LOVE.

Oh! if there is one law above the rest, Written in Wisdom--if there is a word That I would trace as with a pen of fire Upon the unsullied temper of a child-If there is any thing that keeps the mind Open to angel visits, and repels The ministry of ill-'tis Human Love! God has made nothing worthy of contempt. The smallest pebble in the well of Truth Has its peculiar meanings, and will stand When man's best monuments wear fast away. The law of Heaven is Love-and though its nam Has been usurped by passion, and profaned To its unholy uses through all time, Still, the eternal principle is pure; And in those deep affections that we feel Omnipotent within us, can we see. The lavish measure in which love is given. And in the yearning tenderness of a child For every bird that sings above its head, And every creature feeding on the hills, And every tree and flower, and running brook, We see how every thing was made to love, ... And how they err, who, in a world like this. Find any thing to hate but human pride.

REVISION OF THE SCRIPTURES.

Address of Eld. Wm. B. Marson, at the recent Meeting of the American Bible Union.

I am a member of a small family in Zion, and we are a Bible reading and a Bible lov ng fraternity. We love the Bible for various reasons. It has elevated us, as a people, above the heathen nations of the earth, and to it are we indebted for all the hopes we en-

The Bible is God's chosen means of comwithout regard to denominational peculiarities, municating to a sinning world the knowledge is what the world needs, and what it is entitled of himself, his holy law, man's condition as a to, and what every class of Christians should sinner, and his only way of salvation. It is desire.

But by whom, and when, shall this work world. It is a principle that germinates in

But, sir, what is it that makes the Bible work ? It is this: It is a revelation of God -an autograph of Deity. It is divine truth. Now, whatever is said, or can be said, in eulogy of the Bible as the means of turning men from idolatry to the worship of the true God, can apply only to what God has revealed ; this only can produce this desirable effect. All human admixtures with the Word of God are inadmissible; they cannot be harmless. They adulterate the truth, and so far render Christianity, with its glorious characteris. the Bible inefficient for the work assigned it; and we are most solemnly forbidden to add to or take from his words, no matter for what reason or pretence. The Word of God in the inspired originals and so far as its true sense is transferred to other languages, is able to make the man of the men and the means. The English lan God perfect, and to fit him for all good works. guage in the time of King James was unset But so far as a translation fails thus to express tled in its verbal and orthographic depart ing the sands of time from under his feet. God's revealed will, it is disabled to effect this, ments. It was then in its childhood. Man and is weakened in making men wise unto words and phrases then in use are now obse lete. In these respects the English language salvation. It is admitted on all hands, that we have is a much more suitable receptacle of the unnot, in our common English version, such a changeable truths of religion than it then was. pure expression of the mind of Christ. No It is also now extensively used, and promise denomination of Christians claims this purity at some future period to be the medium of in behalf of King James' version. The Papists communication between all civilized nations. denounce it as a whole; commentators of The season while our language is being exevery denomination of Protestants contend tended, should be improved in providing pure version of the English Scriptures, that it that we have not in this version the true import of all that is contained in the inspired may go hand in hand with the extension of originals. Why, sir, a translation of the the language. In a revision of the Scriptures Scriptures, admitted to contain from twenty at the present time, errors may be more easito forty thousands of errors, even thoug ly detected and guarded against, than they many of them may seem to be unimportant could have been when our present version is a reproach to any community of Christians was made. James' revisers risked nothing in who have the means of purifying it. Objecregard to their character for erudition from tions to having these errors removed cannot the common people, for they were not learncome with a pure grace from any people who ed as they now are. All the revisors had to hold that truth alone can convert and save fear in this respect was from the king. At souls. But what could have been reasonably the present time no scholar would hazard his expected better in a version made as this was? reputation for learning by materially depart-The revisers were too much trammeled to give ing from the truth ; for even in the cottages of the Word of God free course. They were the poor, multitudes of our lads and young selected by a Prince, of whose piety we have men, who are looking forward to every honor no guaranty. They were principally of the able and laborious avocation, have studied to Episcopalian national church, between which advantage both the Hebrew and the Greek. and the Roman church, there was but little But, sir, there are strong and deserved at more than an imaginary line of distinction. achments felt by God's people for the pre-Their reformation from Popery appears to have sent version of the Scriptures. It is difficult to been more political than evangelical, and both convince many pious people that God did not the king and his revisers seemed more interestdictate every word of the Bible which they ed in leaving the constitutions of the church unand their fathers have been accustomed to disturbed by their revision, than in having it read. There is a reverence felt for the free from error. The church of Christ is not ous forms of expression found in it. This bound to be guided and controlled by the feeling is not to be soon or easily removed corrupt head of the Church of England. by any revision, however perfect. They Reason, religion, and her fealty to Christ, think that the new Bible will not seem to forbid it. She should be no longer under the them like the old one. humiliating necessity of reading in public But there are objections urged on more seworship, in families, and places of retirement, rious grounds. We are told that the Bible. in her seminaries of learning, in her infant and Sabbath schools, the sacred Scriptures with vation, and therefore it is unnecessary to be many thousands of errors, and knowing them at the expense of time and money in revising Eve!" to be there. Surely the Church of Christ has it. Admit all this. Sinners may be saved what they knew not what manner overtake her; and remember that God made done obeisance long enough to a corrupt and to purge the Scriptures from every known

