We felt sure that these gifts, consecrated by the prayers of so many loving givers, could not fail to reach us safely, for these offerings had been made to the Master, and entrusted to his care as they voyaged over the wide, trackless sea; Jesus had been asked to be captain of the ship on which they came. They could not fail to reach us. As the time lengthened, we thought more constantly about this precious cargo, and wondered if it had met with any adverse winds on its ocean voyage, but we know that Jesus is not only able to guide the ship amid the storm, but he is able to command the wind and the waves, so that the raging billows should cease. DAISIES

BY FANNIE STILLMAN.

One morning last summer, in early July, When out for a ramble, I chanced to drive by The home of a neighbor, who moved from our town, To find a farm region of greater renown. My way was all sunshine, and silvery sheen Of dewdrops and grasses in velvety green; Wild roses and clover, regaling my senses, Their pretty pink heads, peeped out from the fences; But nearing my neighbor's, from left into right, The country, all over, was shockingly white With dataies.

I viewed them with horror, for as they there stood, And covered his meadows and pastures and wood, They seemed like some great and invisible foe, In uniform caps, with their fingers like snow. And seeming appropriate, I thought I would write My neighbor a sermon of warning that night, For townsmen and kinfolks believe him half crazy. Or think that at least, he is dreadfully lazy; And after some study and reading the Book, Without hesitation, the text that I took Was daisies.

And there, as I sat in reflection, that night I thought as I viewed him in such a sad plight, Tho' plain be my manner and blunt be my speech If good is my motive, his case I may reach. With pen, ink and paper, 'twas thus, I began, Oh neighbor, kind sir, since the downfall of man, would go again and make inquiries of the Since time had a day, from its very beginning, Has Satan been planning to keep people sinning, China and Japan Trading Co., thinking per-And neighbor, your sin, as it seems now to me, Besetting you sorely, must certainly be haps, they had forgotten to fulfill their prom-Your daisies.

The publications of the Society are the Jewish Intelligence, an illustrated monthly magazine, the Jewish Advocate, an illus trated quarterly paper for children, besides those mentioned in report. The Society has intended to publish a paper in the Hebrew tongue, like that planned by us; but could not yet secure a fit editor till now. The few Hebrew controversional tracts, that have been secured by the Society, are, with the exception of one, of no value. The Society is intrusted with considerable property in different places and lands. In London, all the buildings in Palestine Place, the Episcopal Jews' Chapel, the Jewish boys' and girls' boarding schools, the Jewish Converts Operative Institution, the Hebrew Missionary Training College, mission houses, etc., belong to the Society. It makes a whole block, and derives the name Palestine Place from that fact The Society owns also the house in Lincoln's Inn Fields, which forms the Society's committee offices. The very nice and costly church building in Koniggratzerstrasse in Berlin, Prussia, which is called Christus-Kirche, and is placed in the hands of Prof. Paulus Cassel, D. D., a Hebrew Christian, the Missionary of the Society, was erected by the Society. The beautiful Christ Church building on Mount Zion, Jerusalem, and the several institutions around it, are all property of the Society. The creation of an Anglican Bishopric in Jerusalem, in 1841, was also the work of that Society; and the first bishop installed there to exercise the functions was Bishop James Alexander, a Hebrew Christian. That the Society has been attended with blessings from above since it was constituted is an undeniable fact. Lewis Way, a very active, zealous, learned and rich clergyman, fostered its infancy. The greatest men have been its missionaries. The best men in England patronize the Society. The late Earl of Shaftesbury, the most prominent and most sides have been heard. This alone teaches religious man in England, was its president much. till the day when he was called up to the heavenly reward. ing three years, chiefly with dispensary patients and visiting the homes of the sick. Dr. Sigourney Trask, the first woman physician appointed to the work in China, arrived in Foochow in 1874. In 1875, \$5,000 were granted to buy a site and build a hospital and physician's residence. The hospital will properly accommodate 18 to 20 patients. It was opened in 1877; and for the first year, there were reported 57 ward patients and 754 dispensary patients.

Dr. Julia E. Sparr joined the hospital in 1878. Dr. Kathe A. Corey took her place in 1884. And, later, by the marriage of Dr. Trask, the work was left in the hands of Dr. Corey.

Larger accommodations are needed, both for the common people, and for those that are willing to pay for rooms. There is need, also, of a training school for nurses, as the Chinese people, as a rule, are ignorant of the necessity of regularity in giving medicine. It is supposed that two drachms at once is a fit substitute for one-half drachm every two hours.

A mandarin once thought it not worth while to leave his wife at the hospital for two months at an expense of about \$2, saying, "If she is not healed she can be my slave; I can get other wives." "It is only a woman," "It is only a girl," is a remark that shows their estimate of woman-kind.

Dr. Corey had, the past year, four medical students, and two more were expected this year. The following are the Regulations:

1. Every student on entering must show a wish and determination to study, for the good accruing therefrom, without reference to any financial benefit.

