FAITH AND WORKS. [Concluded.]

Having thus briefly examined the subject moves with a power almost omnipotent. one wishes any thing at the hands of the two thousand years we made religion to woman and I hope we have made our peace of faith and works, I proceed more minutely | With one hand she lays hold of the throne | priests, or any thing priestly. to examine the teachings of the Apostle of God; with the other, she draws up hu-James, to see whether any discrepancy ex- manity to that lofty seat, and by beholding ists between him and his brother Paul. Paul declares that Abraham was justified subjects into the same image. May such tice. The weakness, the faults even of the sacred. The French, in this fratricidal war, came alarmed. 'I have cast simple interest by his faith, and James asks if he was not faith be ours. justified by works, and mentions the offering

up of Isaac as the justifying act. James also refers to Rahab's reception of the messengers as an act securing justification. Now, it must not be forgotten, that one of the particular acts of faith connected with Abraham's justification, was crediting the prophe. tic declaration relative to the future birth of Isaac: "He believed God, and it was counted unto him for righteouspess." This act of faith, whereby he was justified, was long before the work of justification mentioned by James-probably not less than thirtysix years. Therefore he was justified by the issue of this lamentable conflict. Some faith; this cannot be denied. And I understand James to refer to the act of offering the people will be led in their rage to mur-Isaac, as a declarative justification. Abra- der the priests and recluses. In such a case,

ham's willingness to return his son to that God who gave him, justified of proved his faith. Thus his faith was made perfect, act or work. His faith wrought his work, was causative of it. He showed his faith by his requsition, would have been evidence of his able. unbelief. The same exposition may be given respecting Rahab. Thus I consider that perfect harmony exists between these two Apos-

Says Beza :---

without sense or motion is dead.

increase the power of faith.

Sense and motionsbeing the effect of life,

can never be its primeval cause, although

after life exists, they may by their action in-

crease its activity. So works, being the ef-

fect of faith, can never be its original cause,

although they may by their action, in the per-

ception and investigation of evidence, or in

giving babit by their demonstrable produc-

tion of what faith has already caused, much

Not only is the doctrine of justification by

faith theologically true, but it is equally so |

man is a sinner. Now no after life of holi-

ness can justify the sinner for his former

acts of sin. For, however holy one may be,

sin, and as one can never do more than pre-

however good, or however many their num-

ber, can only justify the present moment, and

can never justify the past. Mercy, in the

man the fact that God will pardon, and the

gloom of midnight settles upon our race.

Till God in human flesh I see,

My thoughts no comfort find :

S. S. GRISWOLD. HOPKINTON, R. I., July 26, 1849. The following letter from Father Ventura.

the voice of the Almighty; as the subject of

of the prophetic comments of the European press upon Roman affairs :---

EFFECT OF THE BOMBARDMENT OF ROME UPON RÓMAN CATHOLICISM.

It is with fearful and bleeding heart that now address you. Even as I write the French are bombarding Rome, destroying its monufear that if the French enter Rome by assault what a glorious victory would the French obtain! What a fine restoration of Papal Sovereignty would she effect ! History teaches us, that in general, restorations efcomplete, and demonstrated to all. It was fected by force are not durable, and that Abraham's faith that produced this justifying thrones raised upon dead bodies and blood are fated to be overthrown by yet more viothe restoration of the Pope discussed at works. His refusal to comply with the divine Gaeta, they have chosen the most deplor-

> But what most distresses the heart of every Catholic is that this restoration, supposing it to be effected, without firmly establishing the power of the Prince, will wound and-

God, and receives her mandate from Jeho- you may well conclude that the people have guardian of the liberty of the people, and you are not bound to pay this note; we canvah. As the legate of Heaven, she enunciates abjured the churches. They will neither the guarantee of their happiness. Those not recover the amount.' 'Sir,' said the old confess, nor communicate, nor assist at mass, best arguments, those must in vogue to-day, man, 'I wish to pay it. It is the only heavy American Missionary in Syria, described a nor hear the word of God. One cannot now those which are alone relished by the peo- debt I have in the world. It may be outthe King of kings and Lord of lords, she preach at Rome for want of hearers. No ple, the arguments of facts, by which for lawed here, but I have no child, and my old

he Sabbath

ple comprehend this ? Can the people rise plate through long ages. to, and abide by these theological distinctions? Alas! To the minds of the people a Roman Catholic priest, is worth volumes the crimes and cruelties of the man are the crimes and cruelties of the priest ; the faults of the king are the faults of the Pope; the infamies of politics, the effects of the doctrines of religion.

My friends endeavor to conceal from me what is said and done in this deplorable scene at Rome. They would spare me the grief which such things must necessarily cause me. But in spite of their care, I learn ments, raking its people with grapeshot; that the whole youth of Rome, and all men blood flows freely on every side; ruins are of intelligence, reason thus :-- " The Pope means to reign over us by force. He claims for the church, that is, for the priests, the sovereignity which belongs only to the people, and he believes, he says, indeed, that it is his duty to act thus, because we are Catholics and because Rome is the centre of Catholicism. Very well: what is to hinder us, then, from becoming Protestants if necessary, and then what political right can he have over us ? For is it not horrible to think of, that because we are Catholics, and sons of the church, we must be mastered by the lent convulsions. Of all the expedients for church, abjure our rights, receive from the liberality of the priests as a concession, what is due in justice, and be condemned to the lot of the most miserable of people ?"

I find these sentiments have become more common than is generally supposed; they have penetrated even into the hearts of the tles. And, farther, I understand them to perhaps destroy the authority of the Pontiff. women. Thus twenty years of Apostolic

triumph over the most rebellious minds, and with God, and wish to do so with man. To me Pius 1X. is still and ever the Vicar the hardest hearts, those arguments are for- should like to pay it,' and he laid his bank of Jesus Christ ; the head of the visible ever taken from us. Our ministers will be- notes before my brother, requesting him to some violent political or commercial revoluchurch ; the master, the teacher, the infalli- come sterile, and we shall be hooted and de- count them over. 'I cannot take this tion. The renowned city of Damascus yet the glory of the Lord, she transforms her ble interpreter of the rule of faith and prac- spised where we are not pursued and mas- money,' said my brother. But can the peo- pages which humanity and religion must ex- old man. 'I will pay hid states bund inter-

PARTING WORDS.

