injuries and provocations. There is but little exercise for real charity where all men are lovely. But if one would know the real temper of his love, let him be dropped into cold water or into the fire, let him be injured sorely and repeatedly, then look at his own heart in a sharp and clear light, and see what it does, how it feels and what it thinks. If it endures and is still, is kind, good natured, takes sweet pleasure in kind offices to the evil doers, never resent and retaliates in thought or word or deed, he may claim some measure of charity. He may also know it by the absence of all envy, pride and self gratulation.

V. 5. Dost not behave itself unseemly. It is always courteous, winsome. It has such a re gard for others as carefully to avoid giving offense. If offense has been inadvertently given, it seeks at once to remove the injury and offense. Seeketh not her own. It finds its happiness in the happiness of others, does not seek its own happiness as such. Not easily provoked. Pure love can not be provoked, it may be grieved, but never gives place to anger, malice and vindictiveness

V. 6. Rejoiceth not in iniquity. Never finds pleasure in the errors, and evil doings of others, Rejoiceth in the truth. Always rejoiceth in the spread and triumph of truth and righteousness. There is a pure admiration for what is pure and true.

V. 7. Bearcth, believeth, hopeth and endureth all things. These four words show that stable nature of charity which is not suddenly moved by indignities against self or evil reports against others, but always maintains a forgiving trusting patient spirit.

V. 8. Charity never faileth. It will never be superseded. It is not a temporary principle grantad to men for certain purposes, but it is the central principle without which there can be no true heart life toward God or man, and hence can not expire so long as the soul lives in harmony with Him in time and eternity. All the other gifts may pass away or expire with their use, not so with love. V. 9. We know in part, etc. Limitation prophecy, they are at best only partial and for this world. When that which is perfect is come. This seems to look forward to the coming of that to which these gifts related. That which is in part shall be done away. That is, they shall be superseded, no longer needed. Not so with love it can never end its mission and be super seded

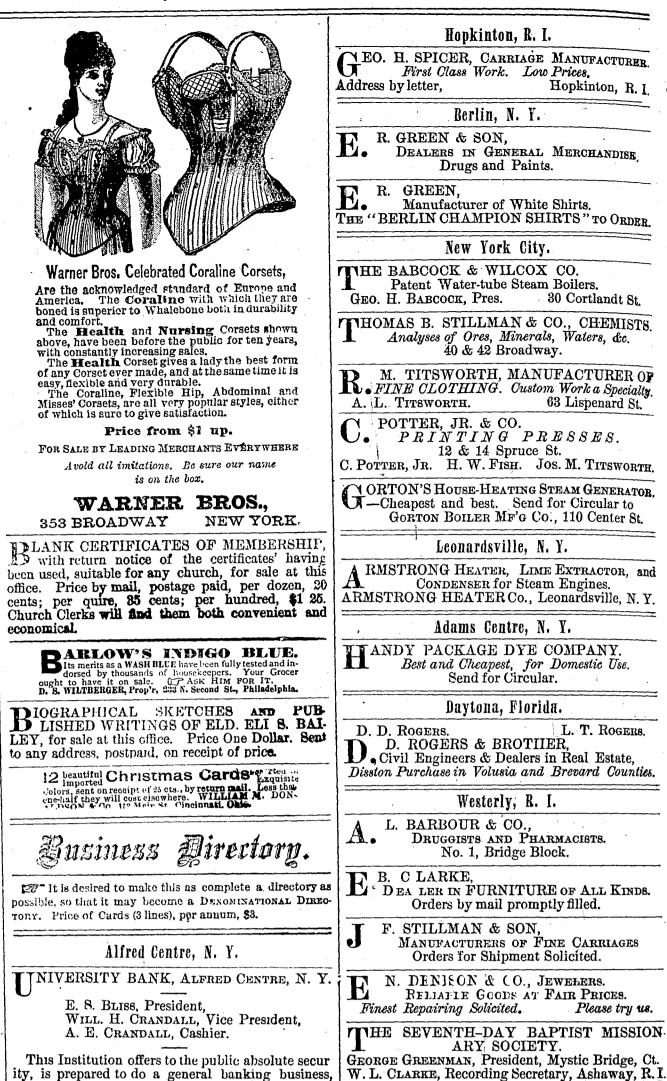

V. 11. When I was a child, etc. Paul here speaks of the growth in spirit life. Spiritually man is born, has infancy, youth, and may attain to man audience in the First Seventh-day Baptist hood. But each successive stage, with its gifts and Hopkinton, April 14th. 2 Cor. 5:8. attainments is merged into this higher until that which is perfect is reached. But love is the ever beating heart that ministers the currents of life and growth through all these stages of God life in