2. Must have a fair knowledge of the classics. Hereafter none but those having as thorough an education as can be obtained in the schools here will be permitted to enter. 3. Must not be under 16 years of age, (for-

eign count). 4. Must sign a contract, which has been previously signed by parent or guardian, pledging that she will remain during the five years' course, and longer, if necessary. in order to pass the required examinations; also main so until graduation. She is required to attend the religious services in the hospital.

5. Each student is paid \$2 per month. This is simply for support, the first two years, then, if by her record in clinical work, and her standing in examinations she is found worthy and capable, she is promoted and receives \$3 per month.

ings of religious societies. Especially was his interest excited, at this period, in the Jew's society (the sbridged form of the London Society for Promoting Christianity among the Jews), which was enjoying its palmy days. There had been everywhere a revival of zeal in behalf of God's ancient people, good news was constantly arriving from Jerusalem, of the labors of the bishop and his noble band of workers, and certain promises and prophecies of the Scriptures were regarded as about to be speedily fulfilled. As a matter of fact, their fulfillment was not accomplished, but the anticipation stimulated faith and hope in those who read what they thought to be the signs of the times. It reminds one of the eleventh chapter of Hebrews, to read the master-roll of the great cloud of witnesses-the fathers of the Evangelical Church, who were on the platform at the 'exciting meeting' on the anniversary day, most of whom have now gone to their rest. 'These all died in faith, not having received the promises, but having seen them afar off, and were persuaded of them and embraced them."" Of the speech to recognize and acknowledge. delivered from the President's chair by Lord Ashley, I will speak in a future number.

JEWS AND CHBISTIANS.

Here is a clipping from the Jewish Intelligence, but to make the affair more clear, let me say, that the Jewish world is edited by London Rabbis, and is a strictly Jewish weekly. It used to be, as most of the Jewish papers are, a very bitter enemy to every effort made on the side of Christians or Hebrew Christians to spread Christianity among the Jews. It has lately ventilated the question again, What shall the Jews think of the efforts made to convert them to Christianity? and, as we see in following paragraphs, both CH. TH. L.

A correspondence has lately been going on in the Jewish World with reference to Mis-Jews of leading position, that we reproduce the last paragraph, regretting want of space preventing us from inserting the whole. It is sheer nonsense for Mr. Simon to assert

The convention of the diocese of New York, which chose Provoost for its bishop, included five clergymen and the representatives of seven parishes. In all the thirteen American colonies there were only about 200 clergymen, and but few more congregations. To-day the original Diocese of Pennsylvania has become three, with five bishops, with 400 clergy, 300 parishes, 50,000 persons who regularly commune at its altars, and with voluntary offerings for the past year of a million and a half of dollars, or £300,000. sions to Jews. PAGAN RESIDUUM IN CHRISTIANITY.

Sabbath Beform.

BY REV. A. H. LEWIS, D. D.

Dr. Joseph Priestley, LL. D., F. R. S., speaking of the corruption of Christianity in the earlier centuries, says:

"After the age of Justin Martyr, we find many additions made to the rite of baptism. It was then the custom to give the person baptized milk and honey, and to abstain from washing all the remainder of the day, for which Tertullian says they had no authority from the Scriptures, but only from tradition. They also added unction and the imposition of hands; the unction probably referring, in a symbolical manner, to their preparation for a spiritual combat, and in applying the oil, the priest touched the head or the forehead in the form of a cross. Tertullian is the first who mentions the signing with the form of the cross, but only as used in private, and not in public worship, and he particularly describes the custom of baptizing without mentioning it. Indeed it does not appear to have been used in baptism till the latter end of the fourth or fifth century; Lactantius, who lived in the beginning of the abounds.

fourth century, says the devil cannot ap. proach those who have the heavenly mark of the cross upon them, as an impregnable for-tress to defend them; but he does not say it was used in baptism.

"After the Council of Nice, Christians added to baptism the ceremonies of exorcism, and adjurations to make evil spirits depart from the persons to be baptized. They made. several signings with the cross, they used to light candles, they gave salt to the baptized person to taste, and the priest touched his mouth and ears with spittle, and also blew and spit in his face." *

Baptism and the Lord's Supper were both farther completed, in order to assimilate them to the pagan mysteries. Dr. Priestley says:

"The pagan mysteries were most attractive in this corrupting age. The pagans had many secret rites, and when one had been know each other. Baptism and the Lord's Supper were both corrupted and made mys

"All the heathens contrived their temples so that they would pray with their faces toward the east. This was introduced into the Christian worship about the time of

Jerome, though it was not generally approved of."* Dr. Priestley add, correctly, that pagan philosophy gave rise to these evils. The same philosophy gave rise to no-Sabbathism, and many of the reasons for observing Sun-

day. The following are the Doctor's words:

"The causes of the corruptions were almost wholly contained in the established opinions of the heathen world, and especially the philosophical part of it. So that when those heathens embraced Christianity, they mixed their former tenets and prejudices with it. . . . The abuse of the positive institutions of Christianity, monstrous as they were, naturally arose from the opinions of the purifying and sanctifying virtue of rites and ceremonies, which was the very basis of all the worship of the heathens." All this shows that the corruptions in forms and ceremonies grew from still more hurtful corruptions of theories. The evil people.