## HALF-DESTROYED BIBLES.

A father in South Carolina was about sending his son to college. Fearing lest the principles of Christian faith, which he had endeavored to instil into his mind, would be rudely assailed, but trusting in the efficacy of that word which is quick and powerful, he purchased, unknown to his son, an elegant copy of the Bible, and deposited it at the bottom of his trunk. The young man entered upon his college career. The restraints of a pious education were soon broken off, and he proceeded from speculation to doubts, and from doubts The following passage has a touching in- to a denial of the reality of religion. After terest. It is extracted from Mrs. McIntosh's having become, in his own estimation, wiser "Charms and Counter Charms." Euston than his father, he discovered one day, while

rummaging his trunk, with great surprise and The child's disease was scarlet fever. Ten indignation, the sacred deposit. He took it days and nights of ever deepening gloom had out, and while deliberating on the manner in past, and in the silent night, having insisted which he should treat it, he determined that that Evelyn, who had herself shown symptoms he would use it, as he should need it, to wipe of illness through the day, should retire to bed, his razor on while shaving. Accordingly, partiality or prejudice, give a true rendering Euston Hastings sat alone watching with a whenever he went to shave, he tore out a leaf from the originals, whatever consequences lightening heart the disturbed sleep of the or two of the Holy Book, and thus used it till little Eve. It was near midnight when that nearly half the volume was destroyed. But

may, now and then, attempt to re-construct; ful and good; Ultraism is like the task-master and this only, thus efficient in doing this great -or, to make an allusion to a modern classic, but the unshapely masses soon fall of their own weight. They are continually finding like Legree, the tyrant among the lowly, fault with the whole world, its actors, and their contending that his bony, knotty, gnarled fists, methods of acting-carping at every thing were made for the express purpose of beataround them; neither are they at peace ing down and bruising his defenseless victims among themselves-for seldom can they agree -with no oil, no balm, nothing but pepper upon their own distinguishing characteristics; and salt, and alcohol, to pour upon their and if they attempt to construct a platform of wounds.

tics, has long been entreating the acceptance of man. Ultraism, with its gloomy characteristics, in now thrusting itself upon our atten-

> Man is wandering amid doubt and darkness. The swaves of eternity are ever wash-He wants something real, something positive, something to which he can cling with the as-

> surance of support and safety. He needs the Sabbath, with is sacred stillness, its churchgoing bells, its prayers and songs and sermons, to direct his soul heavenward. He needs governments and laws, to restrain him. He needs home scenes and sympathies to give sweetness of spirit. He needs something to call out and cultivate his higher faculties and affections. He needs lights and guides to direct him kindly towards the heavenly hills. Such being the wants of man, judge ye, whether negative, destructive, misanthropic ULTRAISM, or affirmative, constructive, philanthrophic CHRISTIANITY, is the better adapted to meet his necessities. MACOM.

## LOOKING BACK.

When Lot and his wife were running from cursed Sodom to the mountains, to save their but that for which it proposes to make ample, lives, it is said, that his wife looked back from behind him, and she became a pillar of salt. And yet you see that neither her practice,

nor the judgment of God that fell upon her for the same, would cause Lot to look behind him. I have sometimes wondered at Lot in this particular. His wife looked behind her, and died immediately; but let what would become of her, Lot would not so much as look behind him to see her. We do not read that he did so much as once look where she was, might have a place to stand and cry more or what was become of her. His heart was indeed upon his journey, and well it might be. There was a mountain before him, and the fire and brimstone behind him ! His life lay at stake, and he had lost it, if he had but looked behind him. Do thou so run ; and in thy race remember Lot's wife, and remember her commune those who had affended ; but Christ doom ; and remember for what that doom did her for an example for all lazy runners, to the defunct king. She is bound by her vows, by end of the world; and take heed thou fall nots her love to God, and by her duty to the world, and beined many attars smoking to false gods. Bunyan.