WRITTEN BY MRS. SIGOURNEY. " Praise God when I am gone." I saw a dying maiden, As on her couch she lay, Spring's early flowers beside her, And the birds upon the spray— The birds, whose warbled melodies Fell richly on her ear, Prelusive of that angel choir She was so soon to hear.

The joys of youth were round her, Love made her pathway fair; And hope, from cold reality. Had felt no blight of care. Yet from each fond allurement, She calmly turned away, And spoke of praise, to those who mourn' Her premature decay.

List! list! her pale lip moveth, Bow down to catch its tone, Faint as the breeze that stirs the flowers. " Praise God when I am gone." Yea, praise Him for her spotless life, In meek submission blest, And for the beauty of its close, So like a cradle-rest.

And though the wintry hearth-stone, The vine-encircled door, And all the cherished haunts of home Must know her never more: Yet, as a sacred signet-ring, Grave ye that parting tone Deep on the tablet of the soul-Praise God when I am gone.'

PAYING AN OLD DEBT abor which I have endured, to attach the Roman people to the church, are sacrificed A merchant, very extensively engaged in in a few days ! and told me not to worry about it.' My brother then set the whole matter plainly before him, and, taking the bank bills, returned them to the old man's pocketbook, telling him that, although our father left no formal will, he had recommended to his children to destroy certain notes, due-bills, and other evidences of debt, and release those who might be legally bound to pay them. For a moment the worthy old man appeared to be stupefied. After he had collected himself, and wiped a few tears from his eyes, he stated that, from the time he had heard of our father's death, he had raked and scraped, and pinched and spared. to get the money together, for the payment of this debt. 'About ten days ago,' said he 'I had made up the sum within twenty dol lars. My wife knew how much the payment of this debt lay upon my spirits, and advised me to sell a cow, and make up the difference and get the heavy burthen off my spirits. did so-and now what will my old woma say ! I must get back to the Cape and tel her this good news. She'll probably say over the very words she said when she put her hand on my shoulder as we parted-' I have

never seen the righteous man forsaken nor his seed begging bread.' After hearty shake of the hand, and a blessing upon our old father's memory, he went upon his way rejoicing.

After a short silence-taking his and making a cast-' There,' said my brother, 'your part of the amount would be so much-contrive a plan to convey to me your share of the pleasure, derived from this operation, and the money is at your service.' Such is the simple tale, which I have told as it was told to me. [Evening Transcript.]

MAGNIFICENT BUINS OF APAMIA. In a recent publication,' Mr. Thompson,

ruined city not mentioned by any other traveler. Syria has been the seat of many different nations, which have in turn built great cities, which have again been destroyed in remains undestroyed, the oldest city in the world. All the others are in ruins. Mr. Thompson was proceeding from Alepporto est if you say so. That fir ught to have Mount Lebanon, when he explored the mag-

"Started at sunset for Apamia, and in five hours reached Kulat Seijer, where I left my tent, and rested two hours. Crossing the Orontes, and riding rapidly for three and a half hours, I reached the ruins just as the sun rose. These remains are more dilapidated than those of El Bara, but are more grand and classic. The walls of the city are in most places gone, and the houses are all prostrate. At the north-west corner, however, there is an excellent specimen of the wall standing, and portions of the houses are to be seen in many places. The north gate is almost perfect, but it is choked up by an incredible mass of hewn stones which belonged to the adjacent towers. The grand avenue extends from this to the south gate. in a direct line, more than a mile long. The avenue is one hundred and twenty-three feet wide, and throughout its entire length it was lined by a row-of columns on either side. The columns are of the Corinthian order and very beautiful. The shaft is twenty-two feet and the cornice three feet four inches, making the whole height about thirty feet. They stood only six and a half feet, and are stretched from gate to gate, one of the longest and most august colonnades in the world. Including the recesses, of which there were several, the whole number of columns must have been eighteen hundred. Between the colonnades and the houses, were side-walks twenty-four feet wide; the diameter of the columns was three feet, and the centre was sixty-nine feet wide. The streets appeared to cross at right an. gles and at regular intervals. There were colonnades and numerous groups of columns in different places, which point out the sites of churches, temples, palaces, markets, and other public edifices. About the middle of the grand avenue is a statue of Bacchus, in front of the building on the east side of the The late Sir T. F. Buxton had great faith street. It has been intentionally defaced. but the right hand holds a wand, and the left still grasps a vine, whose luxuriant leaves and clusters are woven into a canopy to shield his head from the burning sun. Near this the columns are peculiar, having at the base a conflute with a souare rih between the nutes, while the upper new is a bold, straight, concave flute. Some distance farther on is a large column in the centre of the avenue; but the details of the wonderful avenue are too complicated for my pen or One wanders from square to square, amazed at the amount and variety of the architecture, until the bewildered mind ceases to note particulars. The gates (if the northern one is an example) were truly magnificent. With difficulty I climbed to the top, over a prodigious accumulation of ruins; from this station obtained a perfect view of the ground plot of this once splendid city. It is now an utter ruin-not one house has been spared. The Lord hath stretched over it the line of Samaria, and the plummet of Ahab, and hath wiped it as a man wipeth a dish, turning it upside down."

CBEATION AND BEDEMPTION.

Those who wish to justify their disregard advocates of Sunday say to unbelievers, as of the Bible Sabbath, and their observance well as to believers, " This is the Lord's day ; of the first day of the week instead, are apt let us rejoice and be glad in it." We think to dwell, with a good deal of earnestness, unbelievers would better wait until they upon the comparative magnitude of the work have some good reason to rejoice and be of redemption with that of creation. Re. glad. demption is, in their opinion, a far greater work than creation, and therefore more worthy to be commemorated by a Sabbath of rest. It is, of course, always taken for However true this may be with regard to granted in this argument, that the work of redemption was finished on the first day of the week by the resurrection of Christ.