CORRESPONDENCE.

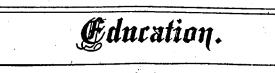

The Florida Times-Union, of Jacksonville, refers to the enforcement of the Sunday law in Washington as follows:

"The Washington Sunday law is not a blue law in the ordinary sense of the term, will feel interested in the contest on the 000 in our own country outside of the church ground taken that Sunday is not the Sab- -eight times more than the entire populabath-day."

It is true that "the Seventh-day brethren" feel interested in the contest which is initiated into any of these, he was given a going on concerning the Sunday law; not on earth as it is in heaven." This looks as serves. The office seems to be less attractive sign by which he, and those like him might that it is espacially important to them, for if Christ desired and purposed to reign uniactment, in the matter of the Sabbath. They are interested in seeing the church and the state work at the problem of civil legislation concerning religious questions, which paganism made a part of Christianity. The present movement toward enforcing the highest sympathy so far as the restraining church, leaving 1,000,000,000 unsaved. A of all immorality, and especially of all liquor selling, on Sunday, as a day of leisure. While it is not possible to prophesy concerning such movements, especially at this time, we are sure that the problem will assume very different features within the next five years from those which now present them-

of a Sabbath-keeper, and he go free. And yet the business of railways, hotels, factories. and of driving pigs to market on Sundays went on unmolested ! Verily the apple of the eye of pagan Christianity is Sunday. In Fredonia, Kentucky, quite recently, a

number of men were talking harshly against Sabbath-keepers, when a Presbyterian minister said, "Gentlemen, it won't be fifty years till it will be much more difficult to find one observing the Sunday than it is now to find one observing the Seventh-day." His opinion is not groundless. Instead of defeat it will be victory.-Sabbath Memorial.

"Wisdom is the principal thing, therefore get wisdom; and with all thy getting get understanding.'

FOR THE MINISTRY.

Under this head we publish some extracts from the 23d Annual Report of the Evangelical Education Society, Philadelphia, which are well worth careful study by our own

As we press this matter upon the attention of devout men, they naturally ask, Is there need of additional laborers? Are we not already over supplied? There may be too many men of ordinary capacity, but we certainly need men of efficiency and power -men of self-denial and self-sacrifice-men who are willing to go to the waste places, and are able to make fields for themselves. Look at the work which remains to be done. A. D. 1800, the population of the United States was about 5,000,000; of these 350,000, or 7 per cent, were communicant of the Christian Church. In 1880 our population had increased to 50,000,000 and the communicants to 10,000,000, or 20 per cent. In other words, 80 years ago, only one in though its enforcement undoubtedly makes | every fifteen of the population was Christian, the classes who are accustomed to disregard while now one of every five confesses Christ's the Sabbath-day in order to accumulate piles name. This is a wonderfully rapid increase of filthy lucre very blue. A good many of the church, for which we are devoutly people, especially the Seventh-day brethren, thankful. But alas! there are still 40,000,-

tion eighty years ago ! Again, God commands, "Go ye into all the world and preach the gospel to every creature," and pray ye, ." Thy will be done their authority is far higher than civil en- versally upon the earth-that every knee young men of the country as the most deshould bow before him and every tongue should confess his holy name. How far has this desire and purpose of God been fulfilled? Eighty years ago the population of the world was about 800,000,000, one-fourth of whom were called Christians, leaving 600,000,000 to be converted. The population in 1880 was estimated at1,400,000,000; of these 400, Sunday laws, in different places, has our 000,000 are connected with the Christian larger number than the entire population of the globe 80 years ago! Surely there is room for work, and crying need for laborers in every part of the world. (Statistics from Dr. Dorchester). It has ever been true, and probably will remain true during the present dispensation, that faith cometh by hearing the Word of God. The first commission of Christ has never been recalled. "Go preach my gospel." "Preach it in season and out of season. Preach it whether men will hear or forbear." "It is the power of God unto salvation to every one that believeth." We need men who have the self-sacrifice to go forth to the waste places of the earth, and the force and ability to make their own field. This matter is well put by one who speaks from his own experience in a hard field in the West. "It is said that it is absurd to attempt to church does not comfortably support those already in the field. This appears plausible, but it is based upon the false assumption ject being to tell the world who God is and that the pay of the clergy is regulated by the what is his Memorial of Creation. This solemn duty still rests upon every member of the church of Christ. The one question for each convert to decide is. how and where he may best declare the great salvation. Every one should ask devoutly: "Lord, what wouldst thou have me to do?" Gladly saying to his divine Master, natural qualifications for the ministry, and is impelled by a strong sense of duty to prepare for it, and is willing to make any sacrifice to do so, has the strongest indications of a divine call to the sacred office.