She attended church on the Sabbath before her to be impossible to our finite minds to describe any death in apparently better health than usual, and entered upon the duties of the following day with animation, but before noon was taken sick. She had been a member of the First Genesee Church for about seven years maintaining a consistent Chris-V. 4. Charity suffereth long. Reference tian walk. She asked her attendants to pray for her and sing the hymn, "I'm Going Home," after which she frequently sang parts of the hymn, engaged in prayer, and repeated passages of Scripture, especially Matt. 24: 44, which was the text from which the sermon was preached at the funeral on the afternoon of Sabbath, April 9th. She leaves a large circle of friends to mourn her loss. G. W. B.

> In Willing, N. Y., April 16, 1884, BETHAIS, wife of Geo. W. Norton, in the 67th year of her age. For the last year she has been a sufferer from heart disease which terminated in paralysis, causing death. She has left a husband and two children. J. K.

In Willing, N. Y., April 10, 1884, SARAH, wife of Stillman Rogers, in the 71st year of her age. Mrs. Rogers had been in poor health for the last two years and a half, and a few days before her death, she received a shock of paralysis which ended her sufferings. She has left a husband and one son. J. K.

In Ashaway, R. I., of consumption, MARION B. DEVOLL, wife of John Jacob Babcock. She was born Dec. 21, 1844, baptized and united with the First Seventh-day Baptist Church of Hopkinton April 21, 1866. In 1868 she united with the Pawcatuck Church of which she was a member at the time of her death. In 1866 and the following year she attended the Glenwood Young Ladies Seminary, at West Brattleboro, Vt. Her musical powers and worthy character, helped her to win an enviable position in this school and society as was evinced by the high esteem in which she was held. The Principal of the school said of her, "She is one of those young ladies whom it pays to educate." December 7, 1869 she was married to John Jacob Babcock, and with the exception of a few months in Providence, where her husband was engaged in business, the rest of her life and labors have been spent in Asha way. Two years ago she had forebodings of the approach of the relentless disease that has smitten herdown. The Autumn following, these appre hensions were so confirmed that she said to her hus band, in words that have proved too true, "I am going to leave you." She could not be d'ssuaded from this conviction and only in unusually bright periods since, has she thought she could be well again. April 10, 1884, as the day was drawing to a close, she bade good-by to her little family, and the spirit forsook its tenement and returned to God who gave it. One of the finest traits of her character was that which enabled her to correct the errors of her life so silently as to cause them to be forgotten, leaving scarcely a stain. She tried to live well She was a gentle and loving wife, safe in counsel, a stay and support in adversity, a devoted mother, a noble woman. She was a beautiful singer and characterizes all our gifts, of knowledge, tongues her voice and heart were enlisted in the temperance work in the place. The high appreciation in which she was held by the community was beautifully and eloquently illustrated by the floral presentations and decorations. Among other pieces the lyre appropriately expressed the admiration and sympathy of her companions in the choir. Some time before her death in speaking to the writer, of her anxiety for her family she said, "I can not stay with them, but they, if they will, can come to me." She wished her children to be taught to think of her, not as in the grave, but in heaven. A. E. Main, O. U. Whit

to all faith, or simply miraculous faith? How does it compare with benevolence and self-sacrifice? In what sense does charity suffer long? Is not puffed up? How many positive qualities of charity can you mention? To what evil habits of mind is it always opposed? What is meant by unfailing charity? How is it that propecies, tongues and knowledge, fail to cease and pass away? What is meant by "that which is perfect shall come ?" Is there childhood and afterwards manhood in spiritual life? Are we taught here that in the future life we shall see clearly and know perfectly? Which is the greatest of all the virtues?

INTRODUCTION.

This chapter is remarkable for its beauty and force, and especially so, appearing in the midst of arguments and remonstrances, from the pen of Paul. Its style and rythm and beauty of thought suggests as the most appropriate name "A Psalm of Love." It would seem that the supreme importance of charity or love, had suddenly burst upon the mental vision of Paul, and he apprehended it as the essential and crowning virtue of Christian life. To be destitute of this, as an ever present and ever active principal towards all men, is to be destitute of the saving power of Christ in the heart. Men may be able to talk about religion, even very eloquently, without charity in their own hearts, but they cannot talk the religion of Jesus Christ for they do not know what it is, in its spirit and power to save men.