It is most surprising, that an argument They are a thousand times more enraptured which has been confuted a thousand times, will yet be brought up, again and again, as though it were unanswerable. It must be, we think, that our opponents do not trouble cited, and And this in the contemplation beside. As far as regards the Turkish themselves to notice what is said against of God as the Ureator, than they ever do in Government, these newspapers are as free them. Why, then, should we say any thing the contemplation of the Redeemer. Yet in the expression of their opinions as is any Presbytery. In 1845, the Bench of Chanmore ? It is indeed most discouraging. the unrenewed are earnestly exhorted to Nevertheless, we shall continue to speak, keep the first day of the week holy, and that for to this work God has called us. This argument, though it is made up of a series of unfounded assumptions, is urged by our opponents with as much assurance as if every devout Christian ! line of it were demonstration. We say, it is made up of assumptions. Not one proposition is there in it, from beginning to end, all minds than the work of creation, it would that is not an unauthorized assumption, if we except the naked historical fact, that Christ rose from the dead on the first day of the week.

Will those who maintain that redemption is a far greater work than creation, be so good as to inform us just what they mean by the proposition ?

1. Do they mean that it is greater in extent? This can not be; for redemption is accomplished upon created objects only And, according to the good Book, vast numbers will fail of being redeemed at all "Wide is the gate, and broad is the way, which leadeth to destruction; and many there be which go in thereat." Matt. 7:13. But even if the doctrine of Universalism FREE PRESS IN TURKEY.

INVASION OF CUBA

The Washington Republic says that information has been for some time in possession of the Government, to the effect, that bodies of men were in course of being levied and drilled in New Orleans, New York, and other cities of the Union; that money to a considerable amount has been contributed; that arms have been provided and arrangements made on a large scale with a view to some military expedition. Their movements have been conducted with great secresy, and the object of the enterprise has been concealed even from the individuals who have embarked in it. ;. Sufficient evidence, however, has been obtained, to satisfy the President that the design of the expedition is an invasion of Cuba, and that the intervention of the Executive was necessary to preserve our neutral obligations, and to keep unsullied the honor of the American people. Accordingly, he has issued the following

Proclamation.

There is reason to believe that an armed expedition is about to be fitted out in the United States with an intention to invade the Island of Cuba, or some of the provinces of Mexico; the best information which the Executive has been able to obtain points to the sident of that Conference, in concurrence Island of Cuba as the object of this expewith a special committee has issued a call dition. It is the duty of the Government to observe the faith of treaties, and to prevent any aggression by our citizens upon the territories of friendly nations.

I have therefore thought it necessary and proper to issue this proclamation to warn all citizens of the United States who shall connect themselves with an enterprise so grossly in violation of our treaty obligations, that they will thereby subject themselves to the heavy penalty denounced against them by 4. How is the Christian Church to judge our acts of Congress, and will forfeit their claims to the protection of their country. No such persons must expect the interference of this Government in any form in their behalf, no matter to what extremities they may be reduced in consequence of their conduct.

An enterprise to invade the territories of friendly nation, set on foot and prosecuted within the limits of the United States, is in the highest degree criminal, as tending to endanger the peace, and compromise the honor of this nation, and therefore I expect all good citizens, as they regard our national reputation, as they respect their own laws, ported 19 Synods, 70 Presbyteries, 4 weekly ton papers, in alluding to the circumstance, and the laws of nations, as they value the blessings of peace and the welfare of their country, to discourage and prevent, by all lawful means, any such enterprise, and I call upon every officer of this Government; civil or military, to use all efforts in his power to arrest for trial and punishment, every such offender against the laws providing for the performance of our sacred obligations to friendly powers.

with the Charleston Union Presbytery, is entitled to the funds." CUMBERLAND PRESBYTERIANS.—This body of people, says the Independent, arose in Kentucky, after the great revivals in the they had 46 ordained ministers, and that ministers had increased to 114, and 4,000 nac will perhaps be also discussed."

conversions were reckoned. In 1829 they formed a General Assembly. In 1834, they had 9 Synods, 39 Presbyteries, 300 ministers, 50,000 members. The members doubled in the following 10 years. At their Ge-

lution of withdrawal has cured the difficulty and "that the church, being in connection

should prove true, it can be no more extensive than creation.

2. Do they mean, that it required a greater than to create the world? How often has that figment of a poet's brain,----

"'T were great to speak a world from naught, 'T were greater to redeem ;"-

been quoted in this connection. It is evident that the power which redeems mankind is nothing less than infinite. It is equally evident, that the power which created the world was infinite. . If both were infinite, and nothing short of infinite, is it not folly to --- +Lon the other ?

"Aye," says the objector, " but when God redeemed the world, it cost the blood of his only-begotten Son; but when he created the universe, he merely 'spake and it was done." But this argument-if argument it may be called-amounts only to this, that in the work of redemption there was, besides the exertion of divine power, the intervention of human sufferings. It does not prove that the divine power displayed was any greater than that which was displayed in the work of creation. We say, that there was the intervention of human sufferings; for it is generally conceded that the divine nature did not suffer. Now, if the divine nature did not suffer, it is quite out of place to urge the sufferings of Christ as evidence that there was a greater exertion of divine power in the work of redemption, than in the work of creation. As for the power requisite to sus tain the humanity of Christ under his sufferings, no one can suppose it to have been greater than what was requisite to create the world; nor can any one reasonably suppose that "his mighty power, which he wrought in Christ, when he raised him from the dead," was any more mighty than that which "spoke a world from naught."