Our divine Lord's deep interest in the work of increasing the ministry is manifest from the fact that his only command to specific prayer which we have on record is, " Pray the Lord of the harvest that he would send forth laborers into his harvest." Is not this command strangely overlooked, not only by the church in her litany, but also by the clergy in their public and private ministrations? Dare we believe that the church is giving heed to this command, and that God is withholding the overmastering influence of his Holy Spirit, by whom he calls men to his service? Is it not more reasonable to suppose that we are restraining prayer before God, than that God is arbitrarily withholding his Spirit? Should we not then press upon the intelligence and the an inhalation, directing him not to expire; conscience of the whole church the duty and the responsibility of watching, praying and laboring to recruit the ministry from the best men of the land? CIGABETTE SNOKING.

In the St. Louis Courier of Medicine is an article by Dr. Mulhall on cigarette smoking that sets forth the matter in its true light as an unmittigated evil. He shows that most cigarette smokers not only inhale the smoke into the mouth, but do really take much of it into the upper part of the gullet and down a portion of the windpipe. He says, "If the smoker did not very sensibly feel the contact of the smoke with his larynx and windpipe his pleasure would not exist.'

In answer to the question, How far does the smoke inhaled penetrate the windpipe? he says, "I have often with the laryngoscope examined a friend immediately after but though the smoke is readily seen in the windpipe, its volume prevents deep inspection so that we are limited to the sensations experienced by the subject, and from these, produced by a strong tobacco in myself, I am satisfied that the smoke proceeds as far as about an inch into each bronchus. coming therefore into contact with the four "cough spots"-the bifrication of the trachea, its posterior wall, the under surface of the vocal cords, and the inter-arytenoid commissure. A significant fact to be remembered is, that the smoke thus comes in contact with at least four times the extent of mucous membrane that it does in ordinary smoking, since in the latter method the mouth alone is the smoke chamber, whilst in the former there is added the lower third of the larynx and the traches; there is consequently four times as much surface, all absorbant, exposed to tobacco fumes, and hence four times as much nicotine absorbed. He sums up the results of cigarette smoking under four heads:

teries. Great secrecy was observed in the celebration, and those unbaptized were not permitted to remain and witness the celebration of the Supper. The Apostolic Creed was made a symbol, a sort of initiation formula, to be revealed to the candidate post baptism."

Speaking of the baptism of bells and the many ridiculous ceremonies connected therewith, Dr. Priestley tells us that, "The idea of this ceremony, as almost of every other that was used by Christians, was adopted from the pagan ritual, in which there was a solemn consectation of every instrument used in their worship."1

Another attendant element of the corrupselves. tion of baptism was introduced through "holy water." Note the following:

"In popish churches the first thing that we are struck with is a vessel of what is called holy water, into which those who enter dip their fingers, and then mark their foreheads with the sign of the cross. This holy water, there can be no doubt, came from the lustral the entrance of the heathen temples, and those who entered were sprinkled with it."§

The fonts now in use in Pedobaptist churches, are but slightly modified in form from those used in pagan temples, before the came from the sun-worship cult, as holy water did from the water-worship cult. Dr. Priestley says of this:

"Burning wax lights, in the day-time, was used in many heathen ceremonies, for which they are ridiculed by Lactantius. 'The heathen,' says he, 'light up candles to God, as if he lived in the dark; and do not they deserve to pass for madmen who offer lamps to the Author and Giver of light?' But not long after this, these very wax lights were introduced into Christian worship."

Incense came from the same source.

"Another thing that was noted by the early Christians as peculiar to the pagans was incense. But so early as the third cent-Ambrose and Chrysostom as in common use, their times."¶

"Lastly, processions, which are conducted with great solemnity by the paptists, were also copied from heathen worship. Among the Romans they were instituted by Numa, and both in the pagan and popish processions the chief magistrates often assisted."*

SABBATH-DAY, May 21st, is the time which has been suggested as "Children's Day" throughout the denomination. It is to be hoped that many will observe it, and that in time it will come to be a red letter day in our denominational calendar.

SEVERAL persons have sent answers to the "Old Riddle," published in the RECORDER of April 28th, or perhaps we should say the answer, for all agree. We do not know what the correct answer is, but suppose that given to be the correct one, as "what everybody says must be true." Among those answering are Grace J. As we descend through the grounds we come upon another statue, apparently of bronze, with marble trim mings; but as we approach, it proves to be an old darkey who has chosen the privacy of the place to perform his "spring cleaning," and do some necessary needle work upon his tattered garments. This is not the only evidence of spring, however. Tulips and hyacinths abound; the yellow forsythias are all aglow with color; here and there a flowering almond is in bloom; the Japan quince is full of rosy buds, and the lilac bushes are preparing to don their spring garments of purple and fine 1-eaves, while all about us the air is vocal with songs of praises, caroled by the birds. We took carriages and rode out to Vanderbilt University, where the Scribe had a friend in one of the professors, who took much pains to show us the sights in the little time we had to give to this purpose. There was a fine specimen of young life in old bones when the professor's threeyears-old son crawled into the empty shell of an enormous pre-historic turtle and laughed and crowed, until he cried, at his novel play-house. THE following, from the Christian Oracle is worth repeating, just for the fun of it :

Poor penmen always complain of the com positor or proof reader. Once in a while they are right. "Ah ! what's this ?" exclaimed the intelligent compositor. "' Sermons in stones, books in the running brooks'? That can't be right. Oh, I have it! He means 'Sermons in books, stones in the running brooks.' That's sense." And that is the way it appeared in print, and yet the writer was not happy.