# NO GOOD OF COMPLAINING.

"Mamma is asleep," he said, "when she awakes. I will call her.'

"No, no, papa; Eve asleep then." "I will call her at once, then, darling," and he would have moved, but the little hand was laid on him to arrest him.

" No-don't wake poor mamma; papa say Our Father for Eve.

"Will Eve say it to papa? Speak, then ny darling," he said, finding that though the hands were clasped and the sweet eyes devoutly closed, Eve remained silent.

"No-Eve too sick, papa-Eve can't talk so much—papa kneel down and say, Our Father, like mamma did last night-won't you, papa?'

Euston Hastings could not resist that plead ing voice ; and, kneeling, he laid his hand over the clasped ones of his child, and for the first

time since he had murmured it with childis earnestness in this mother's ear. his lips gave utterance to that hallowed form of praver which was given to man by a Divine Teacher. At such an hour. under such circumstances it could not be uttered carelessly; and Euston Hastings understood its solemn import-its recognition of God's sovereignty-its surrender of all things to Him. He understood

# THE SABBATH RECORDER, NOV. 4, 1852.

# The Sabbath Recorder. New York, November 4, 1852.

82

## LIMITED SPREAD OF SABBATARIANISM To-the Editors of the Sabbath Recorder :-

I read your paper with much interest, and have not been better appreciated.

I often mourn on account of the little success that seems to attend the efforts to promote the knowledge and observance of the true Sabbath. It seems to me one of the great mysteries of providence, that such valuable men as Begg of Glasgow, Black of London, &c., should labor so much without success. I For I have never heard that they have been the means of converting any to their views.

I am very much interested in the tidings from Jerusalem, and have often thought should like brother Brown's opinion on the question, " If Jerusalen should be again built up, the Jews brought to embrace the Messiah. and the gospel have a universal spread, will the Bible Sabbath be again restored ?" Is there any passage of Scripture that predicts prayer himself, even with "great conflict." this

Would it not be a profitable way of spend ing the evening after the Sixth-day, to spend prayer, without which they did but labor in it in special prayer for the universal spread of the Sabbath ?- those who can meet to the fire. gether in a social prayer meeting, to make that the special subject of prayer,; those who that they rely more upon controversy than cannot meet together on this evening, to devote upon prayer. This is the age of disputation, the time to the same purpose in their own families, or closets, &c.

I should very much like to see some remarks in the *Recorder* on these questions. I was considerably affected, lately, in read ing a piece in the Recorder on emigration, with the account of that brother who was so anxious to promote the Sabbath, and preach the Gospel, and seemed willing to make any Bliss sacrifice for that object, yet never saw his desires gratified, but, on the contrary, all his children scattered, and not one of them continuing to keep the Sabbath. If the thing

> was from God, would it not have prospered? Remarks.

The foregoing is from a worthy female correspondent, whose exercises of mind on the particular points referred to are, probably, similar to those which many others have had.

In regard to the question, Whether the Bible Sabbath will be restored, when Jerusa-God, though the schemes of men to promote lem shall be rebuilt, and the Gospel

and spirit. It is certainly all this, when ac- have but a very imperfect comprehension companied with the life giving influences of Those who determine their duty by the way the Holy Spirit. Yet, as if we were distrust- in which its dispensations affect them person ful of its power, we are always trying some ally, will prove as variable as the wind; no argument of our own. because there are contradictions in God's

MINISTERIAL LABOR IN WISCONSIN. We have received from Eld. Varnum Hull, of Milton, Wisconsin, two business letters, in each of which he speaks of the en couragements to ministerial labor in that State. In his first letter he writes :---"For the encouragement of the friends,

would say, that within some nine months pas sixteen families, residing about twelve mile from us, have embraced the Sabbath, and I ally. Among the converts is one man who was educated for the Lutheran ministry. had the pleasure of baptizing him and his wife a few days ago, and I have strong hope that he will do the cause good service. number of families in other places in this State have recently commenced keeping the Sabbath, and I am of the opinion that labor can be bestowed in this region of country to better advantage than in any other place. The ground ought to be immediately occupied We very much need a man here to visit these small places. With proper attention, I think that Wisconsin may yet be the strong-hold d Sabbath-keepers."