. 3. Do they mean, that the final results of redemption will be greater, and more to the glory of God, than the work of creation ? But who can tell whether they will be or not ? Is this the only world of intelligent beings that God ever brought into existence ? Who can estimate the amount of glory which will accrue to God from his creatures at last, when they shall all be gathered from all parts of the universe before him ? But even admitting that the final results of redemption will be more to God's glory than the work ----ation, is it any reason for instituting a before those results are accomfrom moral sickness to spiritual health. The ple :---

DeRuyter Institute,

The First, commencing August 29, of 14 weeks. The Second, "December 5, of 15." The Second, March 20, of 14 # The Third,

Encouraged by the success of the School under its present Instructors, the friends of the Institute have made liberal additions to its library, cabinet: and ap paratus, thus furnishing ample facilities for illustrating branches taught in the various departments.

The Literary Department is as heretofore under the supervision of Rev. JAMES B. IRISH, A. M., Pre sident, assisted by other able instructors. In this De UTILITY OF NETTLES.—The Medical Times partment, especial attention is given to the lower Eng-ays it is a singular fact, that steel dinned in lish Branches. Students are also fitted in the Classics to enter the advanced classes in College.

The Department of Natural Science is conducted by Professor GURDON EVAN ... In this, Natural Philos istry, are taught in a manner of unsurpassed interest With it is connected the Department of Agricultural Science.

The Farmer's Course is thoroughly scientific; en bracing the study of the best authors, with daily recit will be spent in the Analytical Laboratory, where students will be instructed in the constitution of soils and ashes of plants, with a minute examination of their constituent elements, and the various modes of testing for their presence.

A course of lectures is given during the Term on Practical Farming, explaining the relation of Geology to Agriculture, the Soil, the Plant, and the Animal, and their various relations, the Rotation of Crops, Feeding Animals, Manures, Draining Lands, &c., &c. For fur ther information see Catalogue.

Besides Globes, Maps, &c., for the illustration of Astronomy, a Newtonian Telescope of high magnifying power has recently been added to the apparatus.

During the Summer Term, Botany and Geology receive special attention, illustrated by excursions to localities where these sciences may be studied as seen. in nature. A Geological and Mineralogical Cabinet is accessible to the students.

The Mathematical Department is under the instruction of OLIVER B. IRISH, Tutor. It embraces thorough instruction in Arithmetic, and the higher pure and practical Mathematics, with field exercises

in Engineering and Surveying. Elocution, embracing Reading, Declamation, Gen eral Oratory, and Writing, receives the special atten tion of a competent teacher.

The Teacher's Department will, as formerly, be in operation during the Fall Term, and last half of the water, though freely applied, did not extin- Winter Term. Particular attention to this is solicited from all who intend to teach district schools.

The Female Department is under the care of Miss SUSANNA M. COON, agraduate of Troy Female Sem very little, if any, trace on the ground of the inary, a lady every way competent for this responsible station.

No efforts will be spared to render the young ladies of this Seminary truly accomplished, as well in the so cial relations of life, as in the substantial branches of learning and the higher refinements of education. Ample facilities are furnished for pursuing French, Italian, German, Drawing, Painting, Music on the

ple comprehend this ? Can the people rise plate through long ages.

to, and abide by these theological distinctions? Alas! To the minds of the people the crimes and cruelties of the man are the crimes and cruelties of the priest ; the faults of the king are the faults of the Pope; the infamies of politics, the effects of the doctrines of religion.

Sabbath

My friends endeavor to conceal from me what is said and done in this deplorable scene at Rome. They would spare me the grief which such things must necessarily cause me. But in spite of their care, I learn that the whole youth of Rome, and all men of intelligence, reason thus :-- " The Pope means to reign over us by force. He claims for the church, that is, for the priests, the sovereignity which belongs only to the people, and he believes, he says, indeed, that it is his duty to act thus, because we are Catholics, and because Rome is the centre of Catholicism. Very well: what is to hinder us, then, from becoming Protestants if neces sary, and then what political right can he have over us ? For is it not horrible to think of, that because we are Catholics, and sons of the church, we must be mastered by the church, abjure our rights, receive from the liberality of the priests as a concession, what is due in justice, and be condemned to the lot of the most miserable of people ?"

'Grave ye that parting tone Deep on the tablet of the soul-I find these sentiments have become more common than is generally supposed; they Praise God when I am gone." have penetrated even into the hearts of the women. MAGNIFICENT BUINS OF APARIA.

In a recent publication. Mr. Thompson. American Missionary in Syria, described a ruined city not mentioned by any other traveler. Syria has been the.seat of many different nations, which have in turn built great cities, which have again been destroyed in some violent political or commercial revolution. The renowned city of Damascus yet remains undestroyed, the oldest city in the world. All the others are in ruins. Mr. Thompson was proceeding from Aleppo to Mount Lebanon, when he explored the mag-

est if you say so. The debt ought to have nificent ruins of Apamia. He says :--been paid long ago, but your father, sir, was very indulgent-he knew I'd been unlucky, "Started at sunset for Apamia, and in five