It is stated by a returned missionary from China that "the heathen never go to their temples to worship without carrying an offering of some kind as a proof of their sincerity. When they become Christians this conviction is not rooted out, but rather is it hightened in proportion as Christianity is regarded as superior to heathenism." The missionary adds, "I have seen them give to such an extent that I felt it a duty to remonstrate, and remind them that they owed duties to their homes which must not be forgotten." Here is a case in which some Christians might take lessons of those who have been reared in the darkness and superstitions of heathenism, and be the better for it.

HIS OWN PLACE.

When Judas had betrayed his Lord with a kiss for money, his remorse suddenly became so great that he went out and committed suicide. The author of the Acts of the Apostles speaking of these things, says that Judas, by transgression, fell from the high position to which he had been invited, and adds these significant words, "That he might go to his own place." The legitimate inference from this statement seems to be that men, sooner or later, find their level; or, in other words, that when a man goes to his awards he goes to something prepared for him, and for which he is prepared.

God, it is said in Scripture, will reward every man according as his work shall be. This truth gives significance to everythin we do. In the light of it nothing is a trifling importance. All our acts of devotion besides being the expressions of praise, or obtaining the answers to praver, have an immediate and direct influence upon our characters, making them more and more Christ-like in all purposes, aims and choices

Every act of disobedience, or neglect of the will of God concerning us, is not only a si against God, but it is a sin against ourselves, and unless repented of, and washed away by the blood of Jesus, will help to work out ou eternal ruin.

Whether we will it so or not, the whole business of our lives is that of character making. Day by day and hour by hour, the thoughts we think, the deeds we perform, the choices we make, are all weaving themselves into our personal characters; and our characters are ourselves. God, in the gift of Jesus Christ, through the potencies of the

new birth, and by the help of his Spirit and Word, has made it possible that all these shall work together for our eternal salvation because they work out into the perfect and eternal Christ-likeness; so that after all that is said about working out our own salvation,

Nashville is finely situated on a group of at their bases. The capitol of Tennessee stands upon the top of one of the higher of these hills, and a view from its cupola is one not soon to be forgotten. It is quite a climb, over 200 feet, and Donna Percetta and El Bah gave up the attempt before getting to the top, though the latter went as far as the

We noticed that one citizen seemed to be fond of natural history, for he had converted his front yard into a zoological garden by filling it with a great variety of cast iron and terracotta animals. This plan can be recommended on the score of economy, both of expense and trouble, for, after the first investment, which need not be large, the garden can be maintained at a minimum of cost and care.

In a quiet little village, like ours, there is not very much going on which is likely to interest the outsider. Occasionally, however, something occurs which is worthy of special mention. Such was the visit, last week, of the great American pianist, William H. Sherwood, who gave a most brilliant piano recital, on Wednesday evening, in the College Chapel. The possibilities of the piano were exhibited in a most wonderful manner, under the touch of his masterful hand. The audience was not large, but it was appreciative. SCOTT. The funeral of Mrs. Harmony Richardson Ferry, aged 91 years, 8 months and 24 days, was held to-day. Thus another of the old land-marks has gone.

Within the year past five of the aged members of our church have passed from the church militant to the church triumphant. The first to go was Aunt Fanny Maxson, in the 95th year of her age; the next was Aunt Amy Hubbard, in her 84th year; next Uncle Raymond Babcock, in his 88th year; then Aunt Mary Clarke, in her 87th year; and now Aunt Harmony Ferry, in the 92d year of her age. The aggregate ages of these old soldiers of the cross amounts to nearly 446 years, and the average a little over 89 years. Among the older members of our church living, are Aunt Abby Potter, in the 96th year of her age, and Dea. John Barber, in the 84th year of his age.

But as these old soldiers of the cross fall one by one, the ranks are being filled by younger ones who have recently taken the oath of allegiance to King Immanuel, and are harnessed for the battle. Last Sabbath it was our privilege to again visit the baptismal waters to administer the ordinance to two candidates, and another is soon to follow. Thus we see the Lord has not forgotten this part of his moral vineyard. It is our prayer that many more may be added to our numbers, such as desire to be saved. Brethren pray for us.

We have had quite a severe winter in this section. Nearly 140 days of sleighing, and the snow is by no means gone yet. It has nearly gone from the roads, and a good many fields are bare enough to work, but it will be some time before all the snow is melted.

GOD HAS MADE IT ALL COME TRUE.

"Mamma, tell me what's the reason Papa's always tired now?' And the eyes looked strangely earnest 'Neath the clouded childish brow.

"How I used to run and meet him, And he'd kiss me through the gate---Say, is papa always tired? Tell me why he comes so late?