Eld. Hull's second letter speaks of being engaged, with much encouragement, in a pro tracted meeting at Albion, and says :---

"We need more faithful ministerial labor ere, and must have it. The Sabbath is receiving attention, and quite a number have embraced it. We have recently had some discussion on that subject before a Baptist Ministerial Conference. I am engaged to preach | our or five discourses on it soon in the village of Whitewater."

In this connection it may be proper to say hat the claims of Wisconsin, as a field for min isterial labor, were considered by the Board of the Seventh-day Baptist Missionary So ciety at their last meeting, and it was voted to continue to aid in sustaining the ministry a Walworth; and also to favor a proposition of the Wisconsin Association, to emply a minister for a year in visiting and preaching among the scattered Sabbath-keepers in Northern Wisconsin, by paying half the expense of such

ing us of the Apostle's warning against "foolish jesting, which is not convenient;" but the low state of true religious feeling in our land is indicated by the extensive circulation of such foolery.

The English portion of the deputation in behalf of the Madiai left England in the be ginning of the week. They were to be joined by those of the Continental Churches at Marsailles, and proceed together to Tuscany. Very think a church will be organized there eventu- large meetings have been held, both in Glasgow and Edinburgh, within these few days, at which due sympathy was expressed for the sufferers, and resolutions to endeavor to find them help. The King of Prussia's Charge d'Affaires in Tuscany energetically remonstrated against the intolerance displayed. In deed, rarely have worth and numbers more decidedly interposed; but we have no confidence that even such combination will obtain the desired result. The prayer of faith has higher and holier influence; and although we are persuaded many are seeking to the Lord for the faithful pair, we yet fear that there is a dangerous dependence on human help. Our Queen passed through Edinburgh this

week, on her way from the Highlands to England, and before now has probably returned to mingle in the bustle and anxieties of Gov ernment.

The Prince Albert, which was sent out by Ladv Franklin in search of her husband about two years ago, has returned without tidings or traces of the lost. Having, how ever. visited the rendezvous of the more re cent expedition, we have favorable account of the openness of Wellington Channel, and of the departure of the vessels by the course which Penny discovered last year.

## DANIEL WEBSTER.

A large space in the daily papers is occu. pied with accounts of Mr. Webster's death and funeral, and the deep sorrow which pervades all classes in every part of the country. Of his last hours we have already given every important particular. His funeral took place at Marshfield on Sixth-day last, and was at. tended by at least 10,000 persons, among whom were General Franklin Pierce, Governor Marcy of N. Y., Hon. Abbott Lawrence. Hon. Edward Everett, Hon. Charles Ashman, Governor Boutwell, Ex-Chancellor Jones of N. Y., Jadge Sprague, and many other distinguished men. The services were conducted by Rev. Mr. Alden, the parish orthodox clergyman. They were very simple, consisting of a short address and prayer. inse

At nine o'clock the body had been removed from the library to the lawn in front of the mansion, and placed on a bier beneath one of the large poplar trees. From this hour up to half-past one the thousands present came around and took a last view. The counter nance was serene and life-like. Two garlands of oak leaves and acorns, and two bouquets of flowers, were placed on the coffin. Many shed tears and grieved for the loss as of a departed father or dear friend.

The solemities closed at the mansion at . half-past one, when the funeral cortege proceeded to the tomb, about half-a-mile distant. There were no ladies in the procession, and no carriages, but so great was the length that scarcely two-thirds had left the house when the body reached the tomb. Here the procession passed round the coffin, the lid of which was open, and at precisely half-past two o'clock the tomb closed on the mortal remains of Daniel Webster.

A Proclamation

New York.

The varied blessings enjoyed by the people of this State during the past year, call forth the grateful tri bute of praise and devotion due to our heavenly Bene factor. An abundant harvest, crowning the labors o the husbandman, and filling the land with plenty; peace with all nations ; the maintenance of social order private residences in Providence, has been and free institutions, imparting fresh vigor to the cause by the late John Brown, in 1778. Connected the general prevalence of health; the merciful deliver ance of the towns and cities which were visited for

eason by the destroying pestilence, and the innumerable benefits which have been conferred upon our commonwealth, proclaim the infinite goodness and protecting care of the Creator and Supreme Ruler of the Universe. In compliance with established assge, I respectfully recommended to the people of this State the observance of Thursday, the 25th day of November next, as a day of prayer and thanksgiving. In witness whereof, I have hereunto signed my name

and affixed the privy seal of the State, at the City o Albany, this 16th day of October, in the year of our Lord 1852. By the Governor : WASHINGTON HUNT. JAMES F. RUGGLES, Private Secretary.

Provisions of the New Postage Law.