hours reached Kulat Seijer, where I left my My brother then set the whole matte tent, and rested two hours. Crossing the plainly before him, and, taking the bank Orontes, and riding rapidly for three and a bills, returned them to the old man's pocket half hours, I reached the ruins just as the book, telling him that, although our father sun rose. These remains are more dilapidleft no formal will, he had recommended to ated than those of El Bara, but are more his children to destroy certain notes, due-bills grand and classic. The walls of the city are and other evidences of debt, and release in most places gone, and the houses are all those who might be legally bound to pay prostrate. At the north-west corner, howthem. For a moment the worthy old man ever, there is an excellent specimen of the appeared to be stupefied. After he had wall standing, and portions of the houses are collected himself, and wiped a few tear to be seen in many places. The north gate from his eyes, he stated that, from the time is almost perfect, but it is choked up by an he had heard of our father's death, he had incredible mass of hewn stones which beraked and scraped, and pinched and spared longed to the adjacent towers. The grand to get the money together, for the paymen avenue extends from this to the south gate, of this debt. 'About ten days ago,' said he n a direct line, more than a mile long. The I had made up the sum within twenty dolavenue is one hundred and twenty-three feet lars. My wife knew how much the payment wide, and throughout its entire length it was of this debt lay upon my spirits, and advised lined by a row of columns on either side. The me to sell a cow, and make up the difference columns are of the Corinthian order and and get the heavy burthen off my spirits. very beautiful. The shaft is twenty-two feet did so-and now what will my old woman and the cornice three feet four inches, making the whole-height about thirty feet. They say! I must get back to the Cape and tell her this good news. Shell probably say over stood only six and a half feet, and are/stretchthe very words she said when she put her ed from gate to gate, one of the longest and hand on my shoulder as we parted-' I hav most august colonnades in the world. Includnever seen the righteous man forsaken nor hi ing the recesses, of which there were several. seed begging bread.' After a hearty shake o the whole number of columns must have been the hand, and a blessing upon our old eighteen hundred. Between the colonnades father's memory, he went upon his way and the houses, were side-walks twenty-four feet wide; the diameter of the columns was After a short silence taking his pencil three feet, and the centre was sixty-nine feet wide. The streets appeared to cross at right angles and at regular intervals. There were colonnades and numerous groups of columns in different places, which point out the sites of churches, temples, palaces, markets, and other public edifices. About the middle of the grand avenue is a statue of Bacchus, in front of the building on the east side of the street. It has been intentionally defaced. but the right hand holds a wand, and the left still grasps a vine, whose luxuriant leaves and clusters are woven into a canopy to shield his head from the surning sum atom this the columns are peculiar; having at the base a conflute with a square rib between the flutes, while the upper half is a bold. straight, concave, flute. Some distance farther on is a large column in the centre of the avenue; but the details of the wonderful avenue are too complicated for my pen or page. One wanders from square to square, amaz ed at the amount and variety of the architecture, until the bewildered mind ceases to note particulars. The gates (if the northern one is an example) were truly magnificent. With difficulty I climbed to the top, over a prodigious accumulation of ruins; from this stat tion obtained a perfect view of the ground plot of this once splendid city. It is now an utter ruin-not one house has been spared. The Lord hath stretched over it the line of Samaria, and the plummet of Ahab, and hath wiped it as a man wipeth a dish, turning it upside down."

work the consequent; faith the cause, work the effect. For, adds James, "as the body without the spirit is dead, so faith with- suoi figli" have produced upon the Roman out works is dead also."

increase the power of faith.

Says Beza :---

"It is one thing to say, The faith which has awakened against the church, even is without works is dead, and another to say against the Catholic religion. As most of that faith is dead without works, as if faith the bombs have fallen in the suburbs, ruinderived its life and power from works, which | ing the houses and wounding the families of is not less absurd than if one should say, that the poor people, it is particularly those of the body is dead without sense and motion, as the suburbs, that portion of the Roman peoif sense and motion were the cause of life; ple formerly the most devotedly Catholic, when we should say, that the body which is who now curse the Pope and the clergy, in without sense or motion is dead.' whose name they see these horrors commit-

ted. Sense and motion being the effect of life, I am far from believing that Pius IX. wish can never be its primeval cause, although, after life exists, they may by their action increase its activity. So works, being the efisolation, that the truth in these matters cannot reach him; everything is perverted befect of faith, can never be its original cause, fore he receives it. I know that the poor although they may by their action, in the perception and investigation of evidence, or in giving habit by their demonstrable production of what faith has already caused, much little master of himself. I know that they take advantage of the feebleness of his character, of the tenderness of his conscience, of Not only is the doctrine of justification by his state of nervous excitement, which sub-

faith theologically true, but it is equally so philosophically. The doctrine of justificasions his courtiers please. But what I know and believe, the Roman tion by faith takes for granted the fact that people do not know nor believe. The peoman is a sinner. Now no after life of holiple know only what they see and suffer. ness can justify the sinner for his former They see that the Austrains, with a prelate acts of sin. For, however holy one may be, of the Pope, Monsignor Benini, in the midst of them, ravage the Legations, bombard he can never perform more than present cities, levy enormous contributions upon the duty-no work of supererogation. Therefore, as justification includes pardon of past sin, and as one can never do more than prewhere clerical tyranny. They see that the Pope has launched against the Roman State. sent duty, it follows of necessity that works, as against some wild beast, four great powhowever good, or however many their numers, armed with all means of destruction ; ber, can only justify the present moment, and and they will listen to nothing; they rise can never justify the past. Mercy, in the form of forgiveness, can only pardon or justify the ungodly. Nor can even repentance, by which the Pope declares it his duty to rehowever deep, atone for, or justify past conquer forcibly his temporal power. Mr.

The holy, just, and sacred Three Are terrors to my mind. But if Immanuel's face appear, My hope, my joy begin; His name forbids my slavist fear, His grace removes my sin.

and told me not to worry about it.'

SELF-TRAINING.

The late Sir T. F. Buxton had great faith n the self-training power of men. He thus expresses himself:-

"I am very sure that a young man may b very much what he pleases. In my own case it was so. I left school, where I had learnt little or nothing, at about the age of that the prospect of going to College opened upon me. I made my resolutions, and I acted up to

> never read a novel or a newspaper-I gave up shooting. During the five years I was in Ireland, I had the liberty of going when pleased to a capital shooting place. never went but twice. In short, I considered every hour as precious, and I made every thing bend to my determination not to b behind any of my companions; and thus pleasure and idleness, reading only books of unprofitable entertainment; I became speedily a youth of steady habits of application, and irresistible resolution. I soon gained the ground I had lost, and found those things

which were difficult and almost impossible to my idleness, easy enough to my industry; and much of my happiness and all of my prosperity in life have resulted from the and to act upon that determination.'

A reviewer adds :---

thing short of assiduous and long-continued labors, issuing in absolute failure, that he is

COUNSEL TO BOYS.