"And he pushed me off this morning; You knew I didn't want to cry, But I could not help it, mamma, 'Cause he would not kiss 'good-bye.'"

"Hush, my darling; go to sleep, dear; For mamma's very tired, too; Tell God all you want, my angel, And he'll make it all come true."

"O our Father"—and the sad child Knelt beside the mother's chair-" Make him like he used to be," Came the sobbing little prayer.

"Don't let him push baby off, God, But stoop and kiss me at the gate; Don't let mamma look so tired; Don't let papa come so late.'

In the doorway stood a figure, Haggard, worn, beyond his years; Love and grief were stirred within him, And the strong man bowed with tears.

Kneeling hy his little daughter, . Kissed her as he used to do; Bounding to his arms, she cries, God has made it all come true!"

SUGABING OFF.

BY AUNT MILLY.

"We're going, Phil! We're going, as sure as you live! It makes me fairly dizzy to think of it." Tom had come dashing on his sled, down over the crust, to the mill pond where his brother was putting on his skates. He was all out of breath, and so excited that he could scarcely speak intelligibly.

"Going where? What do you mean?" Phil replied, impatiently, tugging at his skate strap until he was red in the face. "Take hold here, Tom. I guess I'll never get this thing on tight."

The skates on, Phil cut two or three flourishes, just to show Tom how cool and indifferent he could be, even in the face of such a secret.

"Of course you don't know! How could vou?" Tom explained, as Phil, cutting a perfect 8, sat down upon Tom's sled. "I wouldn't have known, either, only for old Speckle. I was up in the hay loft, a while ago, trying to find her nest, when father and Uncle Hal came into the barn. Neither of them knew I was there, and Uncle Hal was asking father if he might take us up to Vermont with him next week. Said he'd been trying to get Flo (that's mother, you know) to go with him, but she thought she couldn't leave now; and he said the best thing for Grandmother West to see, would be Flo's boys. I felt awful mean up there a listening, and put my fingers in my ears; but somehow I heard every word they said. When they went into the house to talk it over with mother, I came down quick, I tell you, and ran off to find you." Phil forgot his assumed indifference. "Good !" he said. "Right in sugar time, too. Won't it be jolly, though ! Hurrah-ahah !" he shouted at the top of his voice. "Let's give three cheers for Uncle Hal!" suggested Tom, not wishing to be outdone by Phil.

The boys and Uncle Hal did ample justice to grandmother's good things, and Tom and Phil had their first taste of Vermont maple syrup. They enjoyed it immensely, though Uncle Hal assured them it was nothing to what they would see and taste in the sugar

A long ride over hills, across bridges, through swamps, through dense groves of spruce and pine, into open fields, to avoid the snow-drifts in the road, and the sugar camp was reached at last. Tom's idea of a camp was based upon the principle of an Indian's wigwam, so he was not prepared for the neat, framed building, with every convenience for sugar-making.

"A steamy place," Phil thought, as he entered the door; but he soon forgot the damp chilliness of the apartment, in watching the operations within. APRIL TO MAY.

BY JANE ELLIS JOY.

I am speeding away; So, my fair daughter May, The earth will soon be in your keeping. You'll find everything new And in very good form-In the air stores of dew, And the winds softly warm To coax up the crocuses, peeping.

You will find the hills green, And in valleys between Wild violets telling the story Of how I caressed them With sun-waves and shower, And fed them and dressed them— Yes, every small flower That smiles in its blue-purple glory.

And my dearest child May, If you find things delay-Like buds, which oft linger brown-coated-Do not worry or fret, But wait gently awhile; That a frown never yet Did the work of a smile Is something I often have noted.

THE BASIS OF POLITENESS.

-St. Nicholas.

Is there a grace more desirable than that which is the essence and spirit of the Golden book was so ready, was poor, with knuckles Rule-a spirit which shelters ignorance from comment, while it strives to remove it; a spirit which seeks to make every one in the circle of its influence feel that he has a friend whose heart and mind are conservatories sheltering the flowers of kindliness and sympathy?

There is always in the heart of society a tendency to shine at the expense of another's mistake or oversight, many times more ment, a package of envelopes, a dish of anfaults of confusion or shyness than igno- chovy sauce, a tame falchon, a book on rance. > His acetic, rather than ascetic, nature apparently inclined him to visit a chemical laboratory, well filled with apparatus, to which he had access, whence he often returned with globules of iodine and albumen on his caoutchouc shoes, which subjected him to the risk of his numerous altercations with his landlady, a virago and pythoness in one, and with the servant her accessory or ally.

> Roland had, however, become acclimated to his place, received everything with equability, reclined upon the divan while he contemplated the elysium where Dianna dwelt, and addressed donative distichs to her in the subsidence of the raillery.

> There was a certain diocesian who endeav ored to dispossess Roland in the affections of Dianna, but he was enervated by bronchitis, laryngitis and diphtheria, which on their subsidence left his carotid artery in an apparent lethargic condition.