# THE SABBATH RECORDER, NOV. 4, 1852.

### The Boa Constrictor.

84

The ground color of the body of the great boa, which is the largest and strongest of the serpent race, is yellowish gray, on which is distributed, along the back, a series of large, chain-like, reddish brown, and sometimes perfectly red variations, with other small and more irregular marks and spots. The great boa is frequently from twenty-five to thirty feet in length, and of a proportionate thickness. The rapacity of these creatures is often their own destruction ; for whenever they seize and swallow their prey, they seem like surfeited gluttons, unwieldly, stupid, helpless, and sleepy. They at the same time seek for some retreat, where they may lurk for several days together, and digest their meal in safety. The smallest effort will then destroy them; they scarcely can make any resistance; and, equally unqualified for flight or opposition, even the naked Indians do not fear to assail them. But it is otherwise when this sleeping interval of digestion is over; they then issue, with fami hed appetites, from their retreats, and with accumulated terrors, while every animal of the forest flies from their presence. One of them has been known to kill and devour a buffalo. Having darted upon the affrighted beast, (says the narrator.) the serpent instantly began to wrap him round with its volumnious twistings; and at every twist the bones of the buffalo were heard to crack as loud as the report of a gun. It was in vain the animal struggled and bellowed; its enormous enemy entwined it so closely, that at length all its bones were crushed to pieces, like those of a malefactor on the wheel, and the whole body was reduced to one uniform mass; the serpent then untwined its folds, in order to swallow its prey at leisure. To prepare for this, and also to make it slip down the throat more smoothly, it was seen to lick the whole body over, and thus to cover it. with a mucillaginous substance. It then began to swallow it, at the end that offered the least resistance; in the act of swallowing, the throat suffered so great a dilation that it took in at once a substance that was thrice its own thickness.

This animal inhabits India, Africa, and South America. With respect to their conand what is very extraordinary, they can all Nations. or, as it is more familiarly termed, ry out the general object. explain this, it must be observed, that the jaws by a statement of the general organization of Whetten, Secretary. of this animal do not open as ours, in the man- the enterprise. ner of a pair of hinges, where bones are ap-

### Look to your Orchards.

As soon as the first symptom of failure in old orchards appears, they should, in addition to good cultivation, be freely manured in conwrought, can hardly be understood by one who has not witnessed the result. The following experiment, similar in nature, but differing in the mode of performance, described by H. to be interesting.

trees standing on my ground, none of which rely on individual enterprise and activity. were less than thirty years old. One of these trees, an old fashioned Newton Pippin, and a great favorite, had borne moderately; the other two made out between them to 'get up' about a dozen apples a year, just to let me know, I presume, that they ' could do it,' but were perfectly indifferent how it was done.

I last summer undertook the renovation of these trees. For this purpose, I opened between them trenches, say ten feet in length. two feet in depth, and about eight feet equally distant from tree to tree. The roots, which were once united in their operation, were, of course, all cut off, the trenches filled with wellrotted manure, and closed. I finished by giving each of the trees about a peck of charcoal, mixed with the same quantity of ashes; and now for the result. I have this year gathered from the 'two outcasts' just mentioned, instead of my annual dividend of a dozen apples, from 6 to 8 bushels a piece, as handsome fruit as you ever saw, with about the same proportion from the third, which has always been a moderate bearer.

Transplanting Trees.

All trees, except peach, apricot, nectarine, and all other similar sorts, should be transplanted in the autumn or late fall. By choosing this season of the year the trees may be stripped of leaves, and thus the great surfaces fastened in among the rails, and the efforts of for evaporation will be removed. The body of the tree, by this treatment, may retain its ly unavailing. The whistle of the express moisture, not losing it by the active powers of growing leaves. This gives the roots an opportunity to establish themselves, and to retain the moisture received by simple absorption before the formation of spongioles, which draw water by the natural laws governing the action of plants. Such trees planted out in the spring would be parting with large amounts of moisture from surfaces of leaves, before the roots were sufficiently established in their new full force upon the terrible obstacle. The were taken in on Friday, her heavy machine- that he had never expected to see such a location to supply the necessary amount to compensate for evaporation. The slightest drying of a tree, at the time of transplanting, is likely to interfere with its organism, and to give rise to after unhealthy habits. When here are at hand it is well. They did not hear of the danger they they did not hear as this causes the particles of earth to come in direct contact with the roots, and to get up a ness and decision saved the passengers, is a condition of the soil more closely resembling Pole, and will be the object of some tribute that from which the tree has been removed. It is impossible by, pounding or stamping to settle earth as judiciously as by the use of water.