Be brisk, energetic, and prompt. The world is full of boys, and men too, who drawl through life, and never decide on any change I made at your age. It all rests thing for themselves, but just draggle one with yourself. If you seriously resolve to leg after the other, and let things take their be energetic and industrious, depend upon own way. Such people are the dull stuff of it you will, for your whole life, have reason the earth. They hardly deserve as much to rejoice that you were wise enough to form credit as the wooden trees, for the trees do all they can, in merely growing, and bearing only leaves and seeds. But these poor, " No man ought to be convinced by any drawling, dragging boys, do not turn their capacities to profit half as far as they might be turned; they are unprofitable, like a

CREATION AND REDEMPTION

Those who wish to justify their disregard advocates of Sunday say to unbelievers, and of redemption with that of creation. Re- glad. demption is, in their opinion, a far greater

the week by the resurrection of Christ. It is most surprising, that an argument which has been confuted a thousand times, though it were unanswerable. It must be, we think, that our opponents do not trouble themselves to notice what is said against more ? It is indeed most discouraging. Nevertheless, we shall continue to speak, for to this work God has called us. This argument, though it is made up of a series of unfounded assumptions, is urged by our opponents with as much assurance as if every line of it were demonstration. We say, it is made up of assumptions. Not one proposition is there in it, from beginning to end, that is not an unauthorized assumption, if we except the naked historical fact, that Christ rose from the dead on the first day of the week.

Will those who maintain that redemption is a far greater work than creation, be so good as to inform us just what they mean/by the proposition ?

1. Do they mean that it is greater in extent? This can not be; for redemption in accomplished upon created objects only And, according to the good Book, vast numbers will fail of being redeemed at all "Wide is the gate, and broad is the way which leadeth to destruction; and many there be which go in thereat." Matt. 7 : # But even if the doctrine of Universalism should prove true, it can be no more extensive than creation.

deep as is the interest which believers have in it, because put in actual possession of the liberty wherewith Christ makes free, is not a work of such interest to those who are the servants of sin, as that they ought to commemorate it by a festive institution. Yet the

of the Bible Sabbath, and their observance well as to believers, " This is the Lord's day of the first day of the week instead, are apt let us rejoice and be glad in it." We think to dwell, with a good deal of earnestness, unbelievers would better wait until they upon the comparative magnitude of the work have some good reason to rejoice and be

5. Do they mean, that the work of reworthy to be commemorated by a Sabbath their minds than the work of creation does ? of rest. It is, of course, always taken for However true this may be with regard to granted in this argument, that the work of true believers, it can not be affirmed of all redemption was finished on the first day of men. Upon the unrenewed, the work of rewith the contemplation of nature's works. will yet be brought up, again and again, as Their devotional feelings-as far as they are capable of such feelings—are more easily excited, and rise higher, in the contemplation of God as the Creator, than they ever do in Government, these newspapers are as free lution and resumed their relation to the them. Why, then, should we say any thing the contemplation of the Redeemer. Yet in the expression of their opinions as is any Presbytery. In 1845, the Bench of Chanthe unrenewed are earnestly exhorted to keep the first day of the week holy, and that too upon the ground of the work of redemption, as if they were as susceptible of being a censorship over them as the Russian. At racter." But the Court of Appeals have at impressed by such an argument as the most devout Christian !

demption made a stronger impression upon all minds than the work of creation, it would pire. The other day, however, the two titled to the funds." be very illogical thence to infer that it is in reality a greater work. As well might one courier. These articles alluded to a recent argue that his restoration from sickness to health was a greater work than the bringing him into existence in the first place. He who is near the gates of death, and is thence the presence of the grand vizier, who promisbrought up by the healing skill of the phy- en to punish the miserable editors, and with sician, is very strongly impressed by the circumstance, and perhaps retains a vivid recollection of it all his life. His birth makes no such impression, and he was unconscious

of it when it took place. Yet was he "fearfrom moral sickness to spiritual health. The ple :-

INVASION OF CUBA.

The Washington Republic says that information has been for some time in possession of the Government, to the effect, that bodies of men were in course of being levied and drilled in New Orleans, New York, and other cities of the Union; that money to a considerable amount has been contributed; that arms have been provided and arrangements made on a large scale with a view to some military expedition. Their movements have

object of the enterprise has been concealed even from the individuals who have embarked in it. Sufficient evidence, however, has been obtained, to satisfy the President that the design of the expedition is an invasion of Cuba, and that the intervention of the Executive was necessary to preserve our neutral obligations, and to keep unsullied the honor of the American people. Accordingly, he has issued the following

Proclamation.

There is reason to believe that an armed expedition is about to be fitted out in the United States with an intention to invade the Island of Cuba, or some of the provinces of Mexico; the best information which the Exgelical men throughout Germany. The Pre- ecutive has been able to obtain points to the sident of that Conference, in concurrence Island of Cuba as the object of this expedition. It is the duty of the Government to observe the faith of treasies, and to prevent any aggression by our citizens upon the ter-

I have therefore thought it necessary and proper to issue this proclamation to warn all citizens of the United States who shall connect themselves with an enterprise so grossly in violation of our treaty obligations, that they will thereby subject themselves to the heavy penalty denounced against them by our acts of Congress, and will forfeit their claims to the protection of their country. No such persons must expect the interference of this Government in any form in their behalf, no matter to what extremities they may be reduced in consequence of their conduct.

An enterprise to invade the territories of a friendly nation, set on foot and prosecuted within the limits of the United States, is in honor of this nation, and therefore I expect all good citizens, as they regard our national reputation, as they respect their own laws, blessings of peace and the welfare of their country, to discourage and prevent, by al lawful means, any such enterprise, and I call upon every officer of this Government, civil or military, to use all efforts in his power to arrest for trial and punishment, every such offender against the laws providing for the performance of our sacred obligations to friendly powers. Given under my hand, the eleventh day of August, in the year of our Lord one thousand eight hundred and forty-nine, and the seventy-fourth of the Independence of the United States. Z. TAYLOR. J. M. CLAYTON, Secretary of State. UNION AND HARMONY CONVENTION .- A Convention, or rather two Conventions, were held at Rome, Oneida County, last week, for the purpose of securing, if possible, a reunion of the Democratic party of New York. The "Free Soil" and "Hunker" parties were each represented by a long list of delegates from every part of the State. After holding separate sessions for three days, and communicating with each other repeatedly agree upon the terms of union, and of course had to adjourn without accomplishing the object for which they assembled. The Free-Soilers would not give up the positions they had assumed relative to the extension of litical test.