> He had sent Dianna a ring set with onyr, a chalcedonic variety of stone, and once hung a placard where he knew she would see it from her casement, but she steadfastly rejected his overtures, and ogled him as if he were a dromedary.

The diocesian betook himself, to absolutory prayers, but continued his digressions and inquiries.

Roland became cognizant of this amour, and armed with a withe he inveighed against this "Gay Lothario," who defended himself with a falchion until Roland disarmed him, houghing his palfrey withal.

A CHILD'S TRUST.

BY MARIANNA FARNINGHAM.

A little blind child rested In a loving father's arms, And her face was calm and happy, For she never knew alarms; She felt the loye so strong and kind That girded her about; And she nestled to her father's heart In trust that could not doubt.

A stranger friend (whose record Of words and actions done The father knew) came in, and soon He took the little one, And bore her from her father's arms To rest in his awhile; And though they scarcely checked their talk, They smiled to see her smile.

"Now, Louie, are you frightened ?" The father asked in fun. "You do not know who has vou. And you're such a little one; A great strange man has taken you. Whose face you cannot see. Are you not very much afraid To be away from me?"

The child her blind eyes lifted, And laughing low, she said, With her face turned to her father. "I am not at all afraid: I do not know who has me But I know you know," and then As the stranger held her closely, She only laughed again.

Ah! little child, who cannot see, You are less blind than I; My head is bowed in mournful shame As I hear your wise reply. Because I do not see and know. I lose my calm repose. 0 may I rest as you have done In the thought, my Father knows !

THE OLD HIGHLANDER.

Near one of our large cities there is a small asylum for aged blind men. It is a quiet, airy house, and stands inside of an orchard and old-fashioned garden. Under the trees and in the shaded alleys you may see the gray old pensioners sitting together, telling the same stories for the thousandth time, feeding the poultry, playing with the jani-tor's little child. They have found rest and friendly quiet, in which to wait until death, that silent, kindest friend of all, comes to lead them home. Among these old men was one Sandy McFarquhar, an old fifer who had belonged to a Highland regiment, and had | travel. strayed in his old age to this country to join his son. said : "You will find the truth which I have mentioned often repeated in the Bible."

"But I have no Bible," she replied. He quickly handed her his own, saying : "I have pleasure in giving you mine." Sometime after this, the high Catholic dignitary, remembering the advice he had given this lady, sent a priest to inquire about the state of her mind. Instead of needing his help, he soon found that she was able to direct him in the way of life. Before leaving, she gave him the Bible that had been given her at Exeter Hall, and begged him to read it with prayer, and to trust in him who "bore our sins in his own body on the tree."

Sometime after she received a note from the priest, asking her to call upon him. As she was about to take her son to Eton College, she did not accept the invitation at the time.

When she called, some weeks after, she was shown into a room where there was a coffin, and in it the body of the priest. Beside it a nun kneeling in prayer. The lady approached, and asked: "Did he leave a message for me?" "Yes," was the reply. "He wished me

The poor lady turned away, greatly distressed, saying to herself : "If I had gone to his bedside when he sent for me, I might parchment surface is unbroken, and the bees have pointed him to Christ, and he might simply laid upon it, but two magnets, conhave been saved through faith in him; but now, alas ! it is too late. Hopular Science.

SHOE-PEGS require 100,000 cords of timber annually in their manufacture; matches, 300,000; lasts and boot trees, 500,000. All this is of the most superior quality, straight-grained and clear of knots and gnarls. To raise the telegraph poles of the country re-quired 800,000 trees, and 300,000 more are required for annual repair. The railway ties of the country annually consume 75,000 acres of timber at least thirty years old, and the fencing of railways represents \$45,000,000, fencing of railways represents \$45,000,000, and the annual repair \$15,000,000. V. 8. And they shall eat the flesh in that night, roast with fire, and unleavened bread : and with bitter herbs they shall eat it. Having made the sacrifice and offered it unto the Lord, and having declared this fact by sprinkling the blood upon the dcorposts, they were now prepared in their hearts to partake of this sacrifice, so to speak, with the Lord, thus expressing their full communion with the Lord in this night of his visitation. The flesh is to be roast with fire, a symbol of purity. They are also to partake of unleavened bread, which is also a symbol of purity. They were to partake of this meal of roast flesh and unleavened'bread, with bitter herbs, which would remind them of the bitterness of the bondage which they were now to es-

INTRODUCTION.