LESSON NOTES.

V. 1. Though I speak with the tongues of men and of angels. With men, the ability to speak with tongues, with sweet flowing eloquence, and faultless rhetoric, is often deemed the essential qualification for the gospel ministry. And if men could be inspired so as to speak like angels then surely they might be almost adored for their immaculate purity. But Paul regards even such men, without charity for all their fellowmen, as sounding brass. Their religion is all in their loudsounding words, but their hearts are vacant.

V. 2. I have the gift of prophecy. The ability to speak the divine truths by inspiration and with unerring accuracy. And understand all of an article by Justice William Strong upon that mysteries. The deep truths in the divine plan | subject in the North American Review for May. In of salvation, are often spoken of as mysteries, because they could not be understood by finite minds until God interpreted them by fulfilling the promises and types. And all knowledge. This kindred of the earth, known as the asteroids. In doubtless refers to the highest attainments of human wisdom. Though I have all faith. That is all necessary faith to accomplish any desira | rates of transportation, are hindered rather than ble work, even to the removal of mountains. Grant that I do possess all this mental and spiritual power. And have not charity, That love for men, And have not charity, That love for men, drick Johnson, contributes an essay on "The Mean-whether they be good or bad, that lifts me above ing of Song." Finally, there is a joint discussion all ill will and enables me to cherish kindness and love for them however much they may injure me. Not having that charity, all these other gifts go for nothing.

V. 3. Though I bestow all my goods. Giving of alms is an external act and may be performed withselfish motives and of course is so performed if the heart is not ruled by charity. There is a vast NIE A. KEYSER, of Ceres. amount of such false charity in the world. Give my body to be burned. This is an extreme example of self-sacrifice, and yet Paul conceives it possible without the unmixed motive of love to all-men and to God. So it seems to be clear that no measure of mental attainment, and no degree of selfsacrifice, no gifts of tongues, or loud professions of religion before the world, have any virtue in them-

V. 12. Now see through a glass darkly. Our present condition is surrounded with limitations. we are in the vestibule of our existence, just begin ning to learn some of the simple elements of the higher and endless life. But then shall know, as known. The capacity of the spirit life for

eternal growth is referred to here. The time is coming when we shall know ourselves and all that per tains to our eternal interests as we are known of God. We shall then stand, as it were, face to face | friends tenderly cared for him, but could with Him who now beholds every content of our hearts. We shall be admitted to all the glories of God's kingdom and our true relations to that king dom.

V. 13. Now abideth faith, hope, charity. Faith is spoken of as trust, confidence. To the child of God that must ever abide. Hope eter nally reaching out for wider attainments in the infinite treasures of heaven, must abide forever. Love uniting the soul with the infinite, all wise and holy God the Father of the Lord Jesus Christ, must abide forever. But as God who is infinite love, is greater than all possibilities of finite beings, as measured by ferrer, but her trust was in the strong faith and hope, so is love which allies the human soul with the infinite love of God for all eternity greatest of these.

May God by his grace and through the Lord Jesus Christ implant that love in all our hearts and thus save us from all envyings, jealousies and strifes and make us truly children of God.

THE tide of immigration setting toward our shores is subject to fluctuations, but there exists no reason to anticipate that during the life of the present generation it will fail to reach the average heighth of the past ten years; immigration, therefore, continues to be one of the great economic questions of this country, and it involves a political problem of the highest importance, that of naturalization. That our naturalization laws are defective in many respects is notorious, and the demand for their revision will no doubt acquire added force from the publication the same number of the *Keriew*, Edwin P. Whipple offers a candid judgment of Matthew Arnold. Richard A. Proctor, under the title of "A Zone of Worlds," writes of the vast multitude of the pigny "The Railway and the State," Gerrit L. Lansing essays to prove that the multiplication and extension of railroad lines, and the establishment of low helped by governmental interference. Prof. Henry Osborn, of Princeton College Has an interesting article on "Illusions of Memory." Helen Kenof "Workingmen's Grievances," by William Godwin Moody and Prof J. Lawrence Laughlin, of Harvard **University**.