According to the Jewburied since the ravages of that disease comish custom, the psalms are chaunted on such menced. How different from the quiet rest occasions. "Indeed," said the informant, ing places of the dead in the country :-we did read psalms, and wept and cried, "A trench about seven feet wide is dug, and, from the inmost recesses of our hearts, varying in depth from 12 to 15 feet, as the invoked salvation from Heaven, not, however, for the defeat of the Hungarians, becompactly as possible; some in a perpendic: cause we deeply sympathize with those brave ular and some in a horizontal position, as conmen, but for our own redemption from Rusintervening spaces to hasten decomposition. Jew is one of the hundreds who now emigrate with their wives and families to Engabove the level of the ground, and is covered with two orthree feet of earth brought on land and other parts for the purpose of prowith wheelbarrows. Of course it is the favor ceeding to the United States of America,

2. Do they mean, that it required a greater exertion of divine power to redeem mankind than to create the world? How often has that figment of a poet's brain,-

"'T were great to speak a world from naught, 'T were greater to redeem ;"been quoted in this connection. It is ex dent that the power which redeems mankind is nothing less than infinite. It is equally evident, that the power which created the WITH WAS INUDILE. II DOID WERE and nothing short of infinite, is it not folly to talk of one being greater than the other ?

"Ave." says the objector, " but when God redeemed the world, it cost the blood of his only-begotten Son; but when he created the universe, he merely 'spake and it was done." But this argument-if argument it may be called-amounts only to this, that in the work of redemption there was, besides the exertion of divine power, the intervention of human sufferings. It does not prove that the divine power displayed was any greater than that which was displayed in the work of creation. We say, that there was the intervention of human sufferings; for i is generally conceded that the divine nature did not suffer. Now, if the divine nature did not suffer, it is quite out of place to arge the sufferings of Christ as evidence that there was a greater exertion of divine power in the work of redemption, than in the work creation. As for the power requisite to sus tain the humanity of Christ under his suffe ings, no one can suppose it to have been greater than what was requisite to create the world; nor can any one reasonably suppose that "his mighty power, which he wrought in Christ, when he raised him from the dead," was any more mighty than that which "spoke a world from naught."

3. Do they mean, that the final results redemption will be greater, and more to th glory of God, than the work of creation But who can tell whether they will be or not? Is this the only world of intelligent beings that God ever brought into existence Who can estimate the amount of glory which will accrue to God from his creatures at last, when they shall all be gathered from a parts of the universe before him ? . But even admitting that the final results of redemption will be more to God's glory than the work of creation, is it any reason for instituting a Sabbath before those results are accom plished ?

which are necessary to make them good be of actual believers in Christ, it is not true rents would prefer to have their children of the ungodly; at least, it is not true of taught by those in whose religious views them in such a sense as that they have good they could coincide. But this privilege can reason to celebrate the work of redemption not always nor even generally be enjoyed. by a commemorative institution. The in^e There are very few localities in this State habitants of the United States have good rea- where sectarian schools, sufficient to meet the son to celebrate the fourth of July, because wants of the people, could be maintained. they have a deep interest in that freedom The effect of the prevalence of the rigid and which the Declaration of Independence sets narrow views to which we have alluded, forth. When the question comes and it would be foolish for them to celebrate up between having schools free to all classes, the fourth of July, because they continue to or no schools at all, we trust the good sense own allegiance to another sovereign. So the of the majority will lead them to decide in work of redemption, great as it may be, and favor of the schools.

subject of it is strongly and vividly impressed, and feels like making it a matter of praise, not only for the remainder of his life, but through all eternity. But surely it does not thence follow that it is the greatest of all works; though it may be, for aught we know. | faith, and given themselves up to the guid-Far be it from us to say that it is not. We do not pretend to be wise on this point. We only say that the fact of its making a stronger

creation, does not prove it to be greater. Or, what do our opponents mean, when they say that redemption is a work vastly greater than creation? Will they please tell us ?

FREE SCHOOLS.

At the election in November next, the oters of the State of New York will be

called upon to say whether the free-school system shall be extended throughout the commonwealth. Many errors and defects, we know, are alledged against that system; still, after looking at them all, we are convinced that the good immeasurably preponderates over the evil, and here we are decidedly in favor of the free schools. To the is not peculiar in this this particular. Our general diffusion of knowledge among the people we are indebted for our free institutions, and upon it we must rely for their per- \$100 per month for wood and washing alone. petuation and improvement. Most heartily, If we eat or drink or wear anything, we must therefore, do we second and support a movement which is designed to secure instruction to all, without money and without price.