Having considered the call of Moses to the leadership of Israel, in the last lesson, we now come to consider the great festival divinely instituted on the eve of their departure from Egypt. The interval between the two lessons is probably at least a year and a half, and is filled up with mighty deeds wrought through Moses, designed to make Pharaoh willing to let the Israelites go out of Egypt. After Moses's call, taking his family with him, he immediately goes to Egypt, the scene of action. He at once makes an appeal to Pharaoh in behalf of the Israelites. He at first asks that they may be permitted to go into the wilderness to worship. This appeal results simply in greater hardships for the Hebrews, who are now compelled, not only to make brick as before, but to find the straw or stubble for brick making. This turn of affairs was followed by severe plagues visited on the Egyptians from the God. Lord. They came in rapid succession, ten in number, each more severe than the former. These plagues had the effect to harden Pharaoh's heart until the last plague came, when his will was finally broken. The character of the plagues was such as to show the utter weakness of the gods of Egypt; hence they became a very emphatic revelation of the true God in contrast to the false gods of Egypt, Finally, the last plague was announced to the Egyptians, in which the first-born in every home in Egypt was to die in a single night, "from the firstborn of Pharaoh that sitteth upon his throne, even unto the first-born of the maid-servant that is be hind the mill; and all the first-born of cattle." At this point, the lesson of to-day opens with the Lord's directions for the guarding of the homes of the Hebrews against a share in the plague he was to send upon Egypt.

EXPLANATORY NOTES.

V. 1. And the Lord spake unto Moses and Aaron in the land of Egypt. Everything now was in readi ness for this solemn event. Moses and Aaron were the organs of God's revelation through whom his communications were made to the people.

V. 2. This month shall be unto you the beginning of months. It was to mark the beginning of the dis tinct nationality and theocratic government of the people of Israel; hence it was fitting that it should be made the beginning of a new calendar.

V. 3. Speak ye unto all the congregation of Israel. It was very important that the communication about to be made should reach every family of the He.

burn with fire. In order to preserve the holy flesh from profanation or decay.

V. 11. This verse describes minutely the attitude and the particular personal conditions of those who partake of the meal. It is the Lord's passover. That is, it is ordained by him, observed in obedience to him, a service sacred to him.

V. 12. Simultaneous with this act of eating the Passover feast, the most fearful judgment was visited upon every household of the Egyptians. God was vindicating himself in righteousness against all the god's of Egypt. Every family of Israel was

preserved from the greatest calamity by virtue of their trust in the offering required at their hands; while every family of the Egyptians who would not trust in Jehovah were compelled to give up the first born child. Such a contrast between glorious deliverance on the one hand, and such fearful visitation on the other hand, was calculated to give the deepest impression of the supremacy of the true God over all the gods of Egypt.

V. 13. Here the blood on the door-posts is spoken of as a token, a sign, a declaration of the character of those who dwell within.

V. 14. And this day shall be unto you for a memorial; and ye shall keep it a feast to the Lord through. out your generations. Thus a memorial was established full of divine significance, which is to be held in remembrance on account of that significance throughout all the generations of the people of

MEMORIAL.

WHEREAS, our dear brother, O. S. Mills, fellowmember of the theological class of Alfred University, has been called upon to sit under the shadow of a great sorrow, as he mourns the early death of his ever loving and tenderly loved companion; there-

We, the teachers and students of the theological class, most deeply sympathize with our dear broth-er, and fellow-worker, in this his deep affliction, and great bereavement. Most cheerfully do we bear witness to her womanly excellence, her Christian fortitude and faithfulness, and to that warm-hearted friendliness by which she so much won the hearts of all who knew her. Most affectionately do we commend our afflicted brother to the compassionate Heavenly Father, without whose notice "not a sparrow shall fall on the ground," and by whom the very hairs of your head are all numbered.' May he so rest in the arms of Infinite Love as to realize every day that "all things work together for good to them that love God," and that

" Deepest griefs and wildest fears - Have holiest ministries.' In behalf of the class,

WILLIAM BAILEY GREENE was born in the town of Pinckney, N. Y., Jan. 20, 1815, and died in the town of Hounsfield, N. Y., April 28, 1887. He was the oldest son, though not the oldest child, of the late Eld. Wm. Greene. Only two of Eld. Greene's family of ten children now remain on earth. Bailey Greene, the name by which he was generally called, was a genial, pleasant man, highly esteemed as a neighbor and a citizen. In his youth he had some religious experience, but did not make a public profession of religion at that time, Some over a year ago be identified himself with God's people by a public profession of faith in Christ. During the few weeks of failing health which preceded his death, he expressed himself as trusting Christ for salvation, and as being in submission to God's will, whether he lived or died. His wife, Elvira Benja min, with whom he lived happily for nearly half a century, survives him. Three children-two daugh ters and a son-are also left to mourn. All pay this tribute to his memory, that he was a kind husband and father, a true friend, an upright business man, and a Christian. His funeral was held at the church at Adams Centre, Sabbath, April 30th. Sermon from Psalm 17: 15. A. B. P. In Richmond, R. I., April 19, 1887, of bronchial consumption. CANDACE A. AMMONS, daughter of oseph and Fannie Ammons, aged 40 years and 8 days. For a number of years she was of the household of Nathan Babcock, of Westerly, and endeared herself to the family by her faithfulness and pleasant disposition. Becoming a victim of disease she went home to die. In the spring of 1879, during a revival effort under Pastor Platts, assisted by Dr. A. H Lewis, she sought and found Christ, put him on by baptism, and joined the Pawcatuck Church of which she was a devoted member at her death. Candace was a very earnest and humble Christian.