Strange as it may seem, this measure is ed anything I have needed, for me or mine, likely to meet with very formidable oppo- and I never expect to want while I am at sition. In a recent number of the Roman Catholic Journal of this city, we find a long the land, and verily thou shalt be fed.' And article upon the subject, in which the project | that promise includes wife and children, and is represented as oppressive, unconstitution- mine among the rest."

al, irreligious, and impious. The idea of the writer seems to be, that schooling is not San Francisco, Mr. Hunt speaks as fol desirable without religion-that the State lows :--

has no business to teach religion-that, therefore, no good can come from free schools increasing. Every day lands among us supported by the State. According to his those who love her walls and gates, and theory, the only way to provide for an education worth having, would be to set up cious to the good is manifold. Still we know says the Jewish Chronicle, Kossuth presentschools for each denomination, or, at least, that the righteous, if true soldiers, are bold schools for teaching the doctrines of his own as a lion; one chasing a thousand, and two denomination. From such views, we of putting ten thousand to flight. Therefore course dissent. We believe that children of the various religious persuasions-Jews, and wicked who crowd in with him. Catholics, Pedo-Baptists, and Baptists-may come together to learn to read, write, and cipher-in short, to pursue all those studies

14. Do they mean, that men have a greater interest in the work of redemption than they and useful citizens-without being either house. The Catholics have lately comhave in creation? However true this may irreligious or impious. No doubt most pa- menced operations. Still my house is filled

"Contracts are nothing in this land of liberty and gold. Companies bound together by the most solemn ties at home, have hitherto dissolved almost instantly on landing. and elsewhere, have often here violated their ance of personal interest. Mining companies have thus far proved a failure. A man who

gets his two ounces a day is loth to share with an unsuccessful partner who gets only his ice or hair ounce. Things are as they an growth 'of the root of all evil,' and the abundant and bitter fruit whose poison worketh death in so many souls."

In relation to house-keeping, Mr. Dwight presents the following facts, which show

any thing but than an encouraging state of affairs :---

"Mrs. H. arrived here from the Islands on the 4th inst. As I anticipated, the native servant whom she brought with her, under a written contract to remain, has gone to the sian slavery and tyranny." This Russian mines. In Honolulu I paid him \$10 per month, he finding himself. Here I paid him \$50 per month and found him in everything. So we have no servant, and our experience native man did our cooking and washing, and found our wood on the neighboring hills. government being insupportable. This was a great saving, but now I must pay

live beyond our income, for rent, wood and washing are equal to my whole salary-say \$200 or more per month. Yet I have no fear that I shall suffer. I never have wantwork in the Lord's vineyard. 'Trust in the fused institution by the prelate, on account

THE GREAT PEACE CONVENTION is now in session at Paris. A letter from Mr. Edmund death. At Buffalo, on the 17th, 22 cases Fry, published in the Christian Citizen, gives the following plan of proceedings for the 6 deaths. At Boston 9 deaths on the 17th

London on Monday the 20th of August, and we shall have a sort of social meeting that evening, for the purpose of mutual introducdoctrine of Baptismal Generation, and that tions, and to settle the regulations for the journey, and to announce the programme for the proceedings of the Congress. The party will start by special train, early on the morning of the 21st, and will reach Paris that evening via Folkestone and Boulogne. There will most likely be something in the shape of a jubilee reception at Boulogne, to welcome us to France. The business of Congress will probably occupy the remains ing four days of the week, and on Monday the 27th, the friends of Peace will give a grand soirce in the largest hall that can be obtained in Paris. The bulk of the party will return to London on Tuesday the 28th but arrangements will be made for those who may wish to remain a few days longer in Paris, to return to London by any train within three weeks, without extra charge."

THE CHOLERA seems to be gradually decreasing throughout the country. At Philadelphia on the 17th, there were five cases and one death; on the 19th, no case nor and 13 deaths. At Albany, on the same day and 20 on the 18th. In Providence, on the same day, five deaths.

In New York, there were 389 deaths by cholera in the week ending Aug. 18th. The following summary of reports by the City Inspector, will show the progress of the disease in New York from its first appearance :----

121 16 -145 159 286 Deaths in the week ending 317 484 - 21 714 " 28 692 Aug. 4 678 423 389 4,429

present Instructors, the friends of the Institute have mide liberal additions to its library, cabinet, and ap paratus, thus furnishing ample facilities for illustrating branches taught in the various departments. The Literary Department is as heretofore under the

supervision of Rev. JAMES. R. 1R1SH, A. M., Pre sident, assisted by other able instructors. In this De UTILITY OF NETTLES .- The Medical Times partment, especial attention is given to the lower Eng

The Department of Natural Science is conducted by At the quarantine ground there is a piti- man-but remembering his cholera specific, perties of our wild plants his peculiar study, ophy, Astronomy, Geology, Natural History, and Chem-With it is connected the Department of Agricultural

The Farmer's Course is thoroughly scientific; embracing the study of the best authors, with daily recitations. During the Winter Term two hours each day will be spent in the Analytical Laboratory, where atudents will be instructed in the constitution of soils and ashes of plants, with a minute examination of their constituent elements, and the various modes of testing for their presence.

A course of lectures is given during the Term on Practical Farming, explaining the relation of Geology to Agriculture, the Soil, the Plant, and the Animal, and their various relations, the Botation of Grops, Feeding Auimals, Manures, Draining Lands, &c., &c. For further information see Catalogue.

Besides Globes, Maps, &c., for the illustration of Astronomy, a Newtonian Telescope of high magnifying in summer, or in the centre of a bed of horse power has recently been added to the apparatus. During the Summer Term, Botany and Geology receive special attention, illustrated by excursions to localities where these sciences may be studied as seen in nature. A Geological and Mineralogical Cabinet is accessible to the students

The Mathematical Department is under the instruc tion of OLIVER B. IRISH, Tutor. It embraces thorough instruction in Arithmetic, and the higher Rouge (La.) Advocate states that, recently, pure and practical Mathematics, with field exercises

fire was discovered issuing from the ground, in Engineering and Surveying. in the lower part of that town, and that for Elocution, embracing Reading, Declamation, Gen eral Oratory, and Writing, receives the special atten

tion of a competent teacher. The Teacher's Department will, as formerly, be in operation during the Fall Term, and last half of the Winter Term. Particular attention to this is solicited

from all who intend to teach district schools. The Female Department is under the care of Miss SUSANNA M. COON, agraduate of Troy Female Sem inary, a lady every way competent for this responsible

No efforts will be spared to render the young ladies of this Seminary truly accomplished, as well in the so cial relations of life, as in the substantial branches of learning and the higher refinements of education. Ample facilities are furnished for pursuing French, Italian, German. Drawing, Painting, Music on the Piano, and Vocal Music.
